Entrance, Placement, and Transfer

Entrance, Date, and Age

No pupil may be enrolled in the kindergarten or first grade whose fifth or sixth birthday respectively does not occur on or before the first day of September of the school year in which the child registers to enter school. Any child of the age of five years who has completed a private or public out-of-state kindergarten for the required 450 hours but has not reached the age and date requirements set above shall be allowed to enter the first grade.

Initial Enrollment

Immunization records or an appropriate waiver and birth certificate are required for admission to all District schools (subject to provisions of McKinney Homeless Assistance Act). Communication of the requirement for immunization records or exemptions shall comply with - District Policy 3525.

If a birth certificate is not provided upon enrollment of a student for the first time in elementary or secondary school, the District shall notify the person enrolling the student in writing that he or she must provide within 30 days either a certified copy of the student's birth certificate or other reliable proof of the student's identity and birth date, which proof shall be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate. Other reliable proof of the student's identity and birth date may include a passport, visa, or other governmental documentation of the child's identity. If the person enrolling a student fails to provide the information within the requested 30 days, the District shall immediately notify the local law enforcement agency of such failure and again notify the person enrolling the student, in writing, that he or she has an additional ten days to comply. If any documentation or affidavit received pursuant to this section appears inaccurate or suspicious in form or content, the District shall immediately report the same to the local law enforcement agency. Local law enforcement will investigate these reports. Failure of a parent, or person in custody of a child, or a person enrolling a student, to comply with the documentation requirements of this section after a lawful request shall constitute a misdemeanor.

A student transferring schools within the District need not provide proof of identity and birthdate if the student's record already contains such verified information.

Placement

The goal of the District shall be to place students at levels and in settings that will enhance the probability of student success. Developmental testing together with other relevant criteria, including but not limited to health, maturity, emotional stability, and developmental disabilities, may be considered in the placement of all students. Final disposition of all placement decisions rests with the principal, subject to review by the Superintendent and the Board.

Transfer

District policies regulating pupil enrollment from other accredited elementary and secondary schools are designed to protect the educational welfare of the child and of other children enrolled in the District.

Elementary Grades (K-8): Any student transferring into the District will be admitted and placed on a probationary basis for a period of two weeks.

Should any doubt exist with teacher and/or principal as to grade and level placement of the student, the student shall be subject to an educational assessment to determine appropriate grade and level placement.

During the two-week probationary period, the student will be subject to observation by the teacher and building principal.

Secondary Grades (9-12), Credit Transfer: Requests for transfer of credits from any secondary school shall be subject to a satisfactory examination of the following:

1. Appropriate certificates of accreditation;
2. Length of course, school day, and school year;
3. Content of applicable courses;
4. The school facility as it relates to credit earned (i.e., lab areas for appropriate science or vocational instruction);
5. An appropriate evaluation of student performance leading toward credit issuance; and
6. Final approval of transfer credits will be determined by the high school principal, subject to review upon approval by the Superintendent and Board of Trustees.

Transfer from Persistently Dangerous Schools

If any school within the District is found to be persistently dangerous in accordance with federal law, students attending the school shall be permitted to transfer to another traditional or charter school within the District which is not persistently dangerous. The transfer may be either permanent or temporary and lasting until the school of origin is no longer designated as persistently dangerous. Parents/guardians of students shall be notified that the school has been designated as persistently dangerous within ten days of being so designated. Within 20 days of receiving such notification, students may be transferred to another school within the District.

Any student who is the victim of a violent criminal offense on school grounds shall be permitted to transfer to another school within the District.

Open Enrollment by Students Who Reside Within and Outside the District

The Board of Trustees recognizes that some of its patrons may want to enroll their children in a different school than the school that serves the attendance area in which they reside. The Board also recognizes that some out-of-District parents/guardians may want to send their child to a District school. Therefore, this policy is adopted to allow all in-District and out-of-District patrons to choose among this District's schools under specified conditions. In making a decision on a student's open enrollment application, the District shall consider the needs of the student requesting the transfer as well as the other students affected by the transfer and will accept students if capacity allows.

The District will prioritize applications from students who live within the District and may deny students for one or more of the following reasons:

1. The student was expelled by the previous District;
2. The student has a documented history of significant disciplinary issues or history of chronic absenteeism. However, students applying who have a 504 plan or IEP may not be denied enrollment or have enrollment revoked if the behavior resulting in disciplinary action or chronic absenteeism is a manifestation of the student's disability.
3. The receiving school within the District does not have space available according to the capacity limits set by the Board of Trustees.

The process outlined in this policy is required for admission to any school within the District and shall be initiated again when a change in grade warrants a change in school – such as when the pupil wishes to continue open enrollment into middle school or high school.

Due process for all students remains the same regardless of which school they attend within the District and regardless of where the student resides once accepted under the open enrollment policy. However, this may not apply to students with disabilities who have transportation identified in their IEP as a related service need.

Transportation

Parents/guardians of a student accepted under this policy will be responsible for transporting the accepted student. If bus space is available, then students accepted under the open enrollment policy may be transported from an appropriate, established bus stop within District boundaries.

Sports

Eligibility rules for participating in extracurricular activities shall apply to students who request to attend a different school as described in this policy and any related procedures.

It is recommended that a student who is considering submitting an open enrollment application to this District, and who anticipates participating in a sport governed by the Idaho High School Activities Association (IHSAA) review IHSAA rules prior to submitting their open enrollment application. Certain school transfers could lead to a student being ineligible to play at the varsity level for one year.

Application/Approval Process

Applications will be accepted on a form provided by the State Department of Education

At the time of application, the District will provide the student's parent/guardian a list of eligible reasons for denial or revocation of open enrollment.

Maximum Capacity

The District will only accept an open enrollment student if the grade level and/or programs they require are below the capacity limits specified in 3010P. The District shall report, at least four times during the school year, the space available at each grade level, by school, using these capacity limits and will post it prominently on the District website.

The Superintendent shall establish a procedure for:

1. Determining which students are chosen when classroom space allows the admission of some, but not all, qualified applicant;
2. Notifying parents/guardians of the possible reasons for denial or revocation;
3. Notifying parents of the action taken on the open enrollment application including the reasons for the denial of any application;
4. Removing a student from a transfer school, including the grounds for removal, parent notification, and the appeal process; and
5. Notifying parents/guardians of the appeal process available to them in the event their student's application is denied.

Re-enrollment

Optional: The District will provide a form for parents/guardians that will serve as a notice of intent to re-enroll.

Students who reside in the District and move out of their school attendance zone during the school year must initiate an Open Enrollment request to stay in their school.

Revocation Open Enrollment

Open enrollment students are required to comply with all District policies. Unacceptable behaviors by a student or false or misleading information on their open enrollment application are grounds for the District to remove an open enrollment student at any time. The District may revoke a student's enrollment if one or more of the following occurs:

1. The student is chronically absent.
2. The student commits repeated, serious disciplinary infractions.
3. The student has been expelled.
4. The number of resident students exceeds the capacity limits set in Procedure 3010P. A student's open enrollment cannot be revoked on these grounds if a student has attended the receiving school for more than two consecutive school years. If a student's enrollment is revoked for this reason, the District shall offer information about other District schools that may be accepting open enrollment students.

Students under consideration of revocation who have a 504 plan or IEP may not have enrollment revoked if the behavior resulting in disciplinary action or chronic absenteeism is a manifestation of the student's disability.

Student Appeals

If an open enrollment application request is denied or revoked, a parent/guardian may request an administrative review by the Board. The parent/guardian must request the review within five school days of receiving the written denial notice. The Board shall consider the appeal at its next regularly scheduled meeting and issue its decision in writing.

Student Rights and Responsibilities

All student's rights and responsibilities remain the same regardless of what school they attend within the District and regardless of where the student resides once accepted under the open enrollment policy.

Preventing or Recruiting Potential Open Enrollment Students

Neither the District nor its employees will take any action to prohibit or prevent application by a student to attend school in another school district or to attend another school within the District. In no event is the District, or an employee of the District to recruit students outside of their attendance area. Violation of this policy may involve disciplinary action up to and including dismissal.

Evaluation of Policy

Annually, the Superintendent shall report to the Board the effect of this policy. The report should include the number of open enrollment requests accepted or denied by each school, the reasons for denial, and any unanticipated results of this policy.

Open Enrollment Procedures

Open Enrollment Application forms are available at any Wallace School District school. Students who reside in the District and move out of their school attendance zone during the school year must initiate an Open Enrollment request to stay in their school. The application, together with the student's cumulative record, special education file, IEP, or other applicable documents, if any, shall be submitted to the receiving district for enrollment during the following school year. The District will not admit any student prior to viewing that student's records from their previous school districts.

The District has the option of accepting a student who does not meet the criteria set forth herein, if the student agrees to special conditions of admission, as set forth by the District.

No tuition shall be charged when a student from another school attendance area or other Idaho school district attends a District school as described in this procedure and the related District policy.

The board will make all final decisions concerning open enrollments.

Application for District Students

1. For students who reside in the Wallace School District, the parent/guardian completes the Open Enrollment Application form and submits it to the principal of their attendance zone school (home school).
2. The home school principal sends the form to the out-of-attendance area (receiving school)

Application for Out-of-District Students

For students who reside outside the District boundary, the parent/guardian shall complete the Open Enrollment Application form and submit it to the principal of the school they wish to attend (receiving school).

Decision Regarding Application

Once the receiving school principal receives the application from an in-District or out-of-District parent/guardian, along with the student's file from their home district, the principal or designee makes a recommendation to approve or not approve the transfer using the criteria set forth in Policy 3010.

The principal sends the form to the Superintendent, who shall:

designate an administrator to evaluate data, if any, and/or the placement options. After receiving the student's file, the designee has discretion to review and accept or deny the open enrollment applications on a case-by-case basis, considering and applying the factors noted above. The administrator, if possible, should be knowledgeable and/or review the applicable records concerning:

1. The student;
2. The student's disciplinary record;
3. The student's attendance record;
4. The student's disability, if applicable;
5. The placement options, given the student's academic history;
6. The student's academic history;
7. The student's disability evaluation data, if any; and/or

8. The placement options.

Applications will normally be considered on a “first-come first-serve” basis.

However, in situations where openings are limited and applications are received in a similar timely fashion, the Superintendent may give priority if a student:

1. Has a brother or sister enrolled at the requested school;
2. Has a parent/guardian who is employed by the District;
3. Has a unique situation or extraordinary circumstances; or
4. Seeks full-time enrollment rather than part-time enrollment

Any non-resident student placed by court order under the Idaho Youth Rehabilitation Act or the Child Protection Act and residing in a licensed home, agency, or institution located within the District shall be enrolled and shall not be charged tuition.

Homeless children, as defined by the Steward B. McKinney Homeless Assistance Act (P.L. 100-77), may attend any school district or school within a district without payment of tuition when it is determined to be in the best interest of the homeless child.

The Superintendent will notify the parent/guardian of their decision.

If the request for open enrollment is denied, the denial will include a written explanation. If the application is denied because classroom capacity has been reached at the school of choice, the denial may include information about other schools in the District that are below capacity. All parents/guardians whose open enrollment application for a student is denied shall be provided with notice of the denial and information about their options to appeal the denial.

If the request for open enrollment is approved, the notification will inform the parents of the following:

1. Parents must provide transportation or get student to the nearest District bus stop, if space is available;
2. Parents must notify the District of each year regarding their intention to re-enroll their child under the Open Enrollment program;
3. That open enrollment may be revoked if the student presents issues of chronic absenteeism, commits serious disciplinary infractions, is expelled, or if the receiving school exceeds maximum capacity with resident students within their first two years of admission; Grounds for Denial of Application

Factors which may cause an Open Enrollment Application to be denied include:

1. A school, grade, or program(s) has lack of available classroom space and/or staff. The enrollment of a student from another District or attendance zone shall be deemed to constitute a hardship if it would:

Grade	Class Size
K-1	20
2-3	20
4-6	23
7-12	145 students per teacher per day OR Core classroom of 26 OR Grade level of 46
Special Education caseload, Self-Contained	An average of 15 students per teacher

2. The student has been suspended or expelled.
3. The student has a documented history of repeated serious disciplinary infractions.
4. The student has issues of chronic absenteeism. A student is considered chronically absent if the student is absent 10% or more school days during the school year.
5. It is determined that information on the Open Enrollment Application has been misrepresented or was incomplete.

However, if the student has a 504 plan or IEP and the disciplinary or absenteeism issues are a manifestation of the disability, this shall not be grounds for denial of the application.

Revocation of Open Enrollment

As long as an open enrollment student's parent/guardian has, before the preceding February, notified the District of their intention to re-enroll the student, the Superintendent shall treat that student as if they reside in that school's attendance area. However, the District reserves the right to remove an open enrollment student if:

1. The student has a documented history of chronic absenteeism;
2. The student has a documented history of repeated serious disciplinary infractions;
3. The student has been expelled.
4. The number of resident students exceeds the capacity limits set in this procedure. A student's open enrollment cannot be revoked on these grounds if a student has attended the receiving school for more than two consecutive school years. If a student's enrollment is revoked for this reason, the District may offer information about other District schools that may be able to accept open enrollment students.

If a student's open enrollment is revoked, the parent/guardian appeal the revocation to the Board within five school days.

The Board of the receiving school must render a decision to the parent/guardian at their next regular meeting, and the Board must issue their decision in writing. The decision of the Board may be appealed to the State Board of Education.

If a student who is a resident of another district applies to this District and is accepted under the terms of this policy and fails to attend, they shall be ineligible to apply again for open; enrollment in this District.

Students with Disabilities

In-district and out-of-district students with disabilities are not treated differently from students without disabilities with respect to consideration for placement in the school of their choice, unless the District has made an individual determination that disability-related needs of a particular student with a disability cannot be reasonably met at the school of their choice. Additionally, students applying who have a 504 plan or IEP may not be denied enrollment or have enrollment revoked if the behavior resulting in disciplinary action or chronic absenteeism is a manifestation of the student's disability.

When there is a transition from one school to another, such as elementary school to middle/junior high school, a new application is required due to different capacity limits.

Enrollment and Attendance Records

Average Daily Attendance

A day of attendance is one in which a pupil is physically present for a full day (at least four hours for grades 1 through 12 and at least two and one-half hours for kindergarten) under the guidance and direction of a teacher or other authorized school personnel while school is in session or is a homebound student under the instruction of a teacher employed by the District.

Average Daily Attendance (ADA) is the aggregate number of days enrolled students are present divided by the number of days of school in the reporting period. Student attending school in another state bordering the student's resident district shall be counted for purposes of ADA. Students for whom no Idaho school district is a home district shall not be counted for purposes of ADA. Funding for districts is based on ADA and must be accurate.

Attendance Accounting

Days present and absent for every student are to be recorded in each building for the purpose of informing parents of a student's attendance record.

Part-Time Attendance/Dual Enrollment

For purposes of this policy the term “non-public school student” is any student who is enrolled in a non-public school (including a home school or private school), enrolled in a public charter school, or enrolled in a post-secondary institution.

Any non-public school student will be allowed to enroll in the District and be entitled to participate in any curricular or extracurricular program, subject to the same requirements as other students who are enrolled full-time in the District and subject to the requirements set forth below in this policy.

Additionally, the District shall have an option for joint enrollment in a regular public school and in an alternative school.

Non-public school students admitted to the District shall only be on school property during the hours of enrollment or as otherwise indicated by the Superintendent or principal. The District will not be responsible for the student during non-enrollment hours or times. Any transportation needs for such students not provided for otherwise under this policy during the school day shall be the sole responsibility of the student and their parents/guardian.

Admittance

The parent/legal guardian of any non-public school student wishing to admit their son or daughter in this District for any academic or nonacademic program must register the student and provide the following prior to acceptance of any such student:

1. Birth certificate;
2. Evidence of residency within the District;
3. Immunization records or an appropriate waiver as described in Policy 3525; and
4. Student records from the previously attended public school, if any, and any other records providing academic background information.

Dual enrolled students may enter any program available to other students subject to the same responsibilities and standards of behavior and performance that apply to any student’s participation.

Extracurricular Activities

Participation in extracurricular activities shall be subject to Policy 3031.

Average Daily Attendance

Students who are dual enrolled (i.e., enrolled on a part-time basis) shall be used in calculating the District’s State fund, but only to the extent of the student’s participation in District programs.

Priority

Priority for enrollment, when school programs reach maximum capacities, will be given to students enrolled on a regular full-time basis. If a number of non-public school students

request admission into the same class, they will be accepted on a first-come basis. In the event the class enrollment position of a non-public school student is needed for a regular full-time student during the course of the year, the full-time student will have priority for the position beginning with the semester after the need is identified.

Transportation

All non-public school students will be eligible for District transportation services. A public charter school student or nonpublic student, upon admission to a school in this District, may ride a school bus on regularly scheduled routes, including activity bus routes, and use regularly established bus stops or stops which would require no deviation from the regularly established bus route. No alteration of routes will be made to specially accommodate a dual enrollment student. If a dual enrollment student attends only part time, the District may furnish transportation at the regularly scheduled time closest to the time period for which a student is enrolled (i.e., morning busing for a.m. classes or afternoon busing for p.m. classes). The District will not provide such transportation if there is no available space, if the furnishing of such transportation would cause a deviation or alteration of the regularly established bus routes or stops, or if the furnishing of such transportation would require the purchase of additional or substitute equipment.

Graduation

In order to graduate from this District, all non-public school students must meet the same grade and other graduation requirements as regular full-time students as outlined in Policy 2720.

Mixed Curriculum

If a public charter school student or nonpublic student wishes to attend activities or programs in a particular discipline, in a class or grade where the curriculum is merged or integrated, such request shall be made in writing particularizing the subject matter presentation which the student desires to attend (i.e., art instruction in a third-grade class). The teacher and principal of that school shall, upon request, provide scheduling information to the dual enrollment student. It shall be the dual enrollment student's responsibility to contact the District and ascertain when such subject matter will be presented. Where certain subject matter is integrated into a mixed curriculum, no change in the presentation of that curriculum needs to be made because of a nonpublic student's request for attendance. It is also the intent of this policy to ensure that the teacher's right to integrate disciplines and be flexible in planning and modifying the daily classroom presentations shall not be hindered or restricted in any way.

IDEA/ADA/Section 504 Students

Parents who wish to have a dual enrollment student's disability accommodated by the District via a 504 Plan or who wish to have their student ~~to be~~ enrolled in special programs must comply with the requirements of the Individuals with Disabilities Education Act (IDEA) and the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act of 1973 (Section 504).

If a dual-enrolled student or a student enrolled part-time at a District school is found to be eligible for a 504 Plan, the District's process to create and implement a 504 Plan for a student shall be followed.

Extracurricular Activities – Eligibility for Students Not Enrolled for Academic Activities

The following rules apply for non-public school students who wish to participate in nonacademic school activities, such as extracurricular activities, for which public school students must demonstrate academic proficiency or eligibility. For the purposes of this policy, “non-public school student” means a student who attends a public charter school, home school, or private school regardless of whether they are dually enrolled for academic or instructional activities as described in Policy 3030:

1. Non-public school students must meet the same eligibility standards as full-time District students;
2. The non-public school student must, on any State Board of Education recognized achievement test, portfolio, or other mechanism, demonstrate composite grade-level academic proficiency;
3. The non-public school student must achieve a minimum composite, core, or survey test score within the average or higher than average range as established by the test service utilized on any nationally-normed test. The minimum score on each assessment is the fifth stanine for the battery total score. The parents/guardian of a dual enrollment student are responsible for obtaining third party testing for their child at their expense in accordance with I.C. 33-203 and State Board of Education rules. Demonstrated proficiency shall be used to determine eligibility for the current and next school year, not to exceed a period of 12 months from the date the test results are released;
4. Non-public school students must be provided the opportunity to take State tests or other standardized tests given to all regularly enrolled public school students when pre-arranged with the principal of the building where the student is registered.
5. A non-public school student will be subject to the same requirements as public school students regarding school attendance on the date of an activity. If the non-public school student is not scheduled to attend academic courses in the District on activity days, the non-public school student’s primary education provider shall provide assurance to the District that such student has met the attendance requirements in the non-public school academic setting. The primary education provider shall also be responsible for the oversight of any other academic standards relating to participation in nonacademic activities.

Attendance Policy

In order to graduate from Wallace Jr/Sr High School, a student must complete 48 credits. Completion of a course at Wallace Jr/Sr High School will be defined as 60% mastery of the material and attendance to include not more than six absences per semester. This attendance criteria is based on the theory that prompt and regular attendance in school is the beginning of dependability in adult business, personal, and social life. Furthermore, regular attendance is important, because valuable skills and information gained in the classroom may or may not show up on tests or be reflected in an academic grade. The general welfare of all students is best served by regular attendance.

1. A student will be allowed six absences per class, per semester. Any absence beyond that number may mean a loss of credit in those subjects missed.
2. The ONLY absences that WILL NOT be used in calculating the attendance record are:
 - A. Those that occur due to school-sponsored activities, since these are considered an equivalent educational experience. These exemptions will apply to students participating in sports events, cheerleading, music related events, FFA trips, academic field trips, and others deemed co-curricular.
 - B. Bereavement in the immediate family (grandmother, grandfather, father, mother, sister, brother). Any extended bereavement may be reviewed by the Attendance Board;
 - C. Subpoenas to appear in court or court-ordered, out-of-district placements for special services accompanied by court statements; and
 - D. Illness or hospitalization verified by a doctor's statement.
 - E. Medical and Dental appointments confirmed with a note or verified by a doctor's statement.
3. Absences which will be counted in the six-day limit will include such areas as: family trips, workdays, vacations, visiting friends or relatives, suspension in and out of school, watching tournaments when not an actual participant, hair, or photography appointments, skiing, hunting, attending concerts, shopping, or any others not mentioned which are unacceptable to the Attendance Board.
4. After three or four absences from school/class, a letter will be sent to the student's home, indicating the school policy and the number of days missed.

5. After five absences, another letter will be sent, indicating the severity of the situation and explaining in detail the alternatives for non-compliance.
6. After going over the sixth absence, the student may have credit withheld. That student, with parental accompaniment, must appear before the Attendance Board, consisting of the high school principal, the guidance counselor, and those teachers whose classes the student has exceeded the allowable number of absences.
7. This Board will review the absence report to determine if the student will have credit withheld, which will occur unless extenuating circumstances surface.
8. The Attendance Board can, after hearing a student's/parent's appeal for retention of credit, deny credit or put certain stipulations on a student whose credit will be dependent upon an agreement reached with the student and parents concerning attendance for the rest of the semester.
9. Any decision to withhold credit can be appealed to the Superintendent and/or to the Board. If the appeal is rejected, one can assume the Board feels the absence could have been avoided.
10. If the appeal is not granted, the student will remain in that particular class period for the remainder of the semester or be placed in study hall. If disciplinary problems occur in that subject, the student will be suspended from school.
11. If the appeal is granted, the student will return to class with the Attendance Board's stipulations. If the stipulations are violated, a loss of credit will result.
12. The Attendance Board may also decide to make decisions regarding the student's participation in extracurricular activities.

Education of Homeless Children

It is the policy of the District to ensure that:

1. Each child of a homeless individual and each homeless child has equal access to the same free, appropriate public education, including a public preschool education, as provided to other students;
2. Homelessness does not in any way separate homeless students from the mainstream school environment; and
3. Homeless children and youths have access to the education and other services that such children and youths need to ensure that such children and youths have an opportunity to meet the same challenging state academic standards to which all students are held.

The Board of Trustees directs all District schools to admit children who are homeless regardless of residence and irrespective of whether the homeless child is able to produce records normally required for enrollment. The Board shall not enter into an out-of-District attendance and tuition agreement with another district for a homeless child.

All schools and employees of the District shall work to ensure that children and youth who are homeless are free from discrimination, segregation, and harassment. The District will also strive to prevent stigma against students who are homeless.

Definitions

For the purposes of this Policy, the following definitions shall apply.

The terms “enroll” and “enrollment” includes attending classes and participating fully in all school activities.

The terms “homeless,” “homeless individual,” and “homeless person” include:

1. Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
2. Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
3. Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;

4. Migratory children who qualify as homeless for the purposes of this part because the children are living in circumstances described in clauses 1 through 3 above; and
5. An unaccompanied student living in any of the circumstances described in clauses 1 through 3 above.

“Children and youth in transition” is defined as children and youth who are otherwise legally entitled to or eligible for a free public education, including preschool, and who lack a fixed, regular, and adequate nighttime residence.

“Unaccompanied youth” is defined as a youth not in the physical custody of a parent/guardian who is in transition as defined above.

The term “school of origin” is defined as the school the student attended when permanently housed, or the school in which the student was last enrolled, including a preschool. When a student completes the final grade level served by the students “school of origin;” the “school of origin” shall progress to the designated receiving school at the next grade level for all of its feeder schools the same as for all students attending one school and progressing to another school in the District.

