

## HELP US DECIDE THE FUTURE OF THE WALLACE CIVIC AUDITORIUM SITE!

Built in the 1940s to honor veterans, the Wallace Civic Auditorium site served as our high school until the current building was constructed in 2003. The site was abandoned in the 2020s, and asbestos, lead-based paint, metals, and mold were all confirmed at the site last year. Now, Wallace School District wants your input on how to best clean up and reuse the site for the benefit of our local District children and families.

Owned by Wallace School District, this property has long been a part of our community, so we want to hear from you! Please scan the QR code to take our short survey (**about 5 minutes**). Responses are needed by July 31, 2025.