In General

The District shall ensure the following is provided according to the homeless student's best interest:

1. That the homeless student's education continues in the school of origin for the duration of homelessness:
 - A. In any case in which a family becomes homeless between academic years or during an academic year; and
 - B. For the remainder of the academic year, if the student becomes permanently housed during an academic year; or
2. That the homeless student is eligible to enroll in the same schools as non-homeless students who live in the same attendance area where the homeless student is actually living.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

When addressing school placement, the student may attend a school different than the school of attendance from before the student became homeless or the school last attended by the student, if such is the choice of the student's parent and such is feasible.

When addressing school placement, the District's Liaison shall work with the family to address the student's transportation needs.

School Stability

In determining the best interest of the homeless student each school within the District shall:

1. Presume that keeping the student in the school of origin is in the student's best interest, except when doing so is contrary to the request of the student's parent/guardian, or (in the case of an unaccompanied youth) the student;
2. Consider student-centered factors related to the student's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless students, giving priority to the request of the student's parent/guardian or (in the case of an unaccompanied youth) the student;
3. If, after conducting the best interest determination based on consideration of the above presumptions, the Superintendent determines that it is not in student's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied student) the student, provide the student's parent/guardian or the unaccompanied student with a written explanation of the reasons for his or her determination, which will be provided in a manner and form understandable to such parent/guardian, or unaccompanied student, including information regarding the right to appeal under "Enrollment Disputes", below; and
4. In the case of an unaccompanied student, ensure that the District's liaison designated under "District Liaison," below, assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied student, and provides notice to such student of the right to appeal under "Enrollment Disputes," below.

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless student shall be maintained:

Policy Purpose

The purpose of this policy is to promote working and learning environments that are free from sex and gender-based harassment, discrimination, and retaliation, and to affirm Wallace School District's commitment to non-discrimination, equity in education and equal opportunity for employment.

Scope of Policy

This policy applies to all members of Wallace School District's community, including students, employees, and other members of the public including guests, visitors, volunteers, and invitees.

Policy Statement

Wallace School District is committed to providing a workplace and educational environment, as well as other benefits, programs, and activities, that are free from sex and gender-based harassment, discrimination, and retaliation. Notice/Formal Complaints of Sex and Gender-Based Harassment, Discrimination, and/or Retaliation

Notice or formal complaints of sex or gender-based harassment, discrimination, and/or retaliation may be made using any of the following options:

1. File a complaint with, or give verbal notice to, the Title IX Coordinator (or deputy/deputies, if applicable). Such a report may be made at any time, including during non-business hours, by using the telephone number, email address, or by mail to the office address listed for the Title IX Coordinator (or any other official as listed above).
2. Report online, using the reporting form posted at <https://www.wsd393.org/>.
3. Report by phone at (208) 753-4515.

When notice is received regarding conduct that may constitute Title IX sexual harassment, Wallace School District shall provide information about supportive measures and how to file a formal complaint, as described in 3085P.

A formal complaint means a document filed/signed by the alleged victim or signed by the Title IX Coordinator alleging an individual violated this policy and requesting that the District investigate the allegation(s). As used in this paragraph, the phrase “document filed/signed by the alleged victim” means a document or electronic submission (such as by electronic mail or through an online portal provided for this purpose by the District, if applicable) that contains the alleged victim’s physical or digital signature, or otherwise indicates that the alleged victim is the person filing the complaint. For example, an alleged victim may send an email to the Title IX Coordinator, identify themselves as the alleged victim and the one sending the email, to file a formal complaint. If notice is submitted in a form that does not meet this standard, the Title IX Coordinator will contact the alleged victim to ensure that it is filed correctly.

Parents and legal guardians of primary and secondary school students who have the legal authority to act on their child’s behalf may file a formal complaint on behalf of their child.

Grievance Processes

When a formal complaint is made alleging that this policy was violated, the allegations are subject to resolution using one of Wallace School District’s grievance processes noted below, as determined by the Title IX Coordinator. All processes provide for a prompt, fair, and impartial process.

1. For formal complaints regarding conduct that may constitute Title IX sexual harassment involving students or employees, the District will implement procedures detailed in Procedure 3085P.
2. For formal complaints regarding sex and gender-based harassment, discrimination and/or retaliation where students are the accused party, and that do not constitute Title IX sexual harassment, the District will implement procedures described in Student Code of Conduct, Uniform Grievance Procedure if no adjudication procedures are included in the Student Code of Conduct, General Bullying, Harassment and Intimidation procedures, Relationship Abuse and Sexual Assault Prevention and Response procedures.
3. For formal complaints regarding sex and gender-based harassment, discrimination and/or retaliation where employees are the accused party, and that do not constitute Title IX sexual harassment, the District will implement procedures described in the Uniform Grievance Procedure, Certificated/Non-certificated Staff Grievance Procedure.

Title IX Sexual Harassment Grievance Procedure, Requirements, and Definitions

Scope of Procedure

This Title IX Grievance Process applies to all members of Wallace School District’s community, including students, employees, and Board members as well as District patrons, guests, visitors, volunteers, and invitees.

Purpose of This Policy and Procedure

The Wallace School District is committed to providing a workplace and educational environment, as well as other benefits, programs, and activities, which are free from sex and gender-based harassment, discrimination, and retaliation. Accordingly, the District prohibits harassment and discrimination on the basis of sex, sexual orientation, gender, gender identity, and pregnancy, as well as retaliation against individuals who report allegations of sex and gender-based harassment and discrimination, file a formal complaint, or participate in a grievance process.

Students, employees, or other members of the District community who believe that they have been subjected to sex or gender-based harassment, discrimination, or retaliation should report the incident to the Title IX Coordinator, who will provide information about supportive measures and the applicable grievance procedure. Violations of this District procedure or its related policy may result in discipline to either students or employees.

Guiding Principles

Title IX requires school districts to put into place policies and procedures that promote the goal of Title IX, specifically, to prohibit discrimination based on sex, and to respond appropriately if and when sex discrimination occurs or may occur. Title IX explains that when an appropriate official at the District has “actual knowledge” of “sexual harassment” of a student or employee that occurs in one of its educational programs or activities, the District must respond promptly and in a manner that is not “deliberately indifferent.” This standard does not require a perfect response; rather, it requires a response that is not “clearly unreasonable” in light of the known circumstances over which the District exercises control.

Grievance Procedure

1. Receipt of a Complaint, Report, or Information Alleging Sexual Harassment

Upon receipt of a complaint or report (whether verbal or written) of possible sexual harassment, the District shall first determine whether to initiate a formal or informal response. Thus, any and all complaints, reports, or information received by any District

employee that sexual harassment is occurring or has occurred shall be immediately forwarded to the District's Title IX Coordinator or other designated employee for review and action as appropriate.

The Title IX Coordinator (Coordinator) shall promptly contact the complainant or reporting party and discuss with them the availability of supportive measures and will consider the complainant's wishes with respect to the provision of supportive measures. The Coordinator shall explain the availability of these measures to the complainant with or without the filing of a "formal complaint." During this initial meeting, the Coordinator or designee shall explain to the complainant the process for filing a written formal complaint and shall provide assistance to the complainant to ensure the written formal complaint is properly prepared and submitted.

Emergency Removal (of students): Nothing in this procedure prevents the District from removing a respondent from a District education program or activity on an emergency basis, provided that an individualized safety and risk analysis is performed by the Coordinator and Superintendent who determine that an immediate threat to the physical health or safety of any student or other individual arise from the allegations of sexual harassment that justify removal. The Coordinator and Superintendent shall provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. This provision may not be construed to modify any rights and requirements under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

Administrative Leave (of employees): Nothing in this procedure precludes the District from placing a non-student employee respondent on administrative leave during the pendency of a grievance investigation under this procedure. Notwithstanding the above, prior to placing an employee respondent on administrative leave, the Coordinator or designee shall ensure any rights provided by Section 504 of the Rehabilitation Act of 1973 and/or the Americans with Disabilities Act are not impaired or violated.

2. Providing Supportive Measures

If an informal complaint is filed, (for instance, because the complainant does not wish to file a written formal complaint,) as well as during the pendency of the investigation and the decision concluding a formal complaint, the following supportive measures may be implemented to restore or preserve the complainant's access to the District's educational programs without unreasonably burdening the other party (also referred to herein as respondent).

Supportive measures may include actions taken to protect the safety of all parties or the District's educational environment, or which otherwise deter sexual harassment from occurring in the future. Additional supportive measures may include, but are not limited to: counseling, the availability of a safe place or person in the event complainant feels threatened or uncomfortable, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, escort services at school, mutual restriction of contact between

the parties, changes in work locations, leaves of absence, increased security and/or monitoring of locations where prohibited conduct has occurred or may occur in the future, as well as additional measures to protect the complainant, provided the supportive measures initiated are not punitive to the respondent.

3. Filing a Written Formal Complaint

Upon receipt of a written formal complaint, the Coordinator or designee is required to provide written notice to all known complainants and respondents of the allegations and the resulting investigation.

- A. General Notice Requirements: The notice will include the District's Title IX grievance process as well as information regarding the District's informal resolution process.
- B. Specific Notice Requirements: The written notice shall include the following information:
 - i. Information describing the alleged conduct potentially constituting sexual harassment, including sufficient details known at the time the notice is prepared to allow the parties to prepare a response prior to the investigator's initial interview, and shall be delivered to the parties in enough time to allow their preparation for the initial interview.
 - ii. Sufficient details include but are not limited to the identities of the parties involved, the conduct allegedly constituting sexual harassment, the date(s), and location(s) of the incident(s).
 - iii. A statement that the respondent is presumed to not be responsible for the alleged conduct, and that a determination of responsibility will not be made until the conclusion of the grievance process.
 - iv. A statement informing the parties that they are entitled to have an advisor or representative of their choosing who may be, though is not required to be, an attorney, and that the advisor is authorized to review all evidence submitted in the matter.
 - v. The notice must inform the parties that District policy and procedure prohibit knowingly making false statements or knowingly submitting false information to the investigator or at any other time during the grievance process.
 - vi. The notice must warn the parties that retaliation is prohibited. Accordingly, the parties must be informed that no District employee or other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX or this procedure, or because the individual has made a report or complaint, testified,

assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this procedure. Retaliation includes circumstances where intimidation, threats, coercion, or discrimination are made for the purpose of interfering with any right or privilege secured by Title IX or this procedure. This includes threatening charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment. The District shall keep confidential the identity of:

- a. Any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment;
- b. Any complainant;
- c. Any individual who has been reported to be the perpetrator of sex discrimination;
- d. Any respondent; and
- e. Any witness

except:

- a. As may be permitted by FERPA (20 U.S.C. § 1232g) or a FERPA regulation (34 CFR Part 99);
- b. As required by law; or
- c. To carry out the purposes of this procedure, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

Complaints alleging retaliation may be filed as an additional charge or counter-charge under these procedures.

- C. **Additional Charges:** If, during the course of the investigation, it is determined based on the information gathered that additional allegations or charges are warranted, an amended notice shall be prepared and submitted to the parties including the new allegations and charges as appropriate.
- D. **Consolidation:** The Coordinator may consolidate two or more formal complaints into a single action provided that the allegations of sexual harassment and retaliation arise out of a common set of facts or circumstances and if in the course of an investigation, it is determined that:
 - i. There is more than one respondent and/or more than one complainant; or
 - ii. There are cross-complaints, or additional complaints raised by the original complainant against the original respondent (such as retaliation), or by the respondent against any other party.

4. Conduct of the Investigation, Informal Resolution

In the course of their investigation, the District's Coordinator and designees shall comply with the following requirements.

Investigation

- A. **Burden of Investigation:** The burden of gathering evidence sufficient to make a determination of responsibility is the responsibility of the District's investigator(s) and not the parties. However, the District's investigator is not authorized to access a party's records that are made or maintained by a health care provider such as a physician, psychiatrist, psychologist, or other recognized health care provider, if the record was made in the course of providing treatment to the party, unless and until written consent from an authorized person is provided to obtain such privileged records for purposes of investigating and resolving the allegations of the formal complaint.
- B. **Evidence Offered by Parties:** The parties shall be provided an equal opportunity to call witnesses, including fact and expert witnesses, as well as other inculpatory and exculpatory evidence.
- C. **No Restrictions:** The ability of the parties to discuss the allegations under investigation or to gather and present evidence shall not be restricted.
- D. **Equal Representation Rights:** All parties shall have the same opportunity to have others present, or to be represented by the advisor of their choice throughout the grievance process, including attendance at related meetings or proceedings. If the District limits access to representation in any way at any time during the proceedings, such limitation shall be equally applied to all parties in the same manner. Access to representation may be limited only where a party is already represented as authorized by this procedure, and the additional representation will unduly increase the cost to the parties, and/or will not otherwise serve to significantly promote a legitimate purpose under this procedure.
- E. **Notice of Interviews and Hearings:** Adequate notice of the purpose, date, time, place, and the identities of all participants involved shall be provided to any party whose participation at a hearing, interview, or meeting is invited or expected, and allowing sufficient time for the party to prepare and fairly participate.
- F. **Evidentiary Considerations:** The investigation shall not consider:
 - i. Incidents not directly related to the possible violation, unless they evidence a pattern;
 - ii. The character of the parties; or

- iii. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.
- G. Right to Inspect Evidence: All parties shall be provided equal access to inspect and review any or all evidence gathered during the investigation related to the allegations of the formal complaint, whether or not relied upon or referred to in the investigator's report. This will ensure that the parties can respond to the evidence prior to the conclusion of the investigation. Prior to completion of the investigation report, the investigator shall provide the parties and their respective advisors, when advisors are identified, a secured electronic or hard copy of the evidence subject to inspection. The parties must have at least ten school days to submit a written response which the investigator shall consider prior to completion of the investigative report. All such evidence shall be made available to all parties at any hearing to give the parties equal opportunity to refer to such evidence during the hearing, including cross-examination of adult parties.
- H. Investigative Report: At least ten school days prior to a hearing, or other time of determination regarding responsibility, the investigator shall send to all parties and their advisors, if any, by electronic format or hard copy, a copy of the investigative report for the parties' review and written response. The parties' responses shall be made part of the record.

Informal Resolution: The informal resolution process may include mediation, or other meeting of the parties that does not involve a full investigation and adjudication of the complaint. The District may **not** require the parties to participate in an informal resolution process. Informal resolution is available **only** if a written formal complaint was submitted to the Coordinator. If these conditions are satisfied, then at any time during the course of an investigation, but prior to the time of the Decision-Maker's final determination of responsibility, the parties may request the Coordinator to initiate the informal resolution by process. In so doing, the Coordinator is required to comply with the following:

- A. Provide the parties with written notice informing them of the allegations at issue and the requirements of the resolution process. These requirements include the fact that a written agreement signed by the parties that resolves the allegations at issue will preclude the parties from resuming the formal complaint process that arose from the same allegations. The parties will also be informed that at any time prior to reaching a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, and will be notified that the records submitted or discussed during the informal process will be maintained by the District as part of the record, and may be used by the Decision-Maker to determine responsibility.

- B. Require the parties submit voluntary, written consent to participate in the informal resolution process.
- C. Ensure that the informal resolution process is **not** made available to resolve allegations that an employee sexually harassed a student.
- D. An informal resolution, signed and agreed to by the parties thereto, is not appealable.

Dismissal of a Formal Complaint: A written formal complaint may be dismissed by the Coordinator under any of the following circumstances, and prior to a finding of responsibility:

- A. After investigating the allegations of the written formal complaint, dismissal is required if:
 - i. The Coordinator or designee determines that the conduct alleged in the complaint, even if proven, would not constitute sexual harassment as defined herein; or
 - ii. The alleged conduct did not occur in a District education program or activity; or
 - iii. The alleged conduct did not occur against a person in the United States.

Dismissal of the Title IX formal complaint, however, does not preclude action under another provision of the District's Code of Conduct or other District Policy.

- B. If the Complainant notifies the Coordinator in writing that he or she would like to withdraw the formal complaint or any allegations contained therein.
- C. If the respondent is no longer enrolled or employed by the District.
- D. If specific circumstances exist which prevent the investigator from gathering evidence sufficient to reach a determination regarding the merits of the formal complaint or allegations therein.

Upon dismissing a formal complaint, the Coordinator shall simultaneously inform the parties in writing that the complaint has been dismissed and shall identify the reason(s) for the dismissal. This decision may be appealed in accordance the Appeals portion of this procedure, below.

5. Decision-Maker's Participation

If the matter is not dismissed for one of the reasons set forth above and is not resolved by the parties through the informal resolution process then, (following completion of the investigation, including issuance of the investigator's final investigation report,) the matter shall be submitted to the Decision-Maker for review and issuance of a determination of responsibility. The Decision-Maker cannot make a determination regarding responsibility until ten school days after the date the final investigation report is transmitted to the parties

and the Decision-Maker, unless all parties and the Decision-Maker agree to an expedited timeline.

The Coordinator shall designate a single Decision-Maker and inform the parties and their advisors.

The Decision-Maker(s) may not have had any previous involvement with the investigation. Those who have served as investigators in the investigation cannot serve as Decision-Makers. Those who are serving as advisors for any party cannot serve as Decision-Makers in that matter. The Coordinator is also prohibited from serving as a Decision-Maker in the matter.

All objections to any Decision-Maker must be raised in writing. Any written objection must detail the rationale for the objection and must be submitted to the Coordinator no later than two school days after being notified of the Decision-Maker's identity. Decision-Makers shall not be removed unless the Coordinator concludes that the Decision-Maker's bias or conflict of interest precludes a fair and impartial consideration of the evidence.

The Coordinator shall give the Decision-Maker(s) a list of the names of all parties, witnesses, and advisors. Upon review thereof, if any Decision-Maker believes they cannot make an objective determination, they must recuse themselves from the proceedings. If a Decision-Maker is unsure whether a bias or conflict of interest exists, they shall immediately disclose their concern(s) to the Coordinator and simultaneously inform the parties and their advisors.

No less than ten business days prior to any meeting or the decision-making phase of the process, the Coordinator or the Decision-Maker shall send notice to all parties. Once mailed, emailed, or received in-person, Notice will be presumptively delivered.

The Notice shall contain the following:

- A. A description of the alleged violation(s), a list of all policies allegedly violated, a description of the applicable procedures, and a statement of the potential sanctions that could result.
- B. The time, date, and location of any meeting.
- C. Any technology that will be used to facilitate the meeting.
- D. The name and contact information of the Decision-Maker, along with an invitation to object to any Decision-Maker on the basis of demonstrated bias. Such objections must be raised with the Coordinator at least two school days prior to the meeting.
- E. Information on whether the meeting will be recorded and, if so, information on access to the recording for the parties after the meeting.
- F. A statement that if any party does not appear at the scheduled meeting, the meeting will only be rescheduled for compelling reasons.
- G. Notification that the parties may have the assistance of an advisor of their choosing at the meeting.
- H. A copy of all the materials provided to the Decision-Maker(s) about the matter.

- I. An invitation for the parties to review and submit a written response to the final investigation report within five school days of the date of the notice.
- J. An invitation to each party to submit to the Decision-Maker any written, relevant questions they want the Decision-Maker to ask of any other party or witness within five school days of the date of the notice.
- K. An invitation to each party to submit to the Decision-Maker an impact statement, pre-meeting, that the Decision-Maker will review during any sanction determination.
- L. An invitation to contact the Coordinator to arrange any disability accommodations, language assistance, and/or interpretation services that may be needed at any meeting or in the decision-making process, at least five school days prior to the meeting/final determination.
- M. Whether parties can or cannot bring mobile phones or devices into the meeting.

Meetings for possible violations that occur near or after the end of a school year, assuming the respondent is still subject to Policy 3085 and Procedure 3085P, and are unable to be resolved prior to the end of the school year will typically be held as soon as possible given the availability of the parties, but no later than immediately upon the start of the following school year. The District will implement appropriate supportive measures intended to correct and remediate any hostile environment while the resolution is delayed.

A. Evidentiary Consideration by the Decision-Maker: Whether at a hearing or through an exchange of questions, only relevant, credible evidence will be admitted into evidence and considered by the Decision-Maker. Any evidence that the Decision-Maker(s) determine(s) is relevant and credible may be considered. The Decision-Maker will not consider:

- i. Incidents not directly related to the possible violation, unless they evidence a pattern;
- ii. The character of the parties; or
- iii. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

Previous disciplinary action of any kind involving the respondent may be considered in determining an appropriate sanction upon a determination of responsibility. This information may only be considered at the sanction stage of the process and cannot be shared with the Decision-Maker until that time.

The parties may each submit a written impact statement for the consideration of the Decision-Maker(s) at the sanction stage of the process when a determination of responsibility is reached.

- B. Hearing Procedure and Exchange of Questions Procedure:** At the time the matter is referred to the Decision-Maker(s), the Coordinator shall determine, based on the parties involved and the circumstances of the alleged sexual harassment, whether to hold a hearing or to initiate an exchange of questions procedure, and shall so inform all parties and their advisors. Both of these decision-making procedures are discussed below. Upon their selection, the Decision-Maker(s) shall review the evidence and issue a determination of responsibility based on the following circumstances and procedures.
- C. Exchange of Questions Procedure:** Where a party involved is an elementary student, or where the Coordinator otherwise determines that a hearing is not appropriate under the circumstances, the Coordinator will initiate the Exchange of Questions Procedure, which provide as follows.

After the Coordinator or designee has submitted the investigative report to the parties pursuant to this procedure and before reaching a determination regarding responsibility, the Decision-Maker(s) shall provide each party an opportunity to submit written, relevant questions that party desires to ask of any party or witness, and shall subsequently provide each party with the answers. The Decision-Maker will also allow for additional, limited follow-up questions from each party to the other, and provide both with complete copies of the answers. Upon receipt of the proposed questions, the Decision-Maker will review the proposed questions and determine which questions will be permitted, disallowed, or rephrased. The Decision-Maker shall limit or disallow any questions that are irrelevant, repetitive (and thus irrelevant), or abusive. The Decision-Maker shall have full authority to decide all issues related to questioning and determinations of relevance. The Decision-Maker may ask a party to explain why a question is or is not relevant from their perspective. The Decision-Maker shall explain any decision to exclude a question as not relevant or to reframe it for relevance. Whether a hearing is held or not, questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant:

- i. Unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant; or
- ii. If the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. This basis for asking questions or presenting evidence shall not be allowed if the respondent is an adult, non-student employee, because consent is not a recognized defense in cases where the complainant is a student and the respondent is an employee.

The Decision-Maker, after any necessary consultation with the parties, investigator(s), and/or Coordinator, shall provide the parties and witnesses with:

- i. The relevant written questions to be answered; and
- ii. A deadline for the parties and witnesses to submit written responses to the questions and any appropriate follow-up questions or comments by the parties.

The exchange of questions and responses by the parties and witnesses shall be concluded within a five-school day period.

D. Hearing procedure: Where both parties are adult employees, or a mature secondary school student, the Coordinator may initiate the live Hearing Procedure. If either party, however, objects and requests the Exchange of Questions Procedure, then the Exchange of Questions procedure shall be followed by the Decision-Maker(s). The Hearing Procedure shall include the following:

At the live hearing, the Decision-Maker(s) must permit each party's advisor to ask the other party and any witnesses all relevant questions and follow-up questions, including those challenging credibility. Such cross-examination at the live hearing must be conducted directly, orally, and in real time by the party's advisor of choice and never by a party personally, notwithstanding the discretion of the District to restrict the extent to which advisors may participate in the proceedings, as long as the restrictions apply equally to all parties. At the request of either party, the District must provide for the live hearing to occur with the parties located in separate rooms with technology enabling the Decision-Maker(s) and parties to simultaneously see and hear the party or the witness answering questions. Only relevant cross-examination and other relevant questions may be asked of a party or witness. Before a complainant, respondent, or witness answers a cross-examination or other question, the Decision-Maker(s) must first determine whether the question is relevant and explain any decision to exclude a question as not relevant. If a party does not have an advisor present at the live hearing, the District shall provide without fee or charge to that party, an advisor of the District's choice to conduct cross-examination on behalf of that party. The advisor may be, but is not required to be, an attorney.

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless:

- i. Such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant; or
- ii. If the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

In cases where both parties are 18 or older, if a party or witness does not submit to cross-examination at the live hearing, the Decision-Maker(s) is prohibited from relying on any statement of that party or witness in reaching a determination regarding responsibility. However, that the Decision-Maker(s) cannot draw an

inference about the determination regarding responsibility based solely on a party's or witness's absence from the live hearing or refusal to answer cross-examination or other questions. Live hearings pursuant to this paragraph may be conducted with all parties physically present in the same geographic location or, at the District's discretion, any or all parties, witnesses, and other participants may appear at the live hearing virtually, with technology enabling participants to simultaneously see and hear each other. The District shall create an audio or audiovisual recording, or transcript, of any live hearing and make it available to the parties for inspection and review.

At the hearing, the Decision-Maker shall have the authority to hear and make determinations on all allegations of Title IX sexual harassment and may also hear and make determinations on any additional alleged violations of policy or procedure that have occurred in concert with the Title IX sexual harassment, even though those collateral allegations may not specifically fall within the definition of sexual harassment set for in these procedures.

Any witness scheduled to testify before the Decision-Maker must have been first interviewed by the investigator(s) or have proffered a written statement or answered written questions, unless all parties and the Decision-Maker agree to the witness's participation.

If the parties and Decision-Maker do not agree to the admission of evidence newly offered at the hearing, the Decision-Maker may delay the meeting and instruct that the investigation needs to be re-opened to consider that evidence.

If the parties raise an issue of bias or conflict of interest of an investigator or Decision-Maker at the hearing, the Decision-Maker may elect to address those issues, consult with legal counsel, and/or refer them to the Coordinator, and/or preserve them for appeal. If bias is not in issue during the hearing, the Decision-Maker shall not permit irrelevant questions regarding bias.

6. Decision Making Process and Determination Requirements

Following its review of the evidence submitted by the investigator and the parties, the Decision-Maker, (who cannot be the Coordinator) shall issue a written determination of responsibility. To reach this determination, the District's burden of proof - clear and convincing evidence - must be described, and the burden satisfied, before the respondent can be found responsible for sexual harassment in violation of Title IX.

The written determination of responsibility shall include the following information:

- A. Identification of the allegations potentially constituting sexual harassment in violation of Title IX.

- B. A description of the procedural steps taken from receipt of the written formal complaint through the determination, including notifications to the parties, interviews of the parties and witnesses, site visits, methods used to obtain other evidence, and hearings used.
- C. Findings of fact supporting the determination.
- D. Conclusions regarding application of the District's code of conduct to the facts.
- E. A statement of and rationale for the determination as to each allegation, including any determination regarding responsibility, any disciplinary action to be imposed on the respondent, and identification of remedies and measures, if any, that will be provided to restore or preserve equal access to the District's educational programs and activities to be provided to the complainant.
- F. Considerations for disciplinary action. Factors considered when determining discipline may include, but are not limited to:
 - i. The nature, severity of, and circumstances surrounding the violation(s);
 - ii. The respondent's disciplinary history;
 - iii. Previous allegations or allegations involving similar conduct;
 - iv. The need for discipline to bring an end to the Title IX sexual harassment;
 - v. The need for discipline to prevent the future recurrence of Title IX Sexual harassment;
 - vi. The need to remedy the effects of the Title IX sexual harassment;
 - vii. The impact on the parties; and
 - viii. Any other information deemed relevant by the decision-maker(s)
- G. The discipline imposed shall be implemented as soon as is feasible, either upon the outcome of any appeal or upon the expiration of the window to appeal if no appeal is requested. The sanctions described in this process are not exclusive of, and may be in addition to, other actions taken or sanctions imposed by external authorities.
- H. Identification of the procedures for filing an appeal and the permissible grounds for complainant or respondent to base their appeal.

The Decision-Maker shall simultaneously provide their written determination to all parties. The determination becomes final either, (where an appeal is filed,) on the date the parties are provided copies of the written determination of the result of the appeal; or, (if no appeal is filed,) the date on which an appeal would no longer be considered timely.

The Coordinator is responsible for the effective implementation of any and all remedies set forth in the written determination of responsibility. In the event a student expulsion is recommended, pursuant to and in accordance with the requirements of Idaho Code § 33-205, the Coordinator shall ensure that an expulsion hearing is scheduled and heard by the Board of Trustees.

7. Appeals

Any party may file a request for appeal in writing with the Coordinator within five school days of the delivery of the notice of a final decision.

A single appeal Decision-Maker shall chair the appeal. No appeal Decision-Maker will have been involved in the process previously, including any dismissal appeal that may have been heard earlier in the process.

The request for appeal shall be forwarded to the appeal chair for consideration to determine whether the request meets the grounds for appeal. This review is not a review of the merits of the appeal, but solely a determination as to whether the request meets the grounds and is filed in a timely manner.

Appeals shall be limited to the following grounds:

- A. Procedural irregularity that affected the outcome of the matter;
- B. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
- C. The Coordinator, investigator(s), or Decision-Maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the specific complainant or respondent that affected the outcome of the matter;

Appeal procedure: Upon receipt of a valid appeal, the Coordinator shall:

- A. Notify the other party in writing that an appeal has been filed, and implement the appeal procedure fairly and equally for both parties.
- B. Ensure the appeal Decision-Maker(s) is not:
 - i. The same person(s) as the Decision-Maker(s) that issued the written determination of responsibility;
 - ii. The person who issued the dismissal;
 - iii. The investigator; or
 - iv. The Coordinator.
- C. Ensure the appeal Decision-Maker has been trained in accordance with the requirements of this grievance procedure.
- D. The appealing party shall have ten school days following the delivery of the notice of the appeal to submit a written statement in support of the appeal and challenging the outcome. The responding party shall have ten school days following the delivery of the appealing party's statement in support of appeal to submit the responding party's

written statement in opposition to the appeal (and supporting the outcome that is the subject of the appeal). In the event the parties and the appeal Decision-Maker agree to a different briefing schedule (whether allowing more or less time), the time allowed to prepare a written statement shall be the same for all parties.

E. Issue a written decision describing the result of the appeal and identifying the bases and rationale for the decision.

F. Provide the written decision simultaneously to all parties.

Requirements of the Title IX Grievance Procedure

The following requirements apply to the conduct of the Title IX Grievance procedure set forth above.

- 1. Equitable treatment of the parties:** At all times, both complainants and respondents shall be equitably treated by providing remedies to a complainant until a determination of responsibility for sexual harassment has been made against the respondent. No sanction or discipline may be imposed against the respondent unless and until the process required by this procedure has been completed. Until a final determination of responsibility has been issued only “supportive measures” may be initiated that are non-disciplinary or non-punitive and avoid burdening the respondent. Any and all final remedies, however, must be designed to restore or preserve equal access to the District’s education program or activity. Such remedies may include the same individualized services described as “supportive measures;” however, following the decision, such remedies need not be non-disciplinary or non-punitive and need not avoid burdening the respondent
- 2. Objective evaluation of the evidence:** The formal grievance process involves an objective evaluation of all relevant evidence obtained, including evidence that supports the conclusion the respondent engaged in a violation of policy or procedure and evidence that supports the conclusion the respondent did not. Credibility determinations may not be based solely on an individual’s status or participation as a complainant, respondent, or witness.
- 3. Lack of bias:** Any individual materially involved in the administration of the formal grievance process including the Coordinator, investigator(s), Decision-Maker(s) and appeal Decision-Maker(s) may neither have nor demonstrate a conflict of interest or bias for a party generally, or for a specific complainant or respondent.
- 4. Title IX training of District participating staff:** Any individual designated by the District as a Coordinator, investigator, Decision-Maker, or any person designated by the District to facilitate an informal resolution process, cannot have a conflict of interest or bias for or against complainants or respondents generally, or against any individual complainant or respondent. The District shall ensure that Coordinators, investigators, Decision-Makers, and any person who facilitates an informal resolution process, receives training on the definition of “sexual harassment” set forth in this procedure, the scope of

the District's education program or activity, how to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes, as applicable, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. The District shall ensure that Decision-Makers receive training on any technology to be used at a live hearing and on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, as required by this procedure. The District shall also ensure that investigators receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence, as set forth in this procedure. All materials used to train Coordinators, investigators, Decision-Makers, and any persons facilitating an informal resolution process, shall not rely on stereotypes based on gender, and must promote impartial investigations and adjudications of formal complaints of sexual harassment, and provide guidance therefor.

5. **Presumption of innocence:** The District presumes that the respondent is not responsible for the reported misconduct unless and until a final determination is made, in accordance with this procedure, that Policy 3085 or procedure 3085P prohibiting sex discrimination and sexual harassment has been violated.
6. **Promptness:** Investigations are completed promptly, normally within 30 school days, though some investigations may take longer, depending on the nature, extent, and complexity of the allegations; availability of witnesses; police involvement; and other factors.

The District shall make a good faith effort to complete the investigation as promptly as possible and will communicate regularly with the parties to update them on the progress and timing of the investigation.

Notwithstanding the above, The District may undertake a delay in its investigation, lasting from several days to a few weeks, if circumstances require. Such circumstances include but are not limited to a request from law enforcement to temporarily delay the investigation, the need for language assistance, the absence of parties and/or witnesses, and/or a need for accommodations for disabilities or health conditions.

The District shall communicate in writing the anticipated duration of the delay and the reason for it to the parties and provide the parties with status updates if necessary. The District will promptly resume its investigation and formal grievance process as soon as feasible. During such a delay, the District will implement supportive measures as deemed appropriate.

District action(s) or processes may be delayed, but are not stopped by, civil or criminal charges involving the underlying incident(s). Dismissal or reduction of those criminal charges may or may not impact on the District's action(s) or processes.

7. **Description of sanctions.** The following describes the range of sanctions that may be implemented following a finding of responsibility.

Student Discipline: The following are the usual sanctions that may be imposed upon students singly or in combination:

- A. A warning;
- B. Required counseling;
- C. A required substance abuse treatment program;
- D. Exclusion from participating in extracurricular activities or other District programs/activities;
- E. Alternative placement;
- F. Suspension, which may be in-school, out-of-school, long-term, short-term, extended, or other suspensions;
- G. Expulsion (in compliance with I.C. § 33-205); and
- H. Other actions: In addition to or in place of the above sanctions, the District may assign any other sanctions deemed appropriate.

Employee Sanctions: Sanctions for an employee may include:

- A. A verbal or written warning;
- B. A performance improvement plan or management process;
- C. Enhanced supervision, observation, or review;
- D. Required counseling;
- E. Required training or education;
- F. Probation;
- G. Denial of pay increase or pay grade;
- H. Loss of oversight or supervisory responsibility;
- I. Demotion;
- J. Transfer;
- K. Reassignment;
- L. Assignment to a new supervisor;
- M. Restriction of professional development resources;
- N. Suspension with pay;
- O. Suspension without pay;
- P. Termination (in compliance with I.C. § 33-513(5), in the case of certificated employees);
- Q. Other actions: In addition to or in place of the above sanctions, the District may assign any other sanctions as deemed appropriate.

8. **Burden of proof.** When determining whether the respondent is responsible for violating Policy 3085 or Procedure 3085P by discriminating based on sex and/or for sexual harassment as defined herein, the Decision-Maker shall apply the clear and convincing evidence standard; which requires that the evidence proves there is a high probability that the respondent violated the policy or procedure.

9. **Appeals.** Any party may file a request for appeal in writing to the Coordinator within five school days of the delivery of the notice of a final outcome.

10. **Supportive measures:** Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the parties. Supportive measures are designed to restore or preserve access to the District's education program or activity, including measures designed to protect the safety of all parties or the District's educational environment, and/or deter Title IX sexual harassment. Examples of supportive measures may include, but are not limited to:

- A. Referral to counseling, medical, and/or other healthcare services;
- B. Referral to community-based service providers;
- C. Visa and immigration assistance;
- D. Education of the school community or community subgroup(s);
- E. Altering work arrangements for employees;
- F. Safety planning;
- G. Providing school safety escorts;
- H. Providing transportation accommodations;
- I. Implementing contact limitations, such as no contact orders, between the parties (note: allegations of violations of a no contact order will be investigated as collateral misconduct under this process);
- J. Academic support, extensions of deadlines, or other course or program-related adjustments;
- K. Emergency warnings;
- L. Class schedule modifications, withdrawals, or leaves of absence;
- M. Increased security and monitoring of certain areas of the school; and
- N. Any other actions deemed appropriate by the Coordinator.

11. **Recognition of privileges:** At no time during this grievance procedure may any evidence (whether through testimony or documents) be required, admitted, relied upon, or otherwise obtained by asking questions or admitting evidence that constitutes, or seeks disclosure of, information protected by a legally recognized privilege, unless the person holding the privilege has knowingly and freely waived the privilege.

12. **Recordkeeping;**

- A. The District shall maintain for a period of seven years records of:
 - i. Each sexual harassment investigation including any determination regarding responsibility and any audio or audiovisual recording or transcript required where a hearing is held, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the District's education program or activity;
 - ii. Any appeal and the result therefrom;

- iii. Any informal resolution and the result therefrom; and
 - iv. All materials used to train Coordinators, investigators, Decision-Makers, and any person who facilitates an informal resolution process. The District shall make these training materials publicly available on its website.
- B. For each response to a report of harassment or discrimination based on sex, the District shall create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the District shall document the basis for its conclusion that its response was not deliberately indifferent, and document that it took measures designed to restore or preserve equal access to the District's education program or activity. If the District does not provide a complainant with supportive measures, then the Coordinator must document the reasons why such a response was not clearly unreasonable in light of the known circumstances (i.e., was not a result of sex discrimination). The documentation of certain bases or measures does not limit the District in the future from providing additional explanations or detailing additional measures taken or to be taken.

Title IX Grievance Procedure Definitions

The following definitions apply to the identified terms used in this procedure:

“Actual knowledge” means notice of sexual harassment or allegations of sexual harassment to:

1. The District's Coordinator; or
2. Any District official possessing the authority to institute corrective measures on behalf of the District; or
3. Any employee of the District.

Imputation of knowledge based solely on vicarious liability or constructive notice is insufficient to constitute actual knowledge. This standard is not met when the only official of the District with actual knowledge is the respondent. The mere ability or obligation to report sexual harassment or to inform a student about how to report sexual harassment, or having been trained to do so, does not qualify an individual as one who has authority to institute corrective measures on behalf of the District. “Notice” as used in this paragraph includes, but is not limited to, a report of sexual harassment to the Coordinator as set forth in this procedure.

“Complainant” means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

Under circumstances where a sexual assault is alleged by a student against an adult, non-student employee, the District does not recognize the defense of “consent,” however it is defined. Where the parties are both adults, however, the following definition of “consent” will apply: Consent occurs where there is a knowing, voluntary, and clear grant of permission, by word or action, to

engage in sexual activity. Individuals may experience the same interaction in different ways. Therefore, it is the responsibility of each party to determine that the other has consented before engaging in the activity. If consent is not clearly provided prior to engaging in the activity, consent may be ratified by word or action at some point during the interaction or thereafter, but clear communication from the outset is strongly encouraged. Consent may be withdrawn. A person cannot consent if they are unable to understand what is happening or is disoriented, helpless, asleep, or unconscious, for any reason, including by alcohol or other drugs. It is a violation of policy if a respondent engages in sexual activity with someone who is incapable of giving consent, or is otherwise incapacitated.

“Incapacitation” occurs when someone cannot make rational, reasonable decisions because they lack the capacity to give knowing, informed consent. For example, they cannot understand the “who, what, when, where, why, or how” of their sexual interaction.

“Formal Complaint” means a document filed by a complainant, or signed by the Coordinator, alleging sexual harassment against a respondent and requesting that the District investigate the allegation of sexual harassment. At the time of filing a formal complaint, the complainant must be participating in or attempting to participate in the educational programs or activities of the District. A formal complaint may be filed with the Coordinator in person, by mail, or by electronic mail, or by using the contact information listed on the District’s website. As used in this paragraph, the phrase “document filed by a complainant” means a document or electronic submission, (such as by electronic mail or through an online portal provided for this purpose by the District,) that contains the complainant’s physical or digital signature, or otherwise indicates that the complainant is the person filing the formal complaint. Where the Coordinator signs a formal complaint, the Coordinator is not a complainant or otherwise a party to this grievance procedure, and must comply otherwise comply with the requirements of this procedure.

Respondent means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

Sexual harassment means conduct on the basis of sex that satisfies one or more of the following:

1. “Quid pro quo” harassment, which occurs when a District employee conditions the provision of a District benefit, service, or assistance on an individual’s participation in unwelcome sexual conduct;
2. “Hostile Environment,” which is defined as unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to District education program or activity; or
3. Physical threats and attacks, including “sexual assault,” defined as forcible and non-forcible sex offenses as defined in the Clery Act, or dating violence, domestic violence, or stalking as defined in the Violence Against Women Act.

“Supportive measures” means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent in cases where either no formal complaint has been filed, or both before and/or after the filing of a formal complaint. Such measures are designed to restore or preserve equal access to the District’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the District’s educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. The District shall maintain as confidential any supportive measures provided to the complainant or respondent, provided that maintaining such confidentiality will not impair the ability of the District to provide the supportive measures. The Coordinator is responsible for coordinating the effective implementation of all supportive measures.

“Elementary school” and “secondary school” as used in this procedure refer to a local educational agency, as defined in the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act, a preschool, or a private elementary or secondary school, and include this District.

Revision of These Procedures

The District reserves the right to make changes to these procedures as necessary. If laws or regulations change or court decisions alter the requirements in a way that impacts these procedures, this document shall be construed to comply with the most recent government regulations or holdings.

[ALL POTENTIALLY APPLICABLE POLICY SECTIONS]

[ALL POTENTIALLY APPLICABLE SANCTIONS THAT COULD RESULT]

You are considered “not responsible” for violating District policy, unless and until clear and convincing evidence proves that a violation of policy has occurred. The burden is on the District to gather evidence, investigate the allegations, summarize all relevant evidence in a final investigation report, and make a final determination of responsibility (subject to appeal). No determination of responsibility will be made until the conclusion of the process and after the parties have been given an opportunity to inspect, review, and respond to all directly related and/or relevant evidence obtained by the District.

Should the allegations need to be modified, or if additional allegations emerge over the course of this investigation, this office will provide you with an updated and revised Notice of Investigation and Allegations.

Below, you will find details included to ensure that the District process is transparent to you, so that you fully understand your rights and the District's procedures.

Originals are preferred to copies, and all materials should be in unaltered form. Expect that you will be asked to verify the accuracy and authenticity of evidence you provide. If information is stored on an electronic device (e.g., cell phone) it is recommended that you be able to show the device itself to the investigator(s) during the interview.
4. You may not record any meetings pursuant to this process. Doing so is a violation of Procedure 3085P. The District will record or transcribe proceedings, and those recordings or transcriptions will be made available to you.

Foreign Exchange Students

It is the policy of the Board to recognize the benefits from non-immigrant students in the District. The Board does not, however, sponsor student foreign exchange programs. The District does not provide any financial contribution to the student. The Board assumes no responsibility or control over items such as travel, living accommodations, funding, insurance, etc., which remain the responsibility of the sponsor and/or student.

Any sponsoring organization must have a local representative, be a nonprofit organization, and be approved by the Council on Standards for International Education Travel. F-1 visa holders (individual foreign students sponsored by relatives or friends) may not attend the District.

Programs for At-Risk/Disadvantaged Students

The District will designate one at-risk coordinator to collect and disseminate data regarding drop-outs in the District and to coordinate the District's program for students who are at high risk of dropping out of school.

Each school year, the at-risk coordinator will prepare a dropout reduction plan that identifies:

1. The number of District students who dropped out in the preceding regular school term;
2. The number of students in grades 1-12 who are at risk of dropping out;
3. The District's dropout rate goal for the next school year; and
4. The dropout reduction programs, resources, and strategies to be used during the school year.

The Board will review and approve the plan annually.

At-Risk Students

In determining whether a student is at high risk of dropping out of school, the District will consider the student's academic and attendance performance as well as whether the student is adjudged delinquent; abuses drugs or alcohol; is a student of limited English proficiency; receives compensatory or remedial education; is sexually, physically or psychologically abused; is pregnant or a parent; is an emancipated youth; is a previous drop-out, is a court or agency referral; stops attending school before the end of the school year; is an underachiever; is unmotivated; or exhibits other characteristics that indicate the student is at high risk of dropping out of school.

Programs and District Plan

The District will provide a remedial and support program for any student who is at risk of dropping out of school.

The District will have a plan designed to retain students in a school setting. The District plan will be the responsibility of the Superintendent or the designated at-risk coordinator and will:

1. Emphasize a comprehensive team approach that includes the Superintendent, principal, parent/guardian, teacher, student, community service provider, business representative, or others;
2. Include objectives designed to meet the identified needs of at-risk students and to retain those students in school;
3. Be designed to use community resources that are available to serve at-risk youth;

4. Provide for parental involvement, such as participation in developing student academic plans and training programs for parents; and
5. Provide for review of individual profiles for at-risk students.

The District plan may also:

1. Include alternatives; and
2. Provide for the referral of students who drop out to other programs.

Alternative high school programs conducted during the school year will be conducted off-site or scheduled at a time when school is not in session and shall comply with the State Board of Education Rules Governing Thoroughness (IDAPA 08.02.03.110).

Student Use of Buildings: Equal Access

Non-curriculum related secondary school student organizations may conduct meetings on school premises without intervention on the basis of the religious, political, philosophical, or other content of the meeting.

The following criteria must be met:

1. The meeting is voluntary and student-initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during non-instructional time on regular school days;
4. Employees or agents of the school or government are present only in a non-participatory capacity;
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Non-school persons may not direct, conduct, control, or regularly attend activities.

Although the school assumes no sponsorship of these kinds of meetings, all meetings held on school premises must be scheduled and approved by the principal.

This policy pertains to student meetings. The school has the authority, through its agents or employees, to maintain order and discipline on school premises and to protect the well-being of students and faculty.

Student Clubs: Equal Access

The Board of Trustees regards student clubs and organizations as an important part of the education and development of students.

Definitions

As used in this policy:

1. “School” shall mean any school in the Wallace School District;
2. “Club” shall mean a sponsored club or a non-sponsored or non-curriculum group of students of the school who wish to organize and meet to form common goals, objectives, or purposes, but do not include school activities;
3. “Sponsored Club” shall mean a club which is directly under the sponsorship, direction, and control of the school;
4. “Non-sponsored or non-curriculum club” shall mean a student initiated club which is not under the sponsorship, direction, or control of the school or any student initiated club that does not directly relate to the body of courses offered by the school;
5. “Non-participating capacity” shall mean a person may not promote, lead, or participate in any meeting.

The school within the District shall provide equal access and a fair opportunity for clubs to organize and to meet on school premises during the times established for such meetings.

Sponsored clubs shall be sponsored by a member of the faculty, staff, or administration of the school. The District shall not sponsor clubs which advocate particular religious or political beliefs or ideas. Any such clubs shall be non-sponsored or non-curriculum, and must engage a school employee to monitor their activities while on the premises. The school and the School District shall not be identified or associated with the goals, objectives, activities, beliefs, or opinions of any non-sponsored or non-curriculum clubs or its members. Any club whose activities are deemed by the principal to be disruptive of the everyday operations of the school will not be allowed to initiate meetings, nor continue to meet on school premises.

Equal Access Regulations

The following general guidelines will be observed in approving, establishing, and operating student clubs at Wallace School District schools.

1. Each proposed club must complete and submit a request form to the principal or designee stating the name, specific purpose of the club, the membership requirements, the activities of the club, and meeting dates and times. Each proposed club shall have the student group perform a risk management assessment of the proposed club activities. The principal or designee will forward the request to the School District. The District with Board approval shall respond to the request, accept or reject the application, and designate the club as either a sponsored club or non-sponsored or non-curriculum club.
2. Student participation in club activities and attendance at club meetings shall be voluntary and shall be limited to those students who are currently enrolled in the School District. All student groups meeting on school premises are required to open membership to all interested and/or eligible students. Clubs shall be allowed to meet on school premises from 7:00 a.m. to 8:00 a.m., during the noon hour, and from 3:30 p.m. to 5:00 p.m. on days when school is in session. The time and place of all club meetings shall be subject to available space, conflicting activities and programs, and the availability of the faculty sponsor or monitor. Students shall be responsible for ensuring the presence of a faculty sponsor or monitor prior to every meeting. Clubs will be allowed to meet on school premises during other times of the day only in extraordinary or exceptional circumstances as may be determined by the principal or designee.
3. All clubs must comply with the provisions of the school's student constitution, if applicable.
4. No hazing of students shall be permitted.
5. The principal or designee may deny the opportunity of any club to meet on school premises, and may deny permission of any non-school person to meet with or speak to a club on school premises, when there exists a substantial likelihood of material and substantial interference with the orderly conduct of educational activities within the school, or if the meeting or activities in the meeting are, or will be, in violation of any law or ordinance.
6. The principal, designee, or student council (if appropriate) may temporarily or permanently terminate the opportunity of any club to meet on school premises in the future if the club has materially or substantially interfered with the orderly conduct of educational activities within the school, if the activities of the club have violated any law or ordinance, or if the club has violated any provision of this policy.

For sponsored clubs, the following guidelines will apply:

1. Each sponsored club will have a faculty or staff member appointed as sponsor. The sponsorship shall be approved by the principal or designee;
2. All activities of the club must have prior approval of the sponsor;
3. Club funds shall be subject to deposit, audit, and disbursement in accordance with the regulations of the District; and

4. The content and placement of club posters or advertisements shall be approved by the club sponsor.

For non-sponsored or non-curriculum clubs, the following guidelines will apply:

1. The formation of non-sponsored or non-curriculum clubs shall be student initiated. Non-school persons may not direct, conduct, control, or regularly attend activities;
2. Recognition by the Wallace School District of a non-sponsored or non-curriculum club is not an endorsement of the aims, policies, or opinions of the student organization or its members;
3. The school or District's name will not be identified with the aims, policies, or opinions of the student organization or its members;
4. Notices of meetings of non-curricular student organizations may be posted only on a designated bulletin board used by all non-school-sponsored organizations. No announcements shall be made over the public address system or in any school-sponsored publications;
5. No funds will be expended by the school for any such meeting beyond the incidental cost associated with providing a meeting place;
6. Every club must have a District employee volunteer as a monitor to the club. The monitor shall be responsible for monitoring the meetings to assure that attendance at the meetings is voluntary, to assure that the meetings do not materially and substantially interfere with the orderly conduct of educational activities within the school, and to assure that order and discipline are maintained. Monitors shall attend the meetings of non-sponsored or non-curriculum clubs that are political or religious in nature in a non-participatory capacity;
7. No school employee shall be compelled to be a monitor of a non-sponsored or non-curriculum club;
8. Club posters or flyers need to have a disclaimer, and poster content and placement shall be approved by the principal or designee; and
9. The Wallace School District shall not be identified or associated in any way with the goals, objectives, activities, or opinions of any non-sponsored or non-curriculum clubs to raise money.

Student Club Risk Management Plan

Each School Sponsored Club must develop and implement a plan that identifies hazards and potential exposures to club members, faculty, staff members, and school property. This plan should also outline the policies and procedures needed to control the identified hazards.

Due to the variety of club activities that can occur within a school district, it is critical that hazards and exposures created by the club activities be carefully evaluated. Some clubs, for example a chess club, may not have significant hazards; however, other clubs such as a drag racing club, or a rodeo club could have the potential for severe injuries. Each Risk Management Plan should be customized to the hazards of the individual club. To assist you in developing your plan, you can answer the following questions:

What are the purposes and goals of the club?

What are the responsibilities of the club members?

What training is to be required of club members? Are there minimum knowledge requirements? How will these be tested? How are training and test results documented and maintained?

What are the responsibilities of the faculty or school-appointed sponsor?

What special training or education is required of the faculty or school staff sponsor? Are they certified through a recognized organization?

What rules are necessary to conduct club activities in a safe manner, minimizing hazards and exposures to club members, School District staff members, and school property?

What safety equipment is needed? Who is to provide this equipment? How is the equipment to be inspected and tested?

List emergency response procedures necessary based on any inherent risks of club activities, such as first-aid and emergency communication.

Are parent consent forms required? If so, where are the records maintained?

Student Government

The Board encourages the function of student councils in the District's elementary and secondary schools. Student councils shall assist in improving the general welfare of all students and give students the opportunity to participate in the orderly workings of the democratic process.

Student councils shall not have authority to make policies or procedures for the District or the school. However, they may make recommendations to the administration on any topic of student concern.

Eligibility rules for candidates and rules for conducting campaigns and elections should be published, widely announced, and uniformly enforced.

Student Publications

Journalistic experience in a school setting should be calculated to develop the background of skills and understanding which will equip a student for the responsibilities of the free press in our society. Students must recognize, however, that a school-sponsored newspaper is unique and different from other newspapers in at least four ways.

1. It is an instructive tool in addition to a means of student self-expression;
2. It is read not just by the intended audience of fellow students, but by parents and many citizens outside the school;
3. It is partially supported by tax funds; and
4. It is an influence on the public relations of the entire District since its content is read by many not simply as expressions of individual students, but as expressions representative of the entire student body and approved by the administration.

The concept of “freedom of the press” under the First Amendment has application with regard to school-sponsored publications. However, the United States Supreme Court has established that school districts may exercise editorial control over the style and content of school-sponsored newspapers without violating the First Amendment. All school-sponsored publications shall comply with the ethics and rules of responsible journalism. Text that is libelous, obscene, vulgar, lewd, invades the privacy of others, conflicts with the basic educational mission of the school, is socially inappropriate, is inappropriate due to the maturity of the students, or is materially disruptive to the educational process will not be tolerated.

The District recognizes that there are valid and necessary reasons to exercise such prepublication editorial control and to impose reasonable restrictions on student speech in school-sponsored publications. Thus, the following guidelines apply to all school-sponsored student publications.

1. School-sponsored publications are those publications, including, but not limited to, school newspapers, yearbooks, and athletic programs, which may fairly be characterized as part of the District’s curriculum, whether or not they occur in a traditional classroom setting. Generally they include student publications which are supervised by a faculty member and are designed to impart particular knowledge or skills to student participants and audiences. However, they also may include publications which students, parents, and members of the public reasonably perceive to be sponsored or approved by the District. The author’s name will accompany personal opinions and editorial statements. An opportunity for the expression of differing opinions from those published/produced will be provided within the same media.
2. The District will not restrict student freedom of expression when such expression is within the rules of responsible journalism and is consistent with the four factors outlined below. The principal of each school shall meet with the publication advisor, student

editors, and student writers to establish guidelines for achieving a maximum of student freedom of expression subject to the limitations set forth in this policy.

3. All publications must be reviewed and approved by the building principal prior to distribution. The building principal shall have the authority to determine the appropriateness of any particular item for publication. In exercising such authority, material will not be considered suitable for publication that is:
 - A. Ungrammatical;
 - B. Inadequately researched;
 - C. Obscene;
 - D. Defamatory;
 - E. Advocates prejudice based on race, religion, sexual orientation, or gender identity or expression;
 - F. Invades the privacy rights of others;
 - G. Is unsuitable for the audiences for which the publication is intended;
 - H. Contributes to the disruption or interruption of the educational process or the operation of the school; or
 - I. Otherwise is contrary to District policy or applicable federal or State law.

The school principal may also exclude material that may serve to associate the District with any position other than neutrality on matters of political controversy.

4. The principal of each secondary school shall have the authority to determine whether advertising will be accepted for inclusion in school-sponsored student publications. The District has an important interest in avoiding the impression that it has endorsed a viewpoint at variance with its educational mission. Consequently, if advertising is accepted, each school principal shall have authority to exclude certain categories of advertising. For example, drug, drug paraphernalia, alcoholic beverage advertisements, or any other advertisements that may be viewed as encouraging action that might endanger the health and welfare of students may be excluded. Similarly, advertisements may be excluded if they are:
 - A. Factually inaccurate;
 - B. Defamatory;
 - C. Obscene;
 - D. Advocate prejudice based on race, religion, sexual orientation, or gender identity or expression;
 - E. Contain either explicit or implicit sexual content or overtones; or a
 - F. Are of poor production quality.

The school principal may also exclude advertising that may serve to associate the District with any position other than neutrality on matters of political controversy.

5. In the event that the building principal determines that material is not suitable for publication, students may appeal such decision to the Superintendent or his or her designee. The decision of the Superintendent or his or her designee will be final.
6. Copies of each issue of the student publication shall be sent to the Superintendent and each member of the Board of Trustees.

Distribution and Posting of Materials

The distribution of materials from outside the school system uses a considerable amount of valuable educational time. This time is taken away from students, teachers, and the clerical staff. It is the District's policy to limit the distribution of materials to parent and student organizations sponsored by the District or other governmental agencies. Materials that provide information valued or needed by the District may also be distributed.

Students should not be used to distribute partisan materials or information pertaining to a school or general election, budget or bond issue, or negotiations. Students should not be exploited for the benefit of any individual, group, or profit-making organization.

No staff member may distribute any materials on school property without prior approval of the chief school administrator. All materials distributed will clearly indicate their source. Non-school-related materials will be plainly labeled, including a disclaimer that the activity is "not a school-sponsored activity."

All organizations must have the approval of the Superintendent before materials may be distributed. The Superintendent will use the guidelines listed above in the approval of the distribution of the materials.

In order to facilitate the distribution of materials with information about student activities offered in the community, each school will do the following:

1. Maintain a centrally located bulletin board for the posting of bulletins;
2. Maintain a table where flyers and other information can be made available to students; and
3. Include announcements for student related activities in newsletters that go home with students. The announcements must be submitted one week prior to the newsletter in which the announcement is to go home, must advertise a youth-oriented activity, and must be of non-religious, non-political nature.

It is the intent to post all notices and place flyers on the distribution table except those that are viewed by the principal as likely to be disruptive, libelous, or obscene.

Student Dress

One of the fundamental purposes of school is to provide the foundation for the creation and development of a proper attitude toward education. In order to further this purpose, it is essential to create and maintain an effective teaching and learning environment. Student attire impacts the teaching and learning environment. It can either promote a more effective educational environment, or it can disrupt the educational climate and process. Student attire that is acceptable for some social settings may not be acceptable for the educational environment of school.

Students are reminded that their appearance, clothing, and grooming, significantly affect the way others respond to them. Matters of dress remain primarily the responsibility of students, in consultation with their parents or legal guardians. Nevertheless, since it is the duty of the Board of Trustees to provide an educational atmosphere conducive to learning; minimizing disruptions or distractions; and to protect the health, safety, and morals of students, all students will adhere to the following certain minimum standards of dress when the student is on any school premises or at any school sponsored activity, regardless of location.

In general, students are not to wear or carry items of apparel (clothing, accessories, cosmetics, tattoos, jewelry—including body piercings) which depict or allude to, by picture, symbol, or word, drugs, including alcohol and tobacco; controlled substances; drug paraphernalia; gangs; violence; sexually explicit, lewd, indecent, or offensive material; or illegal acts. The wearing, use, or display of any gang clothing or attire jewelry, emblem, badge, symbol, sign, codes, or other things which evidence membership or affiliation in any gang (based upon the principal's or his or her designee's reasonable belief that gangs may be present in a school) is prohibited on any school premises or at any school sponsored activity, regardless of location.

Head coverings are inappropriate in the school building during regular school hours, unless the principal or designee specifically makes an exception to the policy.

Unless the principal or designee indicates otherwise, students will wear footwear at all times.

The Board of Trustees urges parents and students to exercise sound judgment, based upon the standard of appropriateness for the school setting. For example, clothing exposing bare midriffs and short shorts and skirts will not be allowed. The Superintendent or his or her designee is hereby authorized to promulgate regulations consistent with the provisions of this policy.

Interpretation and Implementation of Policy

The building principal/designee shall use reasonable discretion in interpreting and implementing the provisions of this policy. If a conflict arises in the interpretation of this policy, the

interpretation of the building principal or designee shall be final. Principals, administrators, and teachers shall use reasonable discretion in enforcing this policy.

Enforcement

Teachers and administrators may deny class entrance to students dressed or otherwise adorned inappropriately until arrangements may be made for their proper attire. All time missed from classes for failure to adhere to this policy will be deemed unexcused absences. Parents or guardians will be notified each time a student is asked to leave school because of inappropriate attire. Students who are insubordinate or refuse to change the improper attire, or who repeat dress code violations shall be subject to disciplinary action up to and including suspension or expulsion, depending on all the facts and circumstances, for violating the standards of student conduct.

Temporary Exceptions

In order to allow appropriate attire for a particular educational or school activity, the building principal or his or her designee has the authority to grant temporary exceptions to specific provisions of this policy and related regulations. An example of such an exception might be where a specially scheduled school event required a group of students to dress unusually on a particular day.

Accommodations

The District will seek to accommodate cultural, religious, and ethnic differences in dress and grooming, provided such dress or grooming does not materially or substantially disrupt the educational process of the school or create a health or safety hazard for students, staff, or others. No student shall be required to modify their natural head or facial hair, such as by shaving or straightening through the application of heat or chemicals.

Bring Your Own Technology Program

The District recognizes the importance and potential educational benefits of technology. The use of portable electronic devices in the classroom can add educational value when such devices deliver content and extend, enhance, or reinforce the student learning process. Classroom teachers shall determine the appropriateness of in-class use of electronic devices, consistent with District instructional objectives, District policies, and with the approval of the building principal.

The Board directs the Superintendent to work with appropriate stakeholders to ensure that Board-approved Bring Your Own Technology (BYOT) programs are implemented in a way that is mindful of available and required infrastructure, digital equity issues, student and system safety issues, and the need for all students to be able to access a device. The Superintendent may convene a taskforce including such members as teachers, administrators, parents, technology staff, and/or students to set guidelines about the use of BYOT devices

The District respects each family's right to decide whether or not to provide the student with a device for this program.

Students at the middle and high school level are permitted to use approved personal electronic devices for educational purposes under the direction of a classroom teacher.

Neither the District nor any of its schools is liable for any device stolen, lost, or damaged on District property or proceeding to or from District property, whether due to the action/inaction of the student or that of any third party. The student and his or her parent/guardian shall be solely responsible for any such loss, theft, or damage. If a device is stolen or damaged, it will be handled through the administrative office as other personal items that are stolen or damaged. It is recommended that skins, decals, and other school appropriate custom touches be used to identify physically a student's device from others. Additionally, protective cases for technology are encouraged.

Rules Regarding Use of BYOT Devices

Personal electronic devices may only be used in a responsible and legal manner, and may not be used in a manner that disrupts the educational process and/or is contrary to any District policy, procedure, or rule. Students using their own devices are subject to District acceptable use guidelines, BYOT guidelines, student conduct and discipline rules, and all other Board policies and procedures and school rules. Failure to adhere to these guidelines may result in the revocation of the privilege of using personal electronic devices in the classroom and in disciplinary action as appropriate.

Students may only use a personally-owned device as part of the BYOT program once a Form 3260F Bring Your Own Technology Permission Form and Form 3270F Internet Access Conduct Agreement, signed by both the student and parent/guardian, are on file with the school.

The following personal electronic devices may be used in BYOT programs:

1. Laptop computers;
2. Tablet PCs;
3. E-readers;

To ensure compliance with the Children's Internet Protection Act, students using their own electronic devices may access only the wireless Internet provided by the District. Internet access from outside sources, such as using a data plan associated with a personally-owned device, is not permitted on school grounds. Students are prohibited from attempting to bypass the District's Internet gateway, and are directed to report any inappropriate content and conduct to their classroom teacher. If a student accesses the Internet from outside sources, at a minimum, the student will lose the privilege to participate in the BYOT program.

Students may only access files and sites that are relevant to the classroom curriculum and suggested or authorized by a teacher. Teachers shall closely supervise students to ensure appropriate use of technology in the classrooms.

BYOT activities are implemented at the discretion of classroom teachers and building administrators. BYOT devices shall be turned off unless students have been directed to use them. Students are to turn off and keep BYOT devices in the sight of the teacher during assessments unless otherwise directed by a teacher. Any teacher's instruction to shut down BYOT devices or to close the screen is to be followed immediately. All BYOT devices must be kept in silent mode unless otherwise directed by the classroom teacher.

Students shall charge all BYOT devices prior to school every day. Because power cords stretched across classrooms can become a safety issue both for the students and devices, charging the device in any classroom, hallway, or any other location that may be a safety concern is prohibited. Personal devices cannot be left on school grounds before or after school hours.

The District will not service, repair, or maintain any non-District owned technology brought to and used at school by students.

When electronic devices are used to enhance learning in the classroom, students without an approved, charged personal device will be provided access to an appropriate District-owned digital device. Students may not share any BYOT device with another student unless their parent/guardian has approved this in writing and the teacher has directed it.

Violations of any Board policies, regulations, or school rules involving a student's personal electronic device may result in the loss of use of the device in school and/or disciplinary action. The school reserves the right to inspect a student's personal electronic device if there is reason to believe that the student has violated Board policies, regulations, school rules or has engaged in other misconduct while using their personal electronic device. Any search will be conducted in compliance with Board policies.

The controls on electronic communication devices contained in this policy do not apply to special education or Section 504 students or students with an Individualized Education Plan when any of these or other such similar plans conflict with uses outlined herein.

Student-Owned Electronic Communications Devices

Students, with permission of their parent(s)/guardian(s), or the student him or herself if over 18 years of age, may be in possession of a personal electronic devices such as smart phones, cellular telephones, pagers/beepers, laptops, tablets, e-readers, or other related electronic devices on school property. The devices shall not be used in a manner that disrupts the educational process, including, but not limited to, posing a threat to academic integrity or violating confidentiality or privacy rights of another individual. Unless an emergency situation exists that involves imminent physical danger *or a certified District employee authorizes the student to do otherwise* (such as use in class), use of devices shall be limited to the period before classes begin in the morning, during the student's lunch period, and after the student's last class in the afternoon.

Access to the devices is a privilege and not a right. Each student will be required to follow the Acceptable Use of Electronic Networks Policy and the Internet Access Conduct Agreement.

Students may only access the internet through the filtered District connection, regardless of whether they are using their personal device or a District-issued device. District staff will not provide software or technical assistance for student-owned devices.

Because power cords stretched out in classrooms become a safety issue both for the students and devices, charging the device in any classroom, hallway, or any other location that may be a safety concern will not be allowed.

The use of cameras in any type of electronic device is strictly prohibited in locker rooms, restrooms, and classrooms unless *a certified District employee authorizes the student to do otherwise*. Where students are allowed to use electronic devices, they are required to obtain permission before taking a photograph or video of any individual. Students must also obtain permission from any individual appearing in a photograph or video prior to posting on any social networking site or other internet site.

District Provided Access to Electronic Information, Services, and Networks

Internet access and interconnected computer systems are available to the District's students and faculty. Electronic networks, including the internet, are a part of the District's instructional program in order to promote educational excellence by facilitating resource sharing, innovation, and communication.

In order for the District to be able to continue to make its computer network and internet access available, all users, including students, must take responsibility for appropriate and lawful use of this access. Students utilizing school-provided internet access are responsible for good behavior online. The same general rules for behavior apply to students' use of District-provided computer systems. Students must understand that one student's misuse of the network and internet access may jeopardize the ability of all students to enjoy such access. While the District's teachers and other staff will make reasonable efforts to supervise use of network and internet access, they must have student cooperation in exercising and promoting responsible use of this access and students must be held responsible and accountable for their own conduct.

Curriculum

In accordance with this policy and the Board's philosophy to ensure the safety of all students, the District shall provide an appropriate planned instructional component for internet safety which shall be integrated into the District's regular instructional program. In compliance with the Children's Internet Protection Act this instruction will include information on the safe use of social networking sites and instant messaging, the characteristics of cyber-bullying, and recommended responses.

The use of the District's electronic networks shall be consistent with the curriculum adopted by the District, as well as the varied instructional needs, abilities, and developmental levels of the students, and shall comply with the selection criteria for instructional materials and library- media center materials. Staff may, consistent with the District's educational goals, use the internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

Internet Safety

Each District computer with internet access shall have a filtering device as described in Procedure 3270P.

The District shall require that any vendor, person, or entity providing digital or online library resources to the District for use by students verify they have policies and technology protection measures:

1. Prohibiting and preventing users from sending, receiving, viewing, or downloading materials that are deemed to be harmful to minors, as defined by section 18-1514, Idaho Code; and

2. Filtering or blocking access to obscene materials, materials harmful to minors, and materials that depict the sexual exploitation of a minor, as defined in chapter 15, title 18, Idaho Code.

The District will also monitor the online activities of students, through direct observation and/or technological means, to ensure that students are not accessing material that is inappropriate or harmful to minors, as defined in section 18-1514 Idaho Code or as defined in 47 USC Section 254.

Filtering should also be used in conjunction with:

1. Educating students on appropriate online behavior;
2. Requiring students review and sign Form 3270F Internet Access Conduct Agreement;
3. Using behavior management practices for which internet access privileges can be earned or lost; and
4. Appropriate supervision, either in person and/or electronically.

The system administrator and/or Internet Safety Coordinator and/or building principal shall monitor student internet access.

Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects being conducted by students age 18 and older.

Review of filtering technology and software shall be done on a periodic basis and is the responsibility of the Internet Safety Coordinator. It shall be the responsibility of the Internet Safety Coordinator to bring to the Superintendent or designee any suggested modification of the filtering system and to address and assure that the filtering system meets the standards of Idaho Code 18-1514 and any other applicable provisions of Chapter 15, Title 18, Idaho Code.

Internet Access Conduct Agreements

Each student and their parent(s)/legal guardian(s) will be required to sign and return to the school at the beginning of each school year the Internet Access Conduct Agreement prior to having access to the District's computer system and/or internet service.

District Provided Mobile Computing Devices

The Wallace School District is committed to providing a safe, rigorous, and engaging learning environment that prepares all students to be career and college ready. Accessing and using technological resources is one of the cornerstones of a 21st century education. This document describes the rules for acceptable use of District-issued mobile computing devices on and off District premises. Using these resources responsibly will promote educational excellence by facilitating resource sharing, fostering creativity, and promoting communication in a safe, secure environment for all users.

Distributing Mobile Computing Devices

Before they are issued a mobile computing device, each student must submit an executed Student Agreement for Mobile Computing Device Use and a copy of the Internet Access Conduct Agreement. Each form must be signed by the student and by their parent or guardian if they are less than 18 years of age.

The District may provide parent orientations on the mobile computing device program. A student's parents/guardians are encouraged to attend an orientation before the student takes a device home with them.

Parents or guardians of students may use the school-issued device, and their involvement in student learning through technology is strongly encouraged. However, use of school-issued technology outside of this purpose, such as for personal gain or activities unrelated to student learning, is prohibited. Both parent and student use of the District's device, network, and software may be subject to a public records request depending upon the content of the document or communication, including email.

At the end of the school year, the school will collect all devices from students. At the school's discretion, students may be issued devices to support summer school programs.

The Superintendent shall establish procedures for the maintenance of records regarding the devices, including tracking device inventory and which device is issued to which student.

Care and Safety

Students are responsible for the general care of the device they have been issued by the District and are expected to observe the following precautions:

1. No food or drink is allowed next to a device while it is in use;
2. Insert and remove cords, cables, and removable storage devices carefully;
3. Shut down the device when not in use to conserve battery life;
4. Stickers, drawings, or permanent markers may not be used on the device;
5. Do not vandalize the devices or any other school property;

6. Devices must never be left in any unsupervised area.
7. Students are responsible for keeping their device's battery charged for school each day;
8. Do not place anything near the device that could put pressure on the screen;
9. Clean the screen with an anti-static cloth or any other soft, dry cloth;
10. Devices should not be stored in a student's vehicle, or anyplace else subject to extreme temperatures;

The Superintendent will designate an individual or office at the school level where the devices must be taken if they break or fail to work properly.

Use at School

Devices are intended for use at school each day. Students are responsible for bringing their device to all classes, unless specifically advised not to do so by their teacher. Devices must be brought to school each day in a fully charged condition. Power cords must stay with the device at all times. Repeated failures to comply with these requirements will result in disciplinary action.

If students leave their device at home, they may phone their parent/guardian to bring it to school. Students without a device will use a computer in the classroom or a device from the lending pool depending upon availability and at the administrator's discretion. This includes students whose devices are undergoing repair.

Sound must be muted, or headsets must be used at all times unless the teacher directs otherwise.

Students may use printers in classrooms, the library, and computer labs with a teacher's permission during class or breaks. All printing should be limited to educational purposes.

Personalizing Mobile Computing Devices

While at no time does the device become the personal property of students or staff; students may place individualized items on the device, which are limited to music, pictures, and other items that do not hinder the network or device functionality.

Students may be permitted to select their own screen savers and backgrounds provided they are appropriate. Screensavers, backgrounds, or other pictures containing guns, weapons, pornographic materials, inappropriate language, alcohol, drugs, gang related symbols or pictures, the student's password or other items deemed inappropriate by the administration will result in disciplinary actions.

Students may not add options or upgrades to the device, change the operating system, or add unauthorized software or safety controls.

Should students or parents/guardians place personalized items on the device, such items may be accessed or viewed by District staff at any time, for any reason, including randomly selected device reviews. No content placed on District provided devices is privileged or confidential.

Should students or parents/guardians place personalized items on the device in violation of this policy such items may be accessed or viewed by District staff at any time, for any reason, including randomly selected device reviews. No content placed on District provided devices is privileged or confidential.

Managing Files

Once details are known about the availability of file space that is shared or is backed up automatically, the Superintendent will set a procedure for where students and teachers should save important documents

Students should also back up their work. It is the student's responsibility to ensure that work is not lost due to mechanical failure or accidental deletion. Device malfunctions are not an acceptable excuse for not submitting work.

Software

The software originally installed by the District must remain on the device in usable condition and be easily accessible at all times.

From time to time the school may add or update software applications. The licenses for this software sometimes require that the software be deleted from devices at the completion of a course. Periodic reviews of devices will be made to ensure that students have deleted software that is no longer required in class and that the school has not exceeded its licenses.

All devices will be equipped with anti-virus protection software which will be upgraded regularly.

It is the responsibility of individual students to be aware of additional software programs and files loaded onto their device which are required for classes or school activities.

Students wishing to load additional software onto a device must first obtain the permission of the school's technology department. Any additional software must be appropriate for the school environment and comply with the Internet Access Conduct Agreement. Violent games and device images containing obscene or pornographic material are banned. The technology department shall determine whether a game is violent, and the student may appeal this decision to the principal. Each student is responsible for ensuring that only licensed software is loaded onto their device.

Students shall not download the TikTok app onto any District issued device. If TikTok has already been downloaded onto a device issued to a student, the student shall delete the app or seek assistance from District technology personnel in deleting it.

Inspection and Filtering

Filtering software will be used to prevent access to material considered inappropriate or harmful to minors.

Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects being conducted by students age 18 and older.

Students may be selected at random or for cause to provide their device for inspection. If technical difficulties occur or unauthorized software or any other violation of District policy is discovered, all files and the hard drive may be reformatted. Only authorized software will be installed. The District does not accept responsibility for the loss of any software or other materials deleted due to a reformat and reimage.

Electronic mail, network usage, and all stored files shall not be considered confidential and may be monitored at any time by designated District staff to ensure appropriate use. The District will cooperate fully with local, State, or federal officials in any investigation concerning or relating to violations of law.

Remote Access of Devices

Devices may be equipped with the ability to be accessed remotely in the case of technical problems requiring remote assistance, missing or stolen devices, or other for any other appropriate District purpose. A student does not need to be asked for permission prior to remote software maintenance.

Acceptable Use

Access to the devices is a privilege and not a right. Each employee, student, and parent will be required to follow the Internet Access Conduct Agreement and the Acceptable Use of Electronic Networks Policy. Violation of these policies, whether by the student or another party, while the device is in student custody may result in disciplinary action for the student, possible revocation of device privileges, and/or contacting law enforcement authorities.

Protecting and Storing Devices

Students are expected to password protect their devices and shall keep their password confidential.

When students are not using their devices, the devices should be stored in their lockers. Students are encouraged to take their devices home every day after school.

Under no circumstances should devices be left in unsupervised areas. Unsupervised areas include the school grounds, the cafeteria, computer lab, locker rooms, library, unlocked classrooms, dressing rooms, and hallways. Unsupervised devices will be confiscated by staff and taken to the building principal's office. Disciplinary action may be taken for leaving a device in an unsupervised location.

Repair of Devices

Students are to report all device problems to the librarian at their school for repair in conjunction with the technology department.

Users are responsible for the general care of District-owned devices and may be held responsible for any damage caused by negligent acts. The Superintendent will issue a document clarifying student or parent responsibility for lost and damaged devices when the details of the District's insurance policy are known.

Assigning Student Technology Devices

Students / family will be responsible for loss or damage to devices.

Relationship Abuse and Sexual Assault Prevention and Response

The Board endeavors to take steps to prevent and respond to known instances of relationship abuse and sexual assault. Such conduct by students or third parties is strictly prohibited and shall not be tolerated on District premises, or at any District sponsored activity, regardless of location including, but not be limited to buildings, facilities, and grounds on the District campus, school buses, District parking areas, and the location of any District sponsored activity. This includes instances in which the conduct occurs off the District premises but impacts a District related activity.

Relationship abuse includes the intentional use of physical, sexual, verbal, or emotional abuse or violence by a person to harm, threaten, intimidate, or control another person in a current or past dating relationship. Sexual assault includes sexual violence, sexual abuse, sexual stalking, and rape.

Students whose behavior is found to be in violation of this policy will be subject to discipline, up to and including expulsion. Third parties whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the Superintendent or Board.

Students or third parties may also be referred to law enforcement officials. Should the District or any of its employees have reason to believe that a child under 18 years of age has been abused, abandoned, or neglected or has been subjected to conditions which would reasonably result in abuse, abandonment, or neglect, the school shall follow appropriate reporting requirements pursuant to the Child Protective Act. Employees shall also report the incident to the District's Title IX coordinator or deputies, as described in Policy 3085.

The Superintendent is hereby directed to develop administrative procedures to implement this policy in the cases of actions which violate this policy but are not within the scope of sexual harassment as defined in Procedure 3085P. Procedures shall include descriptions of prohibited conduct, the definition of abuse pursuant to the Child Protective Act, reporting and investigative procedures, prevention and response procedures, and provisions to ensure notice of this policy is provided to students.

The Board shall review this policy annually.

Addressing Sexual Assault Outside the Scope of Policy 3085 and Procedure 3085P

Any person wishing to report an instance of sexual assault may do so in accordance with Policy 3085

If the Title IX Coordinator determines the instance of sexual assault does not fall within the scope of Procedure 3085P to address, it may be addressed through this policy. The District shall maintain the confidentiality of the student, as far as possible, and may notify the student of what information may need to be disclosed in the course of the investigation, to whom, and why. The

District shall take steps to prevent retaliation against a student who files a complaint regarding sexual assault. The District shall immediately act to remediate the situation, without waiting for the completion of the investigation, and shall notify the student of any services available to assist him or her.

Such remediation during or following an investigation may include:

1. Providing an effective escort to ensure the complainant can move safely between classes and activities;
2. Ensuring that the complainant and the perpetrator or alleged perpetrator do not share classes, extracurricular activities, or a school;
3. Provision of victim services such as medical, counseling, and academic support services;
4. Arranging for the complainant to have extra time to complete or retake a class without academic penalty;
5. Disciplinary action against the perpetrator;
6. Counseling for the perpetrator;
7. Conducting training with a group of students if, for example, the sexual violence created a hostile environment within a particular grade level or on a sports team;
8. Ensuring the school has access to a counselor trained to assist victims of sexual violence;
9. Training employees on how to handle reports of sexual violence;
10. Informing students about the problem of sexual violence and how to seek assistance;
11. Conducting bystander intervention and sexual assault prevention programs with students;
12. Issuing official statements that the District will not tolerate and will respond to any incidents of sexual violence; and
13. Assessing the school climate to determine whether the campus is free of sexual violence and determining what steps should be taken to address any problems.

Following the investigation, to the extent possible and not in violation of any applicable law, the complainant shall be notified of the outcome of the complaint, including whether the investigation determined that the alleged conduct occurred, remedies being offered to the complainant, any sanctions imposed on the perpetrator that directly relate to the complainant, and any other steps taken to eliminate the hostile environment or prevent recurrence.

Sexual Harassment/Intimidation of Students

Sexual harassment is a form of sex discrimination and is prohibited in the District. An employee, District agent, or student engages in sexual harassment whenever he or she makes unwelcome advances; requests sexual favors; or engages in other verbal, non-verbal, or physical conduct of a sexual or sex-based nature, imposed on the basis of sex, that:

1. Denies or limits the provision of educational aid, benefits, services, opportunities, or treatment, or that makes such conduct a condition of a student's academic status; or
2. Has the purpose or effect of:
 - A. Substantially interfering with the student's educational environment;
 - B. Creating an intimidating, hostile, or offensive educational environment;
 - C. Depriving a student of educational aid, benefits, services, opportunities or treatment; or
 - D. Making submission to or rejection of such unwelcome conduct the basis for academic decisions affecting a student.

The terms "intimidating," "hostile," and "offensive" include conduct which has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include, but are not limited to, unwelcome touching; crude jokes or pictures; discussions of sexual experiences; pressure for sexual activity; intimidation by words, actions, insults, or name calling; teasing related to sexual characteristics; and spreading rumors related to a person's alleged sexual activities.

Students who believe that they may have been sexually harassed or intimidated should contact a counselor, teacher, Title IX coordinator, or administrator who will assist them in the complaint process, per Policy 3085 and Procedure 3085P. Supervisors or teachers who knowingly condone, or fail to report or assist a student to take action to remediate such behavior of sexual harassment or intimidation, may themselves be subject to discipline.

Any District employee who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any student of the District who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action, including, but not limited to, suspension and expulsion, consistent with the discipline policy. Any person who knowingly making a false accusation regarding sexual harassment will likewise be subject to disciplinary action up to and including discharge with regard to employees, or suspension and expulsion with regard to students.

Any individual seeking further information should contact the Superintendent for the name of the current Title IX Coordinator for the District. The Superintendent shall ensure that the student and

employee handbooks identify the name, address, and telephone number of the individual responsible for coordinating the District's compliance efforts.

An individual with a complaint alleging a violation of this policy which does not fall within the scope of allegations addressed by Procedure 3085P shall follow the Uniform Grievance Procedure.

Hazing, Harassment, Intimidation, Bullying, Cyber Bullying

Definitions

1. "Third parties" include, but are not limited to, coaches, school volunteers, parents, school visitors, service contractors or others engaged in District business, such as employees of businesses or organizations participating in cooperative work programs with the District and others not directly subject to District control at inter-district and intra-district athletic competitions or other school events.
2. 3. "Hazing" includes, but is not limited to, any act that recklessly or intentionally endangers the mental health, physical health, or safety of a student for the purpose of initiation or as a condition or precondition of attaining membership in, or affiliation with, any District-sponsored activity or grade level attainment, such as forced consumption of any drink, alcoholic beverage, drug, or controlled substance, forced exposure to the elements, forced prolonged exclusion from social contact, sleep deprivation or any other forced activity that could adversely affect the mental or physical health or safety of a student; requires, encourages, authorizes, or permits another to be subject to wearing or carrying any obscene or physically burdensome article, assignment of pranks to be performed or other such activities intended to degrade or humiliate.
4. "Harassment" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written, electronic, or physical nature on the basis of an actual or perceived characteristic, including but not limited to age, race, religion, color, national origin, disability, gender, gender identity and expression, sexual orientation, physical characteristic, cultural background, socioeconomic status, geographic location, familial status, or weight.
5. "Harassment, intimidation, or bullying" means any act that substantially interferes with or disrupts the educational environment or impinges on the rights of other students at school,

In the situation that cyber bullying originated from a non-school computer, but has been brought to the attention of school officials, any disciplinary actions shall be based on whether the conduct is determined to be reasonably expected to materially and substantially interfere with or disrupt educational environment of the school or impinge on the rights of other students at school and/or in violation of District policy or state law. The Administration shall, at their discretion, contact local law enforcement.
7. "Intimidation" includes, but is not limited to, any threat or act intended to tamper, substantially damage or interfere with another's property, cause substantial inconvenience, subject another to offensive physical contact or inflict serious physical injury on the basis of race, color, religion, national origin, gender identity and expression, or sexual orientation.

Retaliation/False Charges

Such retaliation shall be considered a serious violation of Board policy, independent of whether a complaint is substantiated. False charges shall also be regarded as a serious offense and will result in disciplinary action or other appropriate sanctions.

Confidentiality

It is recognized that harassment, hazing, intimidation, bullying, and cyber bullying is often very distressing for the victim and those who suffer as a result of such actions may be reluctant to make their concerns known. All reasonable steps will be taken to ensure that all inquiries and complaints are dealt with allowing for as much confidentiality as can be provided while at the same time allowing for a thorough and appropriate investigation and reporting, where appropriate.

Policy Distribution

Information about this policy must be distributed to the school community annually, including parents, students, and all school personnel. Information about the District's policies and procedures will be included in student orientation material and in the student handbook.

Complaint Procedures

Building principals and the Superintendent have responsibility for investigations concerning hazing, harassment, intimidation, bullying, or cyber-bullying. The investigator(s) shall be a neutral party having had no involvement in the complaint presented.

Any student, employee, or third party who has knowledge of conduct in violation of this policy or feels he or she has been a victim of hazing, harassment, intimidation, or cyber-bullying, in violation of this policy shall immediately report his or her concerns.

A copy of the notification letter or the date and details of notification to the complainant, together with any other documentation related to the incident, including disciplinary action taken or recommended, shall be forwarded to the Superintendent or their designee.

Drug Free School Zone

The Board recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the entire school community. As the educational institution of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive means.

For purposes of this policy, “Drugs” shall mean:

1. All dangerous controlled substances as so designated and prohibited by Idaho law;
2. All chemicals which release toxic vapors;
3. All alcoholic beverages;
4. Tobacco products;
5. Any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;
6. “Look-alikes”;
7. Anabolic steroids;
8. Any other illegal substances so designated and prohibited by law.

In accordance with Federal law, the Board hereby establishes a “Drug-Free School Zone” that extends 1000 feet from the boundary of any school property. The Board prohibits the use, possession, concealment, delivery, or distribution of any drug or any drug-related paraphernalia at any time on District property, within the Drug-Free School Zone, or at any District-related event. Furthermore, the Superintendent shall take the necessary steps to ensure that an individual 18 years of age or older who knowingly delivers or distributes controlled substances so designated and prohibited by Idaho law within the Drug-Free School Zone to another person is prosecuted to the fullest extent of the law.

The Superintendent shall prepare guidelines for the identification and regulation of drug use in the schools. Such guidelines shall emphasize the prevention of drug use and include a statement to students that use of illicit drugs and the unlawful possession of alcohol is harmful. The student handbook shall provide standards of conduct that are applicable to all students which clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students on school premises or as a part of any school activity.

Sanctions for violation of this or any other policy which addresses illegal drug and alcohol possession, use, or distribution may include, together with punitive action, voluntary referral to appropriate persons or agencies for screening and assessment.

The Board shall review this policy annually.

Substance and Alcohol Abuse

The Board recognizes that use of alcohol and drugs is a serious problem and that the presence of drugs in school is detrimental to the educational environment and harmful to the health, safety, and welfare of students and staff. It is the desire of the District to help those in need of alcohol and drug intervention and at the same time to protect others that are affected by the presence of alcohol and drugs and to enforce the policies of the District relating to use, possession, or being under the influence of alcohol or controlled substances, as that term is defined in statute (I.C. § 37-2732C). It is the philosophy of the District that the District will help those who desire to help themselves.

The District's desire is to create an environment where students feel safe from the many harmful influences that are prevalent in our society. For those students that come forward and voluntarily disclose using and/or being under the influence of alcohol and/or drugs while on school property or at a school function, prior to the District having reasonable suspicion, the District will provide counseling to any such student and make recommendations for referral to appropriate agencies for screening and assessment. The parent, legal guardian, or custodian of the student will be immediately notified and the District will cooperate with and work with the parent in the establishment of plan to assist the student in whatever means are deemed necessary and appropriate. The student's parent, guardian, or custodian will be notified of available opportunities for counseling for the student. Only persons on a "need to know" basis may receive information regarding a voluntary disclosure, except when deemed reasonably necessary to protect the health and safety of others. The incident shall be reported to law enforcement.

The mere fact that a student previously disclosed use of alcohol or a controlled substance, in and of itself, shall not establish reasonable suspicion at a later date.

If the District has reasonable suspicion (based upon reliable information received or the personal observations of staff) to believe that a student is using or is under the influence of alcohol or a controlled substance and the student has not voluntarily disclosed such use or influence, the District may take whatever action is deemed appropriate, including but not limited to, notifying the parent/legal guardian and notifying local law enforcement, suspension, and/or expulsion. The following shall be used as a guide in determining what procedures may be followed when this occurs, however, the specific procedure may, in large part, depend upon the circumstances in each case:

1. Upon reasonable suspicion, the student will be asked if he or she has used and/or is under the influence of alcohol and/or drugs;
2. If the student admits to the use, the student's parent/legal guardian will be immediately called;
3. The student will be asked to reveal the circumstances involving the use of alcohol and/or drugs and asked if any other students were involved;
4. Law enforcement will be called when deemed appropriate.
5. The student will be immediately suspended from school in accordance with the student handbook and may be recommended for expulsion.
6. As a condition of readmission, the student and parent will agree to undergo assessment and

counseling for alcohol and/or drug use. The District will provide counseling services and any other services available to the student and/or the student's parents.

7. If the student does not admit to the use of alcohol and/or drugs and the staff member(s) in charge, after talking to the student, still believes that the student used or was/is under the use or influence of alcohol and/or drugs, an investigation will be conducted, which may include a search of the student's locker, car, desk or any other school property used by the student may be subject to search. In addition, law enforcement will be called immediately as will be the parent/guardian. The student will be suspended from school pending an investigation. If the investigation shows that, more likely than not, the student used or was under the influence of drugs and/or alcohol, a recommendation for expulsion will be made to the Board of Trustees. The student will be entitled to full due process prior to being expelled from school. As a condition of readmission, the Board may require that the student undergo assessment and counseling for alcohol and/or drug use.

The District shall provide written annual notification of the voluntary disclosure provisions of this policy as well as counseling availability and any other pertinent information in the student handbook or other reasonable means.

The Board shall review this policy annually.

Graduated consequences for bullying may include any of the above listed traditional or alternative disciplinary measures or a combination thereof in accordance with the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance. However, depending upon the nature of the act, the District reserves the right to deviate from the process of graduated consequences to appropriately address the conduct at issue and move directly to suspension or expulsion proceedings. District personnel may also report the student's conduct to the appropriate law enforcement officials.

Disciplining Students on Individual Education or Section 504 Plans

The District shall comply with the procedural safeguards enumerated in State and federal law and rule when disciplining students with individualized education plans or 504 plans.

Gun-Free Schools

A student who uses, possesses, controls, or transfers a firearm, or any object that can reasonably be considered to be or look like a firearm, shall be expelled for a definite period of time of at least one calendar year. The Board, however, may modify the expulsion period on a case-by-case basis. The building administrator shall notify the appropriate law enforcement agency of any student who brings a firearm to school.

If a student violating this policy is identified as disabled, either under the IDEA or Section 504, a determination must be made whether the student's conduct is related to the disability. If the violation of the policy is due to a disability recognized by the IDEA or Section 504, lawful procedures for changes in placement must be followed.

Any student subject to an expulsion shall be entitled to a hearing before the Board, in accordance with Idaho Code and Board policy.

Possession of a Weapon on School Property – Misdemeanor

No person shall possess a firearm or other deadly or dangerous weapon while on school property or in those portions of any building, stadium, or other structure on school grounds which, at the time of the violation, are being used for an activity sponsored by or through a school in this State or while riding school provided transportation. This also applies to students of schools while attending or participating in any school sponsored activity, program, or event regardless of location.

As used in this section of this Policy only:

1. "Deadly or dangerous weapon" means any weapon as defined in United States Code; and
2. "Firearm" means any firearm as defined in United States Code.

Any person who possesses, carries, or stores a weapon in a school building or on school property, except as provided below, shall be referred to law enforcement for immediate prosecution, as well as face disciplinary action by the District.

The Board may grant persons and entities advance permission to possess, carry, or store a weapon in a school building. All persons who wish to possess, carry, or store a weapon in a school building shall present this request to the Board in a regular meeting. It is solely within the Board's discretion whether to allow a person to possess carry or store a weapon in a school building.

This section of this policy does not apply to:

1. Law enforcement personnel;
2. Any adult over 18 years of age and not enrolled in a public or private elementary or secondary school who has lawful possession of a firearm or other deadly or dangerous weapon, secured and locked in his or her vehicle in an unobtrusive, nonthreatening manner;
3. A person who lawfully possesses a firearm or other deadly or dangerous weapon in a private vehicle while delivering minor children, students, or school employees to and from school or a school activity; or
4. A person or an employee of the school or District who is authorized to carry a firearm with the permission of the Board of Trustees.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure (other than suspension, expulsion, corporal punishment, or in-school suspension) which is appropriate and in accordance with the policies and rules on student discipline. Teachers may remove students from a classroom for disruptive behavior.

Nondiscrimination

The District will ensure that student discipline is enforced in a nondiscriminatory manner to avoid subjecting similarly situated students to different treatment without a legitimate reason for doing so, or when such a reason is merely a pretext for discrimination. Such discrimination, which the District will endeavor to avoid, includes the following:

1. Adopting discipline rules which treat students differently based on race, color, national origin, ancestry, sex, gender identity, sexual orientation, ethnicity, age, language barrier, religious beliefs, physical or mental handicap or disability, economic or social conditions, or actual or potential marital or parental status, or status as a homeless child;
2. Adopting any rule with the intention of targeting students based on the personal characteristics listed above, rather than for a legitimate purpose, regardless of whether the phrasing of the rule appears neutral with regard to students' personal characteristics;
3. Enforcing an apparently neutral rule more harshly on the basis of a student's personal characteristics; or
4. Discipline of any student when it is motivated by intentional discrimination.

Notification

A summarized version of this policy shall be provided in writing at the beginning of each school year to the school personnel, parents, and students in the District. Information provided to students shall be provided in a manner appropriate to the student's age, grade, and level of academic achievement.

The Board shall review this policy annually.

Faculty and building administrators will be responsible for monitoring the above actions.

Where appropriate, parents shall be contacted as soon as practicable to report any alleged academic dishonesty on the part of students. Teachers are granted authority, with the direction and advice of their principals, to exercise their good judgment in applying a range of academic consequences for violations of this policy. Student and parent appeals of any consequences resulting from violations of this policy should be addressed to building administrator(s). All teachers, beginning especially at the elementary grades, will educate students as to what constitutes academic dishonesty and what is acceptable and unacceptable behavior in our schools. A copy of the Academic Honesty Policy shall be included in student handbooks and shall be distributed to parents via district publications at least annually.

Cheating

Cheating includes, but is not limited to, the following:

2. Cheating on tests through such means as cheat sheets, use of unauthorized electronic devices, and discussion of test information with other students;
3. Obtaining test questions and/or copies of tests outside the classroom test setting;

6. Allowing another student to copy answers during a test situation;
7. Collaborating with other students on an assignment in direct violation of a teacher's instructions;
8. Using books and electronic information in generating an assignment in direct violation of teacher's instructions;
9. Accessing, taking, and benefiting from copies of tests and quizzes previously used or to be used by teachers unless provided as study guides by the teacher; and

10. Submitting work previously presented in this course or in another course.

Corrective Actions and Punishment

All students shall submit to the reasonable rules of the District. Refusal to comply with written rules and regulations established for the governing of the school shall constitute sufficient cause for discipline, suspension, or expulsion.

For the purposes of the District's policies relating to corrective action or punishment:

1. "Temporary Suspension" is the exclusion from school or individual classes for a specific period of up to five school days.

The Superintendent or the Principal of any school may temporarily suspend any student-for disciplinary reasons, including student harassment, intimidation, or bullying, or for other conduct disruptive of good order or of the instructional effectiveness of the school. Prior to suspending any student, the Superintendent or Principal shall grant an informal hearing on the reasons for the suspension and the opportunity to challenge those reasons. Any student for who has been suspended may be readmitted to the school by the Superintendent or principal who suspended them on reasonable conditions prescribed by the Superintendent or principal. The Board of Trustees **shall/may** be notified of any temporary suspensions, the reasons for them, and the response to them.

2. "Extended Temporary Suspension" is the exclusion from school or individual classes by the Superintendent for an additional ten school days. Prior to suspending any student, the Superintendent shall grant an additional informal hearing on the reasons for the extended temporary suspension and the opportunity to challenge those reasons. The student may still be readmitted to the school by the Superintendent who suspended them on reasonable conditions prescribed by the Superintendent. The Board of Trustees shall be notified of any extended temporary suspensions, the reasons for them, and the response to them -
3. "Prolonged Temporary Suspension" is the exclusion from school or individual classes for an additional five school days. Only the Board can extend a temporary suspension for an additional five days and only upon a finding that immediate return to school attendance by the temporarily suspended student would be detrimental to other students' health, welfare, or safety.
4. "Expulsion" is the exclusion from school. Only the Board has the authority to expel or deny enrollment to any students who is an habitual truant, who is incorrigible, whose conduct is such as to be continuously disruptive of school discipline or of the instructional effectiveness of the school, or whose presence is detrimental to the health and safety of other students or who has been expelled from another school district in the State of Idaho or any other state. The District will provide written notice of any student who is expelled or denied enrollment to the prosecuting attorney within five days of the Board's actions.

No student shall be expelled nor denied enrollment without the Board having first given written notice to the parent or guardian of the student stating the grounds for the proposed expulsion or

denial of enrollment and the time and place where such parent or guardian may appear to contest the action of the Board. The notice shall also state the rights of the pupil to be represented by counsel, to produce witnesses and submit evidence on their own behalf, and to cross-examine any adult witnesses who may appear against him. Within a reasonable period of time following such notification, the Board of Trustees shall grant the student and their parents or guardian a full and fair hearing on the proposed expulsion or denial of enrollment. However, the Board shall allow a reasonable period of time between notification and the hearing to allow the pupil and their parents or guardian to prepare their response to the charge.

5. "Discipline" constitutes all forms of corrective action or punishment, including brief exclusions from a class for not more than the remainder of the class period and exclusion from any other type of activity conducted by or for the District. Discipline shall not adversely affect specific academic grade, subject, or graduation requirements, as long as all required work is performed.

Except in extreme cases, students will not be expelled unless other forms of corrective action or punishment have failed, or unless there is good reason to believe that other forms of corrective action or punishment would fail if employed. Suspensions or expulsions shall be used only for instances of serious student misconduct.

No student shall be expelled, suspended, or disciplined in any manner for any act not related to the orderly operation of the school or school-sponsored activities or any other aspect of the educational process.

Discipline of Students with Disabilities

Additional requirements apply when suspending or expelling a student with a disability. The District shall comply with these requirements as outlined in Procedure 3340P.

Corrective Actions and Punishment

It is the intent of the Board to provide each student with those due process rights that are provided by law.

Suspension

In the event the proposed punishment of a student is to include denial of the right of school attendance from any single class or full schedule of classes for at least one day, the following procedure shall be used:

1. Before suspension, the student shall be provided a conference during which the charges will be explained and the student will be given the opportunity to respond to the charges.
2. A pre-suspension conference is not required and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. Any suspension shall be reported immediately to the student's parent/legal guardian. A written notice of suspension shall state the reasons for the suspension, including any school rule which was violated, and a notice to the parent/guardian of the right to a review of the suspension. A copy of the notice shall be sent to the Superintendent.
4. Upon request of the parent/legal guardian, a review of the suspension shall be conducted by the Superintendent. At the review, the student and parent/legal guardian may appear and discuss the suspension with the Superintendent. After the meeting, the Superintendent shall take such action as appropriate. That action is final.
5. Arrangement can be made between the school and student or their family such that graded work missed during the period of suspension can be completed by the student for consideration for the student's grade.
6. The suspension of a student may be extended by the Superintendent or the Board in accordance with State law. Written notice of the extension of a suspension will be provided to the student's parent/legal guardian.

Expulsion

A student may be expelled from school only by the Board, and only after the following due process procedures have been followed:

1. The student and parent/legal guardian shall be provided written notice of the Board hearing to consider the recommendation for expulsion, by registered or certified mail at least five school days before the date scheduled for the hearing. The notice shall include the grounds for the proposed expulsion, the time and place of the hearing, information describing the

process to be used to conduct the hearing, including the rights of the student to be represented by counsel, to produce witnesses and submit documentary evidence and the right to cross-examine adult witnesses who testify against the student.

2. Within the limitation that the hearing must be conducted during the period of suspension, an expulsion hearing may be rescheduled by the parent/legal guardian by submitting a request showing good cause to the Superintendent at least two school days prior to the date of the hearing as originally scheduled. The Superintendent shall determine if the request shows good cause.
3. At the hearing, the student may be represented by counsel, present witnesses and other evidence, and cross-examine adult witnesses. Formal rules of evidence are not binding on the Board.
4. To ensure student privacy, the Board must take action on expulsion in executive session. The student shall not be named in the minutes of the meeting, but a record of the decision will be placed in the student's educational record and in the official records of the Board.

Procedures for Students with Disabilities

Students with disabilities are entitled to all of the due process rights set forth above. In addition, the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 (Section 504) provide additional discipline procedures to a student with disabilities. The District shall comply with the provisions of the IDEA and Section 504 when disciplining students with disabilities.

Suspension of Students with Disabilities

The District may suspend a student with disabilities for up to ten cumulative or consecutive school days in a school year for violation of the code of student conduct and educational services may cease to the same extent educational services cease for students without disabilities. Cumulative suspensions, if over ten school days in a school year, must not constitute a significant change in placement.

A significant change in placement occurs when a student with a disability is removed for more than ten consecutive school days or is subjected to a series of suspensions or removals that constitute a pattern of exclusion because they are more than ten school days in a school year, and because the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another indicate a pattern of exclusion.

For a student with an Individualized Education Program (IEP) who is suspended for more than ten cumulative school days in a school year and a change in placement does not occur, educational services shall be provided to the extent necessary to enable the student to appropriately progress in the general education curriculum and appropriately advance toward achieving the goals set out in the IEP, although in another setting, as determined by school personnel, in consultation with at least one of the student's teachers.

Expulsion of Students with Disabilities

A student with an IEP or 504 plan may not be expelled if the student's violation of the student code of conduct is a manifestation of the student's disability. Any student with an IEP or 504 plan whose violation of the

code of conduct is not a manifestation of the student's disability may be expelled pursuant to expulsion procedures, to the same extent a nondisabled student would be expelled for the same violation

If a student on an IEP is expelled for conduct not a manifestation of the student's disability the student shall continue to receive education services at an alternative setting, consisting of services necessary to enable the student to appropriately progress in the general education curriculum and appropriately advance toward achieving the goals set out in the student's IEP during the period of expulsion. Additionally, the student must receive, as appropriate, a functional behavioral assessment (FBA) and behavior intervention services and modifications designed to address the behavior violation so that it does not recur.

If a student with a 504 plan is expelled for conduct not a manifestation of the student's disability, educational services may cease during the period of expulsion to the same extent educational services cease for students without disabilities.

Additional Provisions

A student on an IEP who has carried a weapon to school or to a school function, or who knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school or a school function may be removed from the student's current placement. Such a student may be placed in an appropriate interim alternative educational setting for no more than 45 school days in accordance with the IDEA.

A student who is not on an IEP and who has violated the code of student conduct may assert any of the protections provided by the IDEA if it is determined the District had knowledge that the student was a child with a disability before the behavior the precipitated the disciplinary action occurred. The District had knowledge if:

1. The parent expressed concern in writing to supervisory or administrative personnel, or to the student's teacher, that the student is in need of special education and related services; or
2. The parent requested an evaluation; or
3. The student's teacher, or other District personnel expressed specific concerns about a pattern of behavior by the student directly to the director of special education or other supervisory personnel.

Use of Restraint, Seclusion, and Aversive Techniques for Students

Conduct of Employees Directed Toward Students

The use by appropriately trained District personnel towards or directed at any student of any form of restraint or seclusion as defined in this policy, is prohibited except in circumstances where proportional restraint or seclusion of a student is necessary when a student's conduct creates a reasonable belief in the perspective of a District employee, that the conduct of the student has placed the student, the employee, or any other individual in imminent danger of serious bodily harm.

The employee or any employee who is a witness to this event shall immediately seek out the assistance of the school's administration or, if such administrator is not available, a certificated or classified employee with special training in seclusion and restraint, if available. Upon the arrival of such individual, the administrator or if no administrator is available, the most senior trained individual on seclusion or restraint shall take control over the situation.

Seclusion or restraint of a student shall immediately be terminated when it is decided that the student is no longer an immediate danger to him or herself or to any other third person or if it is determined that the student is exhibiting extreme distress or at such time that appropriate administrative personnel have taken custody of the child or upon such time that the parent/legal guardian of the child has retaken custody of the child.

Regardless of employee training status, no District personnel shall use any form of aversive technique against any school student.

If a situation occurs where a properly trained District employee must use acts of restraint or seclusion against a school student, the following shall occur:

1. The employee shall immediately report to their building principal, in writing, the following information:
 - A. The date the event occurred;
 - B. The circumstances leading to the event;
 - C. The student involved; and
 - D. Other witnesses or participants to the event.
2. The building principal shall notify the Superintendent's office of the event, providing the Superintendent's office with a copy of the report of events.
3. The building principal shall ascertain if any of the school's video equipment captured the event on a recording. If such event was captured on recording, the principal shall take all

best efforts to maintain a copy of the recording and provide such to the Superintendent's Office for the Superintendent's official records of the event.

4. The Superintendent or designee shall ascertain the special needs status of the student involved in the seclusion or restraint and shall ascertain and maintain documentation as to whether or not such events were consistent with or contraindicated due to the student's psychiatric, medical, or physical condition(s).
5. The Superintendent or designee of the Superintendent shall notify the parent or legal guardian of the subject student of the situation and the event of restraint or seclusion via telephone and provide the parent/legal guardian with the name and telephone contact information of the building principal where the parent may obtain additional information regarding the event.
6. The Superintendent or designee of the Superintendent shall provide the parent/legal guardian of the student with written notice of the event of restraint or seclusion of their student.
7. The Superintendent's office shall maintain documentation as to events of restraint and seclusion and shall prepare any and all necessary reports to legal entities upon whom such reports are or may become due pursuant to State and federal regulations.

Training of School Personnel

As part of the training and preparation of each certificated administrator, certificated teacher, and in-building classified employee of the District, the following shall occur:

1. Training to personnel as to proper situations and events leading to student seclusion and intervention, including possible preventative alternatives to seclusion and restraint, safe physical escort, de-escalation of student crisis situations, and positive behavioral intervention techniques and supports;
2. Training of personnel in crisis/conflict management and emergency situations which may occur in the school setting, including examples and demonstrations of proper activities and techniques and trainers observing employee use of proper activities and techniques in the training setting;
3. Techniques to utilize to limit the possibility of injury to the student, the employee and any other third party in the area;
4. Information as to the school's student seclusion areas in each respective school building to which the employee is assigned;
5. Training in CPR and basic first aid; and
6. Provision of the employee with a copy of this policy.

It is a goal that all new employees are trained in the area of student restraint and seclusion during their first week of employment. However, this may not be possible due to realities of the operation of a school district. If an employee has not yet undergone training and a situation necessitating student restraint or seclusion occurs, and another properly trained employee of the District is present at the event, the properly trained employee shall take the lead in addressing the student crisis.

Designated Locations

Each school building for which students are present must have a building designated location for student seclusion.

It is the responsibility of the building's principal, or designee of the principal, to assure that the building's designated seclusion location is a safe and clean location and that such location has appropriate supervision when any student has been placed into seclusion pursuant to this policy.

Appropriate supervision shall include an adult in the seclusion location which has continuous visual observation of the secluded student.

Definitions

For the purposes of this policy, the following definitions shall apply:

Restraint: The immobilization or reduction of a student's freedom of movement for the purpose of preventing harm to students or others through chemical, manual method, physical, or mechanical device, material, or equipment.

Seclusion: Involuntary confinement in a room or other space during which a student is prevented from leaving or reasonably believes that the he or she can leave or be prevented from leaving through manually, mechanically, or electronically locked doors that, when closed, cannot be opened from the inside; blocking or other physical interference by staff; or coercive measures, such as the threat of restraint, sanctions, or the loss of privileges that the student would otherwise have, used for the purpose of keeping the student from leaving the area of seclusion.

Aversive Technique: Physical, emotional, or mental distress as a method of redirecting or controlling behavior.

Annual Review

On an annual basis, the Superintendent or designee shall review this policy and make a determination as to whether or not any modifications or amendments to this policy are necessary and should be proposed to the District's Board.

In conducting this annual review, such individual shall also review the reports of all events of seclusion or restraint that occurred with the District's students in the past school year. This review will include an analysis as to whether or not the District's personnel are following the

terms of this policy, whether additional training activities are necessary, or if there is any weakness in the implementation of this policy that can be strengthened.

Detention

For minor infractions of school rules or regulations, or for minor misconduct, staff may detain students. Students may be required to attend Saturday detention for up to four hours.

Preceding the assessment of such punishment, the staff member shall inform the student of the nature of the offense charged, and/or the specific conduct that allegedly constitutes the violation. The student shall be afforded an opportunity to explain or justify his or her actions to the staff member. Parents must be notified prior to a student serving after-school detention.

Students detained for corrective action or punishment shall be under the supervision of the staff member or designee.

Student Sex Offenders

Definition

“Student sex offender” shall mean a student who has been adjudicated delinquent or convicted of and placed on probation for a dangerous offense such as sexual conduct with a minor, sexual assault, molestation of a child, or continual sexual abuse of a child.

Notification to School District

The Superintendent of Public Instruction is required by State law to notify a school district or private school regarding the enrollment of a registered juvenile sex offender. The Superintendent of Public Instruction is also required to notify the District or school of the offender’s probationary status or treatment status, if known. The Superintendent of the District or his or her designee shall make contact with the State Department of Education in order to receive regular updates of this information.

Educational Placement

The Superintendent of the District or his or her designee shall determine the appropriate educational placement for student sex offenders except those identified as having a disability. When determining educational placement, the Superintendent or his or her designee shall consider such factors as the safety and health of the student population. The Superintendent or designee shall develop guidelines for managing each student sexual offender in District schools. If the Superintendent or designee determines that, in the best interest of District schools, the student sexual offender should be placed in an alternative educational setting, the District shall pay for the costs associated with this placement.

Convicted juvenile sex offenders shall not attend a school attended by their victims or a victim’s sibling. The offender and his or her parent or guardian shall be responsible for providing transportation or covering other costs related to the offender’s attendance at another school.

An IEP team shall determine the educational placement of a student sexual offender with a disability. The student with a disability is entitled to all the due process procedures available to a student with a disability under the Individuals with Disabilities Education Act. The IEP team shall develop procedures for managing each student sexual offender with a disability that attends a District school. If the IEP team determines that the student sexual offender should be placed in an alternative educational setting, the District shall pay for the costs associated with this placement.

Staff

Staff members are to be alert to and inform school officials of any behavior by a juvenile offender that creates an abnormal risk to members of the school community. However, each circumstance involving a student probationary juvenile offender attending a District school shall be evaluated on a case-by-case basis. Whenever possible without placing other students or adult members of the school community at risk, reasonable efforts should be made to continue the student's education, to provide supportive services, and to avoid any acts of harassment or vigilantism against the student. Although federal and State laws and rules permit the release of information concerning a student registered sex offender, discretion should be exercised when discussing or disseminating information about the student. Whenever possible, the school community should encourage and support timely and appropriate intervention toward the expected outcome that a juvenile offender's conduct will be rectified so the student will commit no further offense and will develop into a responsible, self-controlled adult.

Searches and Seizure

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects.

School Property and Equipment and Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by students, without notice or consent of the student. This applies to student vehicles parked on school property. Building principals may require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle and personal effects therein, when reasonable suspicion of wrongdoing exists.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, and other illegal or dangerous substances or material, including searches conducted through the use of specially trained dogs.

Students

School authorities may search the student and/or the student's personal effects in the student's possession when there is reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objectives and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Whenever practical, searches of a student shall be conducted by a staff member of that student's gender. Any time a search of a student must be conducted, a second adult shall be present. Whenever practical, this second adult shall also be of the student's gender.

Seizure of Property

If a search produces evidence that the student has violated or is violating the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Extracurricular and Co-Curricular Participation Policy

Extracurricular or co-curricular activities are supplements to the regular instructional programs and afford students opportunities for enrichment. However, participation in extracurricular and co-curricular activities is a privilege, not a right, as pursuant to Idaho Code. As representatives of their school and District, students participating in such activities are expected to meet high standards of behavior.

General Definitions for Extracurricular and Co-Curricular Participation Policy

Unless the context otherwise requires, in this policy:

“Extracurricular Activities” means District and/or school authorized activities which take place outside of the regular school day and do not involve class credit, including (but not limited to) athletics, student groups or organizations, and community activities for which high school letters are awarded.

“Co-Curricular Activities” are District and/or school authorized activities held in conjunction with a for-credit class, but taking place outside of the regular school day including, but not limited to, debate, drama, drill team, band, or choir.

“Activity Suspension or Suspension from Extracurricular or Co-Curricular Activities” means that suspended students shall not travel, dress in uniform, or associate or participate with the team or group at its scheduled event(s). Suspended students may be allowed to participate in practices and meetings; however, the principal or designee may deem it necessary for students to be withheld from practices or meetings for the duration of the suspension.

“Controlled Substances” include (but are not limited to) opiates; opium derivatives; hallucinogenic substances, including cocaine; and cannabis and synthetic equivalents or the substances contained in the plant; any material, compound mixture, or preparation with substances having a depressant effect on the central nervous system; and stimulants.

“Drugs” include any alcohol or malt beverage, any inhalant, any tobacco product, any controlled substances, any illegal substance, any abused substance, any look-alike or counterfeit drug, any medication not approved and registered by the school authorities and/or any substance which is intended to alter mood, and/or any substance which is misrepresented and sold or distributed as a restricted or illegal drug.

“Drug Paraphernalia” is defined as any or all equipment, products, and materials of any kind which are used, intended for use, or designed for use in planting, propagating, cultivation, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting,

ingesting, inhaling, or otherwise introducing into the human body a controlled substance as defined in this policy.

“Emergency Activity Suspension” is defined as imposition of an activity suspension by a principal or his or her designee prior to an informal hearing when it is necessary to protect the health and safety of the individual(s) involved and immediate action is appropriate.

“Event” is defined as a match, game, meet, or other competitive event, including regional and/or state tournaments, and competitions. “Event” is also defined as any band or choir performance(s).

“Knowingly Present” shall mean that a student attended a gathering of two or more individuals at which one or more of the attendees other than the student at issue were using or in possession of drug paraphernalia, controlled substances, drugs, pornography, alcohol, or tobacco and the student knew or reasonably should have known that such use or possession was occurring.

“Minor Infraction” shall mean a minor deviation from acceptable behavior or stated student expectations which occurs while the student is engaged in the extracurricular or co-curricular activity and which is not material or substantial. Students will be given notification of the first minor infraction. Students and parents will be given notification of the second minor infraction through a conference and will be informed that a third minor infraction may result in activity suspension.

“Major Infraction” shall mean a material or substantial deviation from acceptable behavior or stated student expectations which occurs while the student is engaged in the extracurricular or co-curricular activity, including but not limited to insubordination toward or non-compliance with the person in charge of the activity, verbal or physical abuse, hazing, fighting, and refusal of a student to identify him or herself to school personnel upon request.

“On any school premises or at any school sponsored activity, regardless of location” includes, but not is limited to buildings, facilities, and grounds on the school campus, school buses, school parking areas; and the location of any school sponsored activity. “On any school premises or at any school sponsored activity, regardless of location” also includes instances in which the conduct occurs off the school premises but impacts a school related activity.

“Scholastic Year” is defined as the period of time beginning with the first day of the fall extracurricular and co-curricular activities season and ending with the last day of school.

“School Days” include only those days when school is in session. _

Eligibility Requirements for Extracurricular and Co-Curricular Participation

To take part in any extracurricular or co-curricular activity, students must maintain a 2.0 GPA. If they do not have a 2.0, they shall be placed on probation for two weeks and can bring up their work and receive a written slip from the teacher or teachers of their passing work. If, after the

probationary period, they do not have a GPA of at least 2.0, they shall not be allowed to take part in any extracurricular or co-curricular activity until they have a GPA of at least 2.0.

Extracurricular or Co-curricular activity Suspension

The Board believes that the safety and welfare of other students may be adversely affected when students who are involved in extracurricular or co-curricular activities commit major infractions or repeated minor infractions at school or during school activities, and/or are involved in criminal conduct or drug use in any location.

At the beginning of each semester, teachers or coaches of co-curricular courses will identify for students how participation in the co-curricular activity impacts their course grade. Co-curricular students who are suspended as a result of this policy will have their co-curricular course grade affected only if the reason for the suspension was related to course work or course expectations. Students who miss a co-curricular activity because of a suspension may ask to do, or be required to do, alternative assignments or special projects to make up the missed activity.

1. **Activity Suspension as a Result of a School Suspension:** A student will be immediately suspended from all extracurricular and co-curricular activities when he or she receives a suspension from school, not including an in-school detention, for any reason.

Consequences:

- A. The activity suspension is automatic, is for the duration of the school suspension, and runs concurrent with the school suspension; and
- B. This type of activity suspension cannot be appealed.

2. **Activity Suspension for Repeated Minor Infractions or a Major Infraction During an Activity:** A student may be suspended from an extracurricular or co-curricular activity when he or she commits a third minor infraction, or a major infraction, while engaged in an extracurricular or co-curricular activity on any school premises or at any school-sponsored activity, regardless of location. The coach or advisor will recommend suspension to the Principal.

Consequences:

- A. The incident will be reviewed pursuant to the Informal Hearing Process at Section 5 of this policy;
- B. If the evidence supports the recommendation, the student may be given an activity suspension for a period of time up to and including the remainder of the season or duration of the activity in that scholastic year for that activity only; and
- C. If the activity suspension exceeds nine school days, the parent/guardian may request an appeal as outlined in the Appeal Process at Section 4 of this policy.

3. **Activity Suspension for Criminal Conduct or Drug Use in Any Location During the Scholastic Year:** A student may be suspended from extracurricular and co-curricular activities when he or she has been arrested or it reasonably appears to the District that he or she has violated criminal law, other than infractions or minor traffic violations; or has been involved with drug paraphernalia, controlled substances, or drugs, including alcohol or tobacco, in any location, either on or off campus, during the scholastic year, in any of the following ways: attempting to secure or purchase; using, or having reasonable suspicion of having used; possession; intending or attempting to sell or distribute; selling or giving away; or being knowingly present when any of the above are used, possessed, or consumed.

Consequences:

A. Knowingly Present

- I. First Violation: When a student violates the “knowingly present” prohibition of this policy for the first time during a scholastic year, the school resource officer (“SRO”), principal, or athletic director:
 - a. Will hold a conference with the student;
 - b. Will notify the student’s parent/guardian and the student of the violation;
 - c. May arrange a conference with the parent/guardian and the student; and
 - d. Will inform the student and parent/guardian of consequences for future violations of the policy.
- II. Second Violation: When a student violates this “knowingly present” prohibition of this policy for the second time during a scholastic year, he or she is subject to the consequences outlined below in part 3.B “Other Violations” of the policy.

B. Other Violations

- I. The incident will be reviewed pursuant to the Informal Hearing Process in Section 5 of this policy. If the evidence supports the accusation, the student may be suspended from all extracurricular and co-curricular events for a period of 21 calendar days.
- II. The suspension will be reduced to a 14 calendar day period if:
 - a. In the case of criminal conduct, the student receives counseling which has been approved by a school counselor; or
 - b. In the case of drug, alcohol, or tobacco use, the student agrees to and completes

- i. A drug/alcohol/tobacco assessment provided by the school (no cost) or the community (the family incurs the cost); and/or
- ii. A drug/alcohol/tobacco education group, provided or facilitated by the school, and/or the community.

III. If no event is scheduled during the period of the suspension, the student will be withheld from the next scheduled event.

IV. If the student notifies school personnel (self-reports) concerning his or her criminal conduct or drug use prior to the personnel's knowledge of the incident(s), the principal or athletic director may reduce the length of the activity suspension.

V. On the occasion of a subsequent infraction during a scholastic year, and if the evidence supports the accusation, the principal or athletic director will bar the student from any form of extracurricular or co-curricular activity for the balance of the scholastic year.

VI. All students who receive an activity suspension for criminal conduct or drug use shall be reported to the Superintendent or designee and, if applicable, to the appropriate law enforcement agency.

VII. The parent/guardian may request an appeal as outlined in the Appeal Process at Section VII of this policy, with either a first or second offense.

4. **Infractions Which Occur in Out-of-School Trips:** During an out-of-school trip, if the authorized person in charge of the activity determines that a student should be sent home early because of criminal conduct, drug use, or a major infraction, the authorized person will notify the parent/guardian, and ask him or her to take charge of the return of the student. The parent/guardian will assume any expenses incurred for the return of the student.
5. **Informal Hearing Process:** Prior to giving an activity suspension to a student, the principal or athletic director shall grant the student an informal hearing on the reasons for the activity suspension and the opportunity to challenge those reasons unless an emergency activity suspension is necessary. If an emergency activity suspension is necessary, an informal hearing will be held as soon as possible after the emergency ceases to exist.
6. **Student travel to or from an extracurricular or co-curricular activity:** Unless other travel arrangements are authorized, students will board the bus at the school designated

as point of origin for the trip and will return to the point of origin in the bus. There will be no stops along the designated route to pick up or discharge students.

The only variation allowed in this regulation is the release of students to parents in a face-to-face situation at the close of the activity before buses begin the return trip. Such release will require a signed, dated note from the parent.

The activity must provide at least one instructor, coach, or adult sponsor for each bus on a special trip. The bus driver will be responsible for the safe operation of the bus. The sponsor will be responsible for supervision of students and enforcement of bus rules. Any adult designated by the principal as a sponsor will have such authority.

Students must follow all school bus rules with this exception: Food and drink not in glass containers will be allowed on the bus with permission of the principal. However, any debris must be cleaned up at the end of the trip and before students leave the bus.

If a student causes a disruption or hazard on the bus, a hearing will be held with the principal, driver, instructor, coach, adult sponsor, parent/guardian, and student. The driver, instructor/coach/adult sponsor, parent/guardian, and the student will have the opportunity to share with the principal their perceptions of the problem. If the principal finds that there has been an infraction of bus rules, he will take the following action:

- A. On the first infraction, the student will be warned that following any further infraction he or she will be declared ineligible for transportation to the extracurricular or co-curricular activities for one event;
- B. On the second infraction during a semester, the student will be declared ineligible for transportation to the extracurricular or co-curricular activity for two events; and
- C. On the third infraction during a semester, the student will be declared ineligible for transportation to the extracurricular or co-curricular activities for the remainder of the semester.

Based on the severity of the problem as it relates to respect and safety for others, the principal may bypass step #1 and/or step #2 above and immediately declare the student ineligible for transportation for two weeks or for the remainder of the semester.

7. Appeal Process:

- A. This appeal process may be used by students and their parent/guardian only in those instances where an activity suspension or transportation to extracurricular or co-curricular activities exceeds nine school days.
- B. The parent/guardian must request an appeal in writing within two school days from the notification of the activity suspension decision.
- C. The Superintendent will appoint a three member panel composed of certificated

staff members who have not been involved in the disciplinary action in question. The hearing panel will notify the student and the parent/guardian of the date, location, and time of the hearing; the student will have an opportunity to present additional evidence regarding the circumstances of the suspension or reasons to reduce the length thereof. The appeal must be scheduled within five school days of the request.

- D. If the panel determines that the evidence reviewed at the appeal supports the suspension, the suspension of the student from extracurricular and/or co-curricular activities shall be continued.
 - E. The student and the parent/guardian will be notified in writing of the panel's findings and determination with respect to the student suspension from extracurricular and/or co-curricular activities within two school days of the panel's decision.
 - F. The panel's determination is final, and is not appealable to the Superintendent or Board of Trustees.
8. Elementary Students: Students in kindergarten through sixth grade who are in violation of this policy may have the length of the activity suspension reduced by the principal or other authorized administrator.

The Administration shall publish the participation rules annually in the activities and student handbooks.

Student and Parent/Legal Guardian Due Process

Notification of determinations regarding student chemical use violations will be provided to the student and parent/guardian by telephone where possible, and also by mail. At this time, the student and parent/guardian shall be notified of the type of discipline that will be administered.

Student Fees, Fines, and Charges/Return of Property

The District shall charge no fee for any course for which academic credit is awarded.

A student may be charged a reasonable fee for any non-credit course or non-curricular activity such as an extracurricular activity, student activity, or membership in a voluntary club or association. The Board may waive the fee in cases of financial hardship.

Additional fees may be charged for “enhanced programming and materials” which are voluntary enrichments to the curriculum beyond what is necessary to meet the learning expectations for a particular grade or course (i.e., students may wish to use a superior product or consumable than that provided by the school, in which case they may be asked to pay the additional cost for the upgrade). This includes online enrollment when solely a matter of preference.

A student shall be responsible for the cost of replacing materials or property lost or damaged due to negligence. If school property in a student’s possession is lost, broken, or otherwise damaged, the student may be charged the lesser of the fair market value of the item at the time or the cost of repair.

The District may require, as condition of graduation or issuance of a diploma or certificate that all lawful indebtedness incurred by a student be satisfied, and/or that all books or other instructional materials, uniforms, athletic equipment, advances on loans or other personal property of the District be returned.

Student Health/Physical Screenings/Examinations

The Board may arrange each year for health services to be provided to all students. At the start of the school year, each District school shall notify parent/guardians of health services offered or made available through the school or by private organizations partnering with the District that offer services on school property or as a part of a school program. Parents/guardians shall be notified of any new health services that become available after the annual notice is sent.

Such services may include, but are not limited to:

1. The development of procedures at each building for the isolation and temporary care of students who become ill during the school day;
2. The consulting services of a qualified specialist for staff, students, and parents;
3. Vision and hearing screening;
4. Scoliosis screening; and
5. Immunization as provided by the Department of Health and Human Services.

Parents/guardians will receive a written notice of any screening result which indicates a condition that might interfere or tend to interfere with a student's progress. Additionally, if a member of the District's staff becomes aware of a change in the student's mental, emotional, or physical health or well-being, the staff member shall address the matter as described in Policy 2425.

In general, the District will not conduct a physical examination of a student without parental consent to do so or by court order, unless the health or safety of the student or others is in question. Further, parents will be notified of the specific or approximate dates during the school year when any non-emergency, invasive physical examination or screening administered by the District is conducted which is:

1. Required as a condition of attendance;
2. Administered by the school and scheduled by the school in advance; and
3. Not necessary to protect the immediate health and safety of the student or other students.

Parents or eligible students will be given the opportunity to opt out of the above-described non-emergency, invasive physical examination or screening.

As used in this policy, the term "invasive physical examination" means any medical examination involving the exposure of private body parts or any act during such examination that includes incision, insertion, or injection into the body, but this does not include a hearing, vision, or scoliosis screening.

Students who wish to participate in certain extracurricular activities may be required to submit to a physical examination to verify their ability to participate in the activity. Students participating in activities governed by the Idaho High School Activities Association will be required to follow the rules of that organization, as well as other applicable District policies, rules, and regulations. All parents will be notified of the requirements of the District’s policy on physical examinations and screening of students, at least annually at the beginning of the school year and within a reasonable period of time after any substantive change in the policy.

Concussion Protocol

Many students within the Wallace School District, No. 393 participate in extra-curricular activities of a nature whereby physical injury may result. Though the District takes care to ensure all extracurricular activities are as safe as practicable, it is not possible to remove all danger from such activities, and the District acknowledges that concussions may result. The purpose of this policy is to prepare a procedure for addressing situations in which student concussions have occurred, or are suspected to have occurred.

This policy only applies to organized athletic league or sport in which any District middle school, junior high school, or high school student participates as a athlete or youth athlete. For the purposes of this policy, athlete or youth athlete means an individual who is 18 years of age or younger and who is a participant in any middle school, junior high school, or high school athletic league or sport. A school athletic league or sport shall not include participation in a physical education class.

Pre-Season Education

The administration and coaches will work to ensure that athletes, youth athletes, parents, volunteers, and assistant coaches are educated about concussions. Prior to being allowed to engage or participate in any school athletic league or sport, as discussed above:

1. Each student desiring to participate in such school athletic league or sport, and the student's parents/guardians, shall be provided notice of or copies of any concussion guidelines or information available from the State Department of Education and the Idaho High School Activities Association, and also this policy.
2. Each student desiring to participate in such school athletic league or sport, and the student's parents or guardians, shall acknowledge that they have been provided the guidelines or information available from the State Department of Education and the Idaho High School Activities Association, as well as this policy, and have had the opportunity to review and have reviewed such information. Further, each student and the student's parents/guardians shall sign an applicable waiver for participating in such school athletic league or sport.
3. The signed waiver and acknowledgment of review of the appropriate information shall be returned to the District.
4. The athlete will be required to obtain a pre-season baseline concussion (or similar) test before being allowed to participate in a school athletic league or team. Such test must be performed at least once annually, and shall be at the student's expense. The District must be provided with written confirmation that the test was completed by a qualified and trained health care professional, though the results of the testing shall not be provided to the District.

Athletes will not be allowed to participate in school athletic leagues or sports until the above steps are accomplished.

Coaches, referees, game officials, game judges, and athletic trainers shall review any concussion guidelines or information available from the State Department of Education and the Idaho High School Activities Association and information upon employment and biannually thereafter.

Protocol on Suspected Concussion

If, during any school athletic league or sport practice, game, or competition, an athlete exhibits signs or symptoms of a concussion, makes any complaint indicative of a possible concussion, or a coach, assistant coach, volunteer coach, or other School District employee has reason to believe a concussion has occurred, such student shall be removed from play or participation in the practice, game, or competition. According to the Centers for Disease Control and Prevention, and for the purposes of this policy, signs observed by coaching staff which could be indicative of a concussion include if the student:

1. Appears dazed or stunned;
2. Is confused about assignment or position;
3. Forgets an instruction;
4. Is unsure of game, score, or opponent;
5. Moves clumsily;
6. Answers questions slowly;
7. Loses consciousness (even briefly);
8. Shows mood, behavior, or personality changes;
9. Can't recall events prior to the hit or fall; or
10. Can't recall events after the hit or fall.

According to the Centers for Disease Control and Prevention, and for the purposes of this policy, symptoms reported by the athlete which could be indicative of a concussion include:

1. Headache or "pressure" in head;
2. Nausea or vomiting;
3. Balance problems or dizziness;
4. Double or blurry vision;
5. Sensitivity to light;Sensitivity to noise;
6. Feeling sluggish, hazy, foggy, or groggy;
7. Concentration or memory problems;
8. Confusion; or
9. Does not "feel right" or is "feeling down".

Coaches should not try to judge the severity of the injury themselves. Health care professionals have a number of methods that they can use to assess the severity of concussions. Coaches should record the following information, if possible, to help health care professionals in assessing the athlete after the injury:

1. Cause of the injury and force of the hit or blow to the head or body;
2. Was there any loss of consciousness (passed out/knocked out) and if so, for how long;

3. Was there any memory loss immediately following the injury;
4. Were there any seizures immediately following the injury; and
5. The number of previous concussions (if any)

School principals shall ensure that a health record is maintained in for each student.

Such authorization must be in writing, and must be provided to the District prior to the student being returned to play. If the authorization is signed by a licensed health care professional trained in the evaluation and management of concussions, such authorization must also be countersigned by the directing physician.

Student Medicines

This policy shall be reviewed annually by the Board of Trustees or their designee.

Assistance in Self Administration of Medicines by Students

Any school employee authorized in writing by the school administrator or school principal:

1. May assist in the self-administration of any drug to a pupil provided:
 - A. The student's parent/guardian has consented in writing; and
 - B. The drug may lawfully be sold over the counter without a prescription.

Such administration must be as described in the written instructions provided in accordance with this policy.

2. May assist in the self-administration of a prescription drug to a pupil in compliance with the written instructions of a licensed health care practitioner, if the pupil's parent/guardian consents in writing.

Administering Medicines to Students

No employee except a qualified health care professional may administer a drug or prescription drug to a pupil under this policy except in an emergency situation.

The Board will permit the administration of medication to students in District schools. Pursuant to the written authorization of the student's licensed health care practitioner, as well as the written authorization of a parent/guardian, the school nurse (who has received direction as to the administration of medication by the student's licensed health care practitioner) may administer medication to any student in the school.

Where administration of medication is a routine activity for a particular student, the subject shall be addressed in a student's health care plan, Section 504 Plan, or IEP as applicable.

Diagnosis and treatment of illness and the prescribing of drugs are never the responsibility of a school employee and should not be practiced by any school personnel.

The absence of a school nurse for the administration of medication shall be addressed on a case-by-case basis considering compliance with Idaho law and the medical needs of the student.

Emergency Administration of Medicines

In case of an anaphylactic reaction or the risk of such reaction, or in the case of a seizure, a school nurse or delegate may administer medication to any student in need thereof on the school grounds, in

the school building, or at a school function, according to the standing order of the chief medical advisor or the student's private physician.

In the absence of a school nurse, the administrator or designated staff member exempt from the nurse licensure requirements who has completed training in administration of medication, may give emergency medication to students. There must be on record a medically diagnosed allergic condition which would require prompt treatment to protect the student from serious harm or death.

Record of the medication administered in an emergency will be entered on an Individual Student Medication Record and filed in the student's cumulative health folder.

Self-Monitoring and Treatment of Diabetes

A student with diabetes, upon written request of the student's parent/guardian and written authorization from the student's treating physician, shall be permitted by the Board to perform blood glucose checks, administer insulin through the insulin delivery system the student uses, treat hypoglycemia and hyperglycemia, and otherwise attend to the care and management of the student's diabetes in the classroom and in any area of the school or school grounds, and to possess on the student's person at all times all necessary supplies and equipment to perform these monitoring and treatment functions.

Epilepsy and Seizure Disorder Plans

Upon written request of the parent/guardian of a student who has epilepsy or another seizure disorder, the District shall authorize implementation of a plan – whether a Section 504 plan, Health or Emergency Care Plan, or Seizure Disorder Plan, as deemed appropriate for each individual student. The plan will include, but is not limited to, the following:

1. Providing notice of the student's condition to all employees who interact with the student;
2. The student's symptoms;
3. Written orders from the student's physician on providing care to the student;
4. Whether the student may fully participate in exercise and sports and, if applicable, any accommodations required;
5. Accommodations for school-related activities, such as school trips and after-school activities;
6. A description of how medical treatment of the condition may affect the student's education, if applicable;
7. The student's understanding of and ability to manage the epilepsy or seizure disorder.
8. How to maintain communication with the student, parents/guardians, the student's healthcare team, and the employee responsible for administering emergency medication; and
9. A list of qualified staff who may administer emergency medication to the student for a seizure.

The plan may be updated annually and as necessary if there is a change in the health status of the student. The plan must also address the notification to the appropriate staff.

All employees who have received notification that a student they interact with has epilepsy or another seizure disorder will be provided with information about how to recognize indicators for epilepsy and seizure disorder, epilepsy, or seizure disorder first aid, when to call for assistance, and a parent/guardian and emergency contact information for that student. The training shall be provided by **MEDICAL PROFESSIONAL SELECTED BY THE SUPERINTENDENT OR DESIGNEE.**

The training may be individualized to each student, if necessary.

Self-Administration of Asthma Medication, Insulin/Diabetic Treatment, Seizure Disorder Medication, or Epinephrine Auto-Injectors

Pursuant to Idaho Code covering the self-administration of asthma medication, the following shall apply to epinephrine auto-injectors, seizure disorder medication, insulin, or blood glucose monitoring supplies if a parent/legal guardian chooses to have their child self-administer medication:

1. The parents/guardians of the pupil shall provide to the Board or designee written authorization for the self-administration of medication.
2. The parents/guardians of the pupil shall provide to the Board or designee written certification from the student's physician that the student has a severe allergic reaction (anaphylaxis), asthma, another potentially life-threatening respiratory illness, epilepsy or another seizure disorder, or diabetes and is capable of, and has been instructed in, the proper method of self-administration of medication. In cases where the pupil has severe or life-threatening allergies, Policy 3515 Food Allergy Management, and any related procedures shall be followed. For students with a severe allergic reaction, asthma, another potentially life-threatening respiratory illness, seizure disorder, or diabetes the student's physician or health care provider-supplied information shall contain:
 - A. The name and purpose of the medicine;
 - B. The prescribed dosage;
 - C. The time(s) at which or the special circumstances under which medication should be administered;
 - D. The length of time for which medication is prescribed;
 - E. The possible side-effects of the medicine;
 - F. Actions to take in the event of an emergency, including if the medication does not improve the child's breathing or allergic reaction;
 - G. Contact information for the physician and parent/guardian; and
 - H. If applicable, a list of the child's asthma or seizure triggers or allergies.
3. The school's administration and appropriate teachers and school personnel shall be informed that the student is self-administering prescribed medication. Such notification shall be done in a manner so as to best preserve the privacy of the student and the student's medical condition to the extent appropriate.

For students with severe or life-threatening allergies this information may be provided in the student's Emergency Care Plan.

Additional Requirements for Self-Administration of Medicines

The Board or Board designee will inform the parents/guardians of the pupil in writing that the District and its employees or agents shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil, absent any negligence by the District, its employees, or its agents, or as a result of providing all relevant information provided pursuant to subdivisions of this subsection with the school nurse, absent any negligence by the District, its employees, or its agents, or in the absence of such nurse, to the school administrator.

The parents/guardians of the pupil shall sign a statement acknowledging that the District shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil and that the parents/guardians shall indemnify and hold harmless the District and its employees or agents against any claims arising out of the self-administration of medication by the pupil.

Students who are authorized to carry their medication, supplies, or equipment necessary for managing their diabetes, allergies, asthma, or epilepsy or other seizure disorder may be retested periodically to ensure they are still capable of correctly using the medication.

As used in this section:

1. "Medication" means:
 - A. An epinephrine auto-injector;
 - B. A metered dose inhaler or a dry powder inhaler;
 - C. Medication for the treatment of epilepsy or another seizure disorder; and
 - D. Insulin, insulin delivery system and/or supplies or equipment necessary for diabetes monitoring and/or treatment

prescribed by a physician and having an individual label;

2. "Self-administration" means a student's use of medication pursuant to prescription or written direction from a physician; and
3. A student who is permitted to self-administer medication pursuant to this section shall be permitted to possess and use the prescribed medication at all times.

Any school employee authorized in writing by the school administrator or principal may assist with self-administration of medications provided that only the following acts are used:

1. Verbal suggestions, prompting, reminding, gesturing, or providing a written guide for self-administering medications;
2. Handing a prefilled, labeled medication holder, labeled unit dose container, syringe, or original marked, labeled container from the pharmacy to the student;
3. Opening the lid of the above container for the student;
4. Guiding the hand of the student to self-administer the medication;
5. Holding a container of fluid and assisting the student in drinking fluid to assist in the swallowing of oral medications; and/or
6. Assisting with removal of a medication from a container for students with a physical disability which prevents independence in the act.

Handling and Storage of Medicines

All medications, including those approved for keeping by students for self-administration, must first be delivered by the parent or other responsible adult to the nurse or employee assisting with the self-administration of medication. The nurse or the employee must:

1. Examine any new medication to ensure that it is properly labeled with dates, the name of the student, the medication name, the dosage, and the physician's name;

2. If administration is necessary, the nurse must develop a medication administration plan for the student before any medication is given by school personnel;
3. Record on the Student's Individual Medication Record the date the medication is delivered and the amount of medication received;
4. Store medication requiring refrigeration at 36F - 46F; and
5. Store prescribed medicinal preparations in a securely locked storage compartment excluding those medications approved for self-administration. Controlled substances will be contained in a separate compartment, secured, and locked at all times.

No more than a 45 school day supply of a medication for a student will be stored at the school. All medications, prescription and nonprescription, will be stored in their original containers. Access to all stored medication will be limited to persons authorized to administer medications or assist in the self-administration of medications. Each school will maintain a current list of those persons authorized by delegation from a licensed nurse to administer medications.

Disposal of Medication

School personnel must either return to the parent/guardian or destroy (with permission of the parent/guardian) any unused, discontinued, or obsolete medication. Medicine which is not repossessed by the parent/guardian within a seven day period of notification by school authorities will be destroyed by the school nurse in the presence of a witness

Naloxone at School

In an effort to ensure the health and safety of students and staff, the District may maintain an opioid antagonist in its schools and may administer the same during emergencies to any person experiencing a shown or suspected opioid overdose.

Definitions

Opioids - heroin, fentanyl, morphine, buprenorphine, codeine, hydromorphone, hydrocodone, oxycodone, methadone, and oxycodone.

Opioid overdose - an acute condition including but not limited to extreme physical illness, decreased level of consciousness, respiratory depression, coma or death resulting from the consumption or use of an opioid, or another substance with which an opioid was combined, or that a layperson would reasonably believe to be an opioid-related drug overdose that requires medical assistance.

Naloxone - an opioid receptor antagonist and antidote for opioid overdose produced in intramuscular, intranasal, or intravenous forms (commonly known by its brand name Narcan).

EMS - Emergency Medical Services personnel who provide pre-hospital emergency medical care; such practitioners provide out-of-hospital care for those with an illness or injury.

Universal precautions - an approach to infection control to treat all human blood and certain human body fluids as if they were known to be infectious for HIV, HBV, and other blood-borne pathogens.

Designating Staff Members

All staff members who are interested in becoming trained as overdose responders are eligible to be trained. Training generally includes recognition of opioid overdose and the use of naloxone by a registered school nurse or a designee from the Panhandle Health District. A list of District employees who successfully complete the training shall be maintained, updated, and kept in the school nurse's office for each entity, and in the District administrative office for all staff throughout the District. Such records will include the names of all designated trainers, the names of the trained overdose responders, the date and location of the training, and the name of the trainer. Appropriate refresher training courses shall occur every two years.

Storage of Naloxone

Naloxone shall be stored in accordance with the manufacturer's instructions to avoid extreme cold, heat, and direct sunlight. The District will store its supply of naloxone either in the school nurse's office or in a secured lockbox near the AED. All properly trained employees shall be made aware

of the exact location of naloxone storage. Naloxone stored near the AED will also be available for use by persons attending school-sponsored events before and after school hours. Instructions on the administration of naloxone shall be readily available with the kit.

The school nurse or personnel designated by the school administrator will ensure that an adequate inventory for a reasonable projected demand of naloxone is available (at least two doses at each location) and that the medication is replaced within its expiration date. A monthly record of this information shall be maintained by the school nurse or other designated personnel and shall include the date and signature of the designated personnel performing the inventory check, the quantity of the supply, and expiration dates. These records shall be submitted annually to the District administrative office.

Administration of Naloxone

If an employee encounters a victim of what appears to be an opioid overdose, the following protocols shall be followed:

1. Maintain universal precautions throughout the overdose incident;
2. Notify 911 of a possible opioid overdose in progress and request an EMS response;
3. Check the victim for breathing, pulse, and responsiveness. (Is the person awake and talking; responsive to verbal stimulation; responsive to painful stimuli; or completely unresponsive?)
4. Check for medic alert tags (around wrist, neck, or ankles; indicating pre-existing medical condition)
5. If unresponsive, administer one dose of naloxone;
6. Provide aid to the individual by performing chest compressions, and requesting an AED; continue until the victim is revived or until EMS arrives;
7. If there is no improvement two to four minutes after administration of naloxone (victim remains unconscious, with no breathing or pulse), and if available, one additional dose of naloxone may be administered;
8. Once used, the intranasal naloxone device is considered biohazardous material and shall be turned over to EMS for proper disposal immediately;
9. Following administration, the building administrator and the school nurse shall be notified of the event and the circumstances surrounding the incident;
10. All overdose reversals will be recorded with the District administrative office and reviewed immediately by the Health Services Coordinator and the Superintendent, in collaboration with Panhandle Health District.

Parental Notification

The District shall take reasonable steps to notify students and their parents/guardians of this protocol once each school year. Such notification shall encourage students to immediately report suspected drug overdoses to school officials to ensure medical assistance can be immediately provided. Reasonable means to notify students and parents/guardians of this protocol shall include, but not be limited to, electronic communication, publication through student handbooks, school newsletters and calendars, the District's official website, and other similar paper or electronic means of communication.

Statutory Immunity

Idaho Code 54-1733B creates civil and criminal immunity for any person administering naloxone in good faith while exercising reasonable care.

Food Allergy Management

Food-allergic reactions can develop into severe or life-threatening reactions and, even with proper treatment, can be fatal. A student's ability to learn may be drastically altered by their fears of a reaction. The Board will endeavor to provide a safe and healthy environment for students with severe and life-threatening food allergies and to address food allergy management in District schools in order to:

1. Reduce the likelihood of severe or potentially life-threatening allergic reactions;
2. Ensure a rapid and effective response in the case of a severe or potentially life-threatening allergic reaction; and
3. To provide students, through necessary accommodations, the opportunity to participate fully in all school programs and activities, including classroom parties and field trips.

Food allergy management will focus on prevention, education, awareness, communication, and emergency response.

District and school administrators, will endeavor to be knowledgeable about and follow all applicable federal laws, including the Americans with Disabilities Act, Section 504, Individuals with Disabilities Education Act, and the Family Educational Rights and Privacy Act, as well as all State laws and District policies and guidelines that may apply to students with allergies. Administrators or their designees may make all of the appropriate allergy forms available to parents, explain the procedures for completing and returning them, and ensure that all forms and health records submitted by parents and physicians are reviewed by the appropriate personnel. Administrators and school nurses may also meet with parents and listen to their needs and concerns.

When a student has been identified as having food allergies verified by a physician, nurse practitioner, or physician assistant, individual written management plans may be used to determine accommodations to be made on a daily basis to prevent and prepare for an allergic reaction. An emergency care plan may be used to provide direction in the event of a life-threatening allergic reaction at school or at a school event. Key staff members may be trained to use emergency medications and may be notified of the location of those medications at school and at any special function.

The Superintendent or designee, in coordination with the school nurse, school nutrition services staff, and other pertinent staff, may develop administrative regulations to implement this policy, including regulations pertaining to all classrooms and instructional areas, school cafeterias, outdoor activity areas, school buses, field trips, and school activities held before or after the school day.

Administrative regulations may address the following components:

1. Identification of students with food allergies and provision of school health services;
2. Development and implementation of individual written management plans;
3. Medication protocols, including methods of storage, access, and administration;
4. Development of a comprehensive and coordinated approach to creating a healthyschool environment;
5. Ensuring that the needs of children with documented allergies are taken into consideration in planning for District programs;
6. Communication and confidentiality;
7. Emergency response;
8. Professional development and training for school personnel;
9. Awareness education for students and parents/guardians;
10. Training for District staff and volunteers; and
11. Policy monitoring and evaluation.

Allergy-related policies, protocols, and plans may be updated annually or after any serious allergic reaction occurs at school or at a school-sponsored activity.

The Superintendent or designee may annually notify students, parents/guardians, staff, and the public about the District's food allergy management policy by publishing such in handbooks and newsletters, on the District's website, through posted notices, or other efficient methods.

Students with allergies will be treated in a way that encourages the student to report possible exposure to allergens and any symptoms of an allergic reaction and to progress toward self-care with his or her food allergy management skills. Allergy-related bullying will not be tolerated.

The parent/guardian is expected to provide an adequate supply of the medication to be dispensed, and to retrieve any unused medication at the end of the school year or at the withdrawal of the student. Medication that is not retrieved by the parent/guardian by the student's last day of attendance during the school year will be disposed of by the District. This disposal will be verified by two people.

Food Allergy Management

Medical Plans of Care

There are several written documents individualized for a particular student with a severe or life-threatening food allergy which may be used to address the student's needs throughout the school day. These may be developed with input from a core team, which may include the student (if appropriate), the student's parent/guardian, the principal or his or her designee, the student's teacher, the school nurse, the cafeteria manager, the counselor, transportation staff, coaches, and other personnel deemed necessary to make decisions about food allergies. Medical plans of care may include the:

Emergency Care Plan: A medical plan of care distributed to all school personnel who have responsibilities for the care of the student. This plan specifically describes how to recognize a food allergy emergency and what to do when signs or symptoms of these conditions are observed. In the event the student reports exposure to a food allergen or shows symptoms of anaphylaxis, he or she may be treated according to the Emergency Care Plan. This plan may be developed from information provided by the student's physician and parent/guardian prior to the student's entry to school, or immediately after the student is diagnosed with a severe allergy. Similar plans may also be developed for staff members with severe allergies.

Individualized Healthcare Plan: A medical plan of care that may be developed by the school nurse in collaboration with the student's health care provider and core team to provide written direction for school personnel to follow in accommodating the student's needs throughout the day. It may address conduct and use of allergen-containing products in the classroom, the cafeteria, the library, at recess, on field trips, during extracurricular activities, and in other environments the student will face during the school day or during District-sponsored activities. The plan may describe functional problem areas, set goals for overcoming problems, list tasks or interventions to meet the goals, and identify staff members responsible for implementing the plan. This plan may be developed prior to the student's entry to school or immediately after the student is diagnosed with a severe or life-threatening allergy. Input from the core team may be sought before changes are made to this plan. Similar plans may also be developed for staff members with severe allergies.

If a student's severe or life-threatening allergy is determined to be a disability, it may also be addressed in a Section 504 Service Agreement and/or in the Related Services Component of their Individualized Education Program (IEP).

A complete set of a student's current medical plans of care related to food allergies may be maintained by the school nurse. The Superintendent or building principal may also require that copies of the Emergency Care Plan be kept in other places where they may be needed.

The school nurse may provide information or copies of the different components of a student's medical plans of care to appropriate personnel, including teachers, cafeteria staff, District staff supervising school-sponsored extracurricular activities, and others who may be involved in the implementation of the medical plans of care. Such information may be provided to substitute teachers along with contact information for the school nurse.

Students with Disabling Special Dietary Needs

When a student's food allergy is identified, evaluated, and determined to be a disabling condition, the District shall make appropriate accommodations, substitutions, or modifications for such students in accordance with the applicable policies relating to students with disabilities.

In such cases, the student may be required to have a written medical statement signed by a licensed physician to be included with the student's Individualized Healthcare Plan. The medical statement may identify:

1. The student's special dietary disability;
2. An explanation of why the disability restricts the student's diet;
3. The major life activity(ies) affected by the disability;
4. The food(s) to be omitted from the student's diet; and
5. The food or choice of foods that must be provided as the substitute.

Students with Non-Disabling Special Dietary Needs

The District may, at its discretion, make appropriate accommodations, substitutions, or modifications for students who have a special dietary need but who do not meet the definition of disability, such as a food intolerance or allergy that does not cause a reaction that meets the definition of a disability. The decision to accommodate such a student shall be made on a case-by-case basis.

Students who fall under this provision may be required to have a written medical statement signed by a physician, physician assistant, or certified registered nurse practitioner identifying the following:

1. The medical or other special dietary condition which restricts the student's diet;
2. The food(s) to be omitted from the student's diet; and
3. The food or choice of foods to be substituted.

Allergy In-service Training

The District may provide periodic training to teachers, aides, volunteers, substitutes, food service personnel, transportation personnel, and others as needed on any of the following topics:

1. Basic information such as signs, symptoms, and risks associated with food allergy and anaphylaxis;
2. Awareness of food and non-food items that might present risk;

3. Strategies that reduce risk of exposure to identified allergens throughout the school day;
4. Designation and maintenance of allergen-free zones;
5. Basic food handling procedures, including hand washing, avoiding cross-contamination, and cleaning surfaces;
6. District and school level policies, procedures, and plans for managing students with chronic health conditions including allergies;
7. How to respond in the case of a possible severe or life-threatening allergic reaction;
8. Local emergency medical service procedures;
9. Proper storage and administration of epinephrine auto-injectors, antihistamines, and other medications;
10. Strategies to manage student privacy and confidentiality while maintaining an inclusive class environment; and
11. How to deal with food allergy-related bullying.

Epinephrine and Other Medications

Students with severe allergies may be permitted to carry an epinephrine auto-injector with them, in accordance with Policy 3510. A student's epinephrine may also be kept in other locations where it would be easily accessible for the student, such as in their classroom, with a District employee supervising lunch or recess periods, or on their bus. Locations for storage will follow the manufacturer's guidelines. Staff may be notified of the locations of epinephrine in the school. The Superintendent or building principal may require that whenever students are present at a school, at least one person who has been trained to administer an epinephrine auto-injector also be present.

Any student who receives epinephrine at school must be immediately transported to a hospital for evaluation by a licensed healthcare provider and further observation or immediately released into the care and custody of their parent(s)/guardian(s).

The Cafeteria

The Superintendent or building principal may require that cafeteria staff take any of the following steps to accommodate students with severe or life-threatening allergies:

1. Prohibit specific foods;
2. Clean and sanitize kitchen surfaces and equipment to avoid cross contamination with potential food allergens;
3. Wear non-latex gloves, and change or wash gloved hands during extended use to avoid cross-contamination with potential food allergens;
4. Have photos of students with severe or life-threatening allergies placed in the kitchen, only for kitchen staff to view;
5. Make appropriate substitutions or modifications to meals served to students with serious allergies;
6. Be prepared to make food ingredient lists used in food production and service available. Maintain food labels from each food served to a child with allergies for at least 24 hours following service in case the student has a reaction from a food eaten in the cafeteria; and

7. With parental approval, set up cafeteria procedures such as entering a student's allergy into computerized database. Such information would remain confidential and be shared on a need-to-know basis in compliance with federal privacy regulations.

Allergies and the Classroom

The school nurse, teacher, and parents of any children with severe or life-threatening allergies, may set a classroom protocol regarding the management of food in the classroom. This protocol will be communicated by the teacher to the students and parents of the affected class, and may include any of the following accommodations:

1. Parents of students with severe or life-threatening allergies may provide allergen-free snacks to be kept in the classroom and given to the student when treats are served in the classroom;
2. Students, parents, and staff may be prohibited from bringing homemade treats or specified foods for in-class consumption. Only commercially prepared treats with intact ingredient labels may be allowed in class;
3. Teachers may notify parents in writing of any school related activity that requires the use of food in advance of the project or activity;
4. Use of food for instructional lessons may be limited or eliminated;
5. Use of food or candy as part of a school project related to the curriculum may be prohibited; and
6. Allergen-containing foods may be prohibited in classrooms during after-school activities when that classroom will be used by a student with a known food allergy during the school day.

The Superintendent or building principal may require teachers to take any of the following additional steps to accommodate students with severe or life-threatening allergies:

1. Post signs indicating rules for preventing exposure to life-threatening allergens in the classroom and ensure that these rules are enforced;
2. Eliminate the use of food allergens in the allergic student's educational tools, school-provided supplies, and incentives;
3. Participate in planning students' re-entry into school after an anaphylactic reaction; and
4. Send notices to parents of students in the classroom that the classroom is a free zone with regard to a specified food.

Teachers may be required to develop and implement age-appropriate lessons on allergies for such subjects as health, family and consumer sciences, biology, and physical education. Such lessons may emphasize:

1. Support for, and inclusion of, classmates with chronic health conditions, such as food allergies;
2. Bullying prevention, including reporting harassment, hazing, and bullying to school personnel;
3. Knowledge of potential allergens and the symptoms of a potentially life-threatening reaction;
4. Differences between life-threatening allergies and food intolerances;
5. Appropriate response to emergency situations such as life-threatening allergic reactions;
6. Developmentally-appropriate self-management of food allergies; and
7. The importance of following District health policies and guidelines, such as those regarding hand washing, food-sharing, and allergen safe zones.

Transportation

The school bus drivers may be informed when they are transporting a student with a life-threatening allergy. The Superintendent or building principal may require bus drivers to take any of the following additional steps to accommodate students with severe or life-threatening allergies:

1. Strictly enforce a policy of no eating on the bus. Students with medically documented needs may be permitted to eat allergen-safe foods on the bus;
2. Refrain from handing out food treats; and
3. Assign seats to students, and/or seat students with life-threatening allergies immediately behind and to the right side of the busdriver.

The Superintendent or building principal may require the transportation department to send letters to parents of all students who use District transportation informing them that at least one student at the school has a life-threatening allergy, requesting that their child wash their face and hands after breakfast and before boarding the bus, and informing them of rules prohibiting students from eating on the bus.

Field Trips

The Superintendent or building principal may require that those organizing field trips take any of the following steps to accommodate students with severe or life-threatening allergies:

1. Take into consideration the potential for exposure to the student's food allergens when determining sites for field trips, and consider ways of avoiding allergen exposure during the field trip;
2. Notify parents of students with severe or life-threatening allergies and the school nurse as soon as possible of any upcoming field trip;
3. Allow parents of students with severe or life-threatening allergies to accompany the student on field trips;
4. Store meals for students with food allergies separately to minimize cross-contamination;
5. Ensure that students do not eat on the bus;
6. Prepare ways for participants to wash hands before and after eating, such as with hand

- wipes;
7. Appoint a District employee attending the field trip to implement any student's Emergency Care Plan if necessary, and bring all supplies necessary to do so; and
 8. Note the location of closest medical facility ahead of time.

Other Accommodations

The Superintendent or building principal or the designee may require that any of following steps be implemented to accommodate students with severe or life-threatening allergies:

1. Prohibit food and utensil trading and sharing, and post signs in schools informing students that they are expected to neither trade nor share food or utensils;
2. Designate particular tables in the cafeteria, particular classrooms, areas within classrooms, or other areas as allergen-free zones. These zones may be designated by a universal symbol, and be cleaned with a separate wash bucket and cloth with District-approved cleaning agents;
3. Post signs at points of entry to each school and/or on the school or District website advising that there are students with life-threatening allergies. Such signs may not disclose the identity of the student with the food allergy unless his or her parent has consented to that disclosure;
4. Have letters sent to all parents of children attending school with at least one student known to have a life-threatening allergy, notifying them of the severity of the health threat, signs and symptoms to be aware of, and a concise list of foods and materials of concern and school policy regarding them. This will be done in a way that protects the confidentiality of the student with the life-threatening allergy. If other students or parents may be able to guess or deduce which student has the life-threatening allergy, approval of the student's parent may be sought before the letter is sent;
5. Hold Emergency Care Plan drills to assure the efficiency and effectiveness of such plans;
6. Ensure that there is at least one functioning emergency communication device, such as a walkie-talkie or cell phone, available at all times in classrooms, on field trips, at recess, during physical education class, at school-sponsored extracurricular activities, and/or on school buses;
7. Develop a cleaning protocol to ensure that the threat of allergens is minimized;
8. Prohibit the sale of particular food items in the school; and
9. Request that students refrain from bringing foods to which a student is known to have a severe or life-threatening allergy to school, and request that parents refrain from sending such foods to school. A Superintendent or building principal may completely prohibit particular food items from the school or school grounds when it is felt that the benefits of doing so would outweigh the difficulty of enforcing such a ban and the controversy such a measure is likely to provoke.

Confidentiality

The District will endeavor to maintain the confidentiality of students with food allergies, to the extent appropriate and as requested by the student's parents/guardians. District staff shall maintain the confidentiality of student records as required by law, regulations, and Board policy.

Expectations of Students with Severe or Life-Threatening Allergies and their Parents

The Board expects students with life-threatening allergies to do the following, as age appropriate:

1. Take as much responsibility as possible for avoiding allergens, including refraining from sharing or trading of foods or eating utensils with others, refraining from eating anything with unknown ingredients or a known allergen; avoid putting anything in mouth such as writing utensils, fingers, or other foreign objects;
2. Use proper hand washing before and after eating and throughout the school day;
3. Learn to recognize personal symptoms;
4. Notify an adult immediately if they eat something they believe may contain a food to which they are allergic;
5. Notify an adult if they are being bullied, harassed, hazed, or threatened by other students as it relates to their food allergy;
6. Carry their epinephrine auto-injector with them at all times if they are permitted to do so, or know where the auto-injector is kept and who has access to it;
7. Know how to get to the nurse's office;
8. Develop an awareness of their environment and their allergen-free zones; and
9. Know their overall Individual Healthcare Plan and understand the responsibilities of the plan.

The Board encourages parents of students with serious allergies to do the following:

1. As age appropriate, teach their child to:
 - A. Not share snacks, lunches, drinks, or utensils;
 - B. Know which foods are and are not safe for them to eat, and to read labels, and understand ingredient safety;
 - C. Understand the importance of hand washing before and after eating;
 - D. Recognize the first symptoms of an allergic or anaphylactic reaction;
 - E. Communicate with school staff as soon as he or she feels a reaction is starting;

- F. Understand rules and expectations about bullying related to food allergies, and report such teasing and/or bullying;
 - G. Carry his or her own epinephrine auto-injector when appropriate, or know where the epinephrine auto-injector is kept and who has access to it;
 - H. Administer his or her own epinephrine auto-injector and be able to train others in its use; and
 - I. Develop awareness of their environments, including allergy-controlled zones.
2. Inform the school nurse of their child's allergies prior to the opening of school, or as soon as possible after diagnosis. All food allergies must be verified by documentation from physician, nurse practitioner, or physician assistant;
 3. Work with the core team collaboratively to develop the Individualized Healthcare Plan, and provide an Emergency Care Plan completed by the student's physician;
 4. Complete and submit all requested and required forms. Provide the school with current cell phone, pager, and other emergency contact numbers;
 5. Allow District health personnel to consult with the student's physician or healthcare provider, and provide current contact information for the healthcare provider;
 6. Provide the school nurse with up-to-date emergency medications so they can be placed in all required locations for the current school year. Parents may be requested to provide two or more epinephrine auto-injectors. Medications must comply with the District medication policy of proper labeling and expiration;
 7. Consider providing a medical alert bracelet for their child;
 8. If requested, provide "safe snacks" for their student's classroom in case of an unplanned special event. Parents may also be asked to provide a nonperishable safe lunch to be kept at school in case the student forgets to bring lunch;
 9. Review policies, procedures, and plans with the core team annually and following any allergic reaction at school; and
 10. Provide the school nurse with at least annual updates on their child's allergy status. Inform the school of any changes in the child's life-threatening allergy status and provide a physician's statement if the student no longer has food allergies.

Contagious or Infectious Diseases

The District is required to provide educational services to all school-age children who reside within its boundaries. Attendance at school may be denied to any child diagnosed as having a contagious or infectious disease that could make the child's attendance harmful to the welfare of other students. In the instance of diseases causing suppressed immunity, attendance may be denied to a child with suppressed immunity in order to protect the welfare of the child with suppressed immunity when others in the school have an infectious disease which, although not normally life threatening, could be life threatening to the child with suppressed immunity.

The Board recognizes that communicable diseases that may afflict students range from common childhood diseases, acute and short-term in nature, to chronic, life-threatening diseases. The District shall rely on the advice of the public health and medical communities in assessing the risk of transmission of various communicable diseases to determine how best to protect the health of both students and staff.

Management of common communicable diseases will be in accordance with Idaho Department of Health and Welfare guidelines and communicable diseases control rules. A student who exhibits symptoms of a communicable disease that is readily transmitted in the school setting may be temporarily excluded from school attendance.

Students who complain of illness at school may be referred to the school nurse or other responsible person designated by the Board and may be sent home as soon as the parent or person designated on the student's emergency medical authorization form has been notified.

The District reserves the right to require a statement from the student's primary care provider authorizing the student's return to school. In all proceedings related to this policy, the District shall respect the student's right to privacy.

When information is received by a staff member or volunteer that a student is afflicted with a serious communicable disease, the staff member or volunteer shall promptly notify the school nurse or other responsible person designated by the Board to determine appropriate measures to protect student and staff health and safety. The school nurse or other responsible person designated by the Board, after consultation with and on the advice of public health officials, shall determine which additional staff members, if any, have need to know of the affected student's condition.

Only those with direct responsibility for the care of the student or for determining appropriate educational accommodation will be informed of the specific nature of the condition if it is determined there is a need for such individuals to know this information.

Parents of other children attending the school may be notified that their child has been exposed to a communicable disease without identifying the particular student who has the disease.

Pediculosis (Head Lice)

Pediculosis is the infestation of the hair, skin, or pubic area with adult lice, larvae, or nits (eggs).

The psychological, social, and economic impact of head lice infestations can create a problem in the community. Every attempt will be made to educate students and parents on the prevention and eradication of head lice before and after an infestation is detected.

To avoid embarrassment and to contain the infestation, whole classrooms will be checked for head lice upon the report of possible infestation by a classroom teacher. The principal, his or her designee, school nurse, or another qualified professional will examine the child in question and their classmates. Siblings of students found with lice and their classmates will also be checked if there is the suspicion that infestation may exist. Due to the possible and very probable epidemic infestation of head lice in the school environment, anyone exhibiting head lice will be isolated immediately.

Any student found to have head lice will be removed from the classroom with their belongings. The parent/guardian and/or listed emergency contact will be contacted so they can pick up the student and begin treatment immediately. A student suspected of infestation will not ride the bus. The student will be held in the front office or the nurse's office until the parent/guardian arrives in order to avoid further infestation.

Parents/guardians should be provided with printed educational information on head lice treatment. The educational material should include details explaining the problem and list the procedures for treatment and requirements for reentering school.

The student may return to school after being successfully treated so that no live lice or eggs are detected by the school nurse or a designated school official. The student's parent/guardian must accompany the student upon returning to school and remain present during the recheck. With the presence of nits or lice at the time of recheck, the student will continue to be excluded from school.

In the interest of the health and welfare of students enrolled in the District, no student will be permitted to attend classes if they are infested with head lice or the eggs of head lice.

All other children in the classroom where lice or nits have been reported will be checked and given a letter to take home explaining the situation and the need for parents to inspect their children carefully. Any child who is suspected of having lice will be treated with the utmost discretion.

Immunization Certification

The immunization record must be signed by a physician, physician's representative, or another licensed health care professional including an osteopath, nurse practitioner, physician's assistant, licensed professional nurse, registered nurse, and pharmacist stating the type, number, and dates of the immunizations received.

Intended Immunization Schedule

The schedule of intended immunizations statement must be provided by the parent or legal guardian of a child who is in the process of receiving or has been scheduled to receive the required immunizations. A form is provided by the Department of Health and Welfare or a similar one may be used provided it includes the following information:

Exemptions

1. Any child who submits a certificate signed by a physician licensed by the State Board of Medicine stating the physical condition of the child is such that all or any of the required immunization would endanger the life or health of the child is exempt from the immunization requirements;

A child exempted under one of the above requirements may be excluded by the District in the event of a disease outbreak.

Communication of Immunization Requirements and Exemptions

In accordance with Idaho law, all communication to parents/guardians regarding immunization requirements shall also describe the exemptions and make reference to 39-4802, Idaho Code. For purposes of this section, 'communication' includes letters, phone calls, registration packets, etc.

Suicide

While the District has a responsibility to notify a student's parent/guardian regarding any known changes in the student's mental, physical, or emotional health or well-being, neither a school district nor a teacher has a duty to warn of the suicidal tendencies of a student absent the teacher's or school district's knowledge of direct evidence of such suicidal tendencies. The Board directs the Superintendent or their designee to draft and implement procedures relating to:

1. Suicide prevention;
2. Suicide intervention; and
3. Suicide postvention.

"Postvention" shall mean counseling or other social care given to students after another student's suicide or attempted suicide.

These procedures may include, but are not limited to, the following measures:

1. Prevention:
 - A. Offering and providing help and assistance, including early identification;
 - B. Support and/or counseling by school support personnel for low-risk students;
 - C. Referral to appropriate sources outside the school for high and moderate-risk students;
 - D. The designation of school level suicide prevention coordinator(s) by the Superintendent to be responsible for planning and coordinating the implementation of procedures addressing suicide.
 - E. Encouraging staff to report to the coordinator students they believe may be at elevated risk of suicide.
 - F. Education of students on suicide prevention through age-appropriate curriculum.
 - G. Small group suicide prevention programming.
 - H. Offering resources to parents/guardians on suicide prevention.
2. Intervention:
 - A. Contacting the parents/guardians of students identified as at imminent risk of suicide.
 - B. Contacting emergency services to assist a student who is at imminent risk of suicide.
 - C. Providing first aid until emergency personnel arrive, as appropriate.
 - D. Moving other students away from the immediate area of any suicide attempt on District property or at a District event.
3. Postvention:
 - A. After care support by the school for faculty, staff, and students after a sudden death has occurred.
 - B. The development of a plan for responding to a death by suicide that has a significant impact on the school community.

Emergency Treatment

The Board recognizes that schools are responsible for providing first aid or emergency treatment in case of sudden illness or injury to a student, but that further medical attention is the responsibility of the parent or guardian.

Each parent or guardian must provide an emergency telephone number where the parent or designee of the parent can be reached.

When a student is injured, staff shall provide immediate care and attention until relieved by a superior, a nurse, or a doctor. The principal or designated staff member should immediately contact the parent so that the parent can arrange for care or treatment of the injured student.

If a child develops symptoms of illness while at school, the responsible school officials shall do the following:

1. Isolate the child immediately from other children in a room or area segregated for that purpose;
2. Inform the parent or guardian as soon as possible about the illness and request that he or she pick up the child; and
3. Report each case of suspected communicable disease the same day by telephone to the local health authority, or as soon as possible thereafter if no contact can be made the same day.

In the event that the parent cannot be reached and in the judgment of the principal or person in charge immediate medical attention is required, the injured student may be taken directly to the hospital and treated by the physician on call. When the parent is located, he or she may elect to continue the treatment or make other arrangements.

Removal of Student During School Hours

The Board recognizes its responsibility for the proper care of students during school hours. Students shall not be removed from school grounds, any school building, or school function during school hours except by a person duly authorized in accordance with District procedures. Before a student is removed or excused, the person seeking to remove the student must present, to the satisfaction of the principal, evidence of his or her proper authority to remove the student. A teacher should not excuse a student from class to confer with anyone unless the request is approved by the principal. The Superintendent is directed to establish procedures for the removal of a student during school hours.

Removal of Student During School Day

Schools must exercise a high order of responsibility for the care of students while in school. The removal of a student during the school day may be authorized in accordance with the following procedures:

1. Law enforcement officers, upon proper identification, may remove a student from school as provided in Policy 4410P;
2. Any other agencies must have a written administrative or court order directing the District to give custody to them. Proper identification is required before the student shall be released;
3. A student shall be released to the custodial parent. When in doubt as to custodial rights, school enrollment records must be relied upon, as the parents/guardians have the burden of furnishing schools with accurate, up-to-date information;
4. The school should always check with the custodial parent before releasing the student to a non-custodial parent;
5. Prior written authorization from the custodial parent or guardian is required before releasing a student into someone else's custody, unless an emergency situation justifies a waiver; and
6. Police should be called if a visitor becomes disruptive or abusive.

Video Surveillance

The Board believes that the use of video taping equipment can make positive contributions to the health, safety, and welfare of all students, staff, and visitors to the District, as well as safeguard District facilities and equipment. Having carefully weighed and balanced the rights of privacy of students, staff, and visitors against the District's goal of ensuring the safety of every student, employee, and visitor while they are on District property and also the goal of safeguarding District facilities and equipment, the Board hereby authorizes the use of video cameras on District property as follows:

Video surveillance shall be used to promote order, to maintain the security, health, welfare, and safety of all staff, students, and visitors on District property, and to safeguard District facilities and equipment.

The District shall notify staff and students through student/parent and staff handbooks that video surveillance may occur on District property. Additionally, notices shall be posted on or about School District property alerting those on District property that the District is utilizing video surveillance.

Review of any video recordings is restricted to those who have a security, safety, or a legitimate educational interest.

Video recordings may become a part of a student's educational record or a staff member's personnel record. The District shall comply with all applicable State and federal laws related to record maintenance and retention. Video tapes that are records of student and/or staff behavior shall be secured in a locked file until the tapes are either reused or erased. The video tape shall be considered a student and/or staff record and shall be subject to current law for the release of student record information and/or personnel record.

Video surveillance may be used for investigations of criminal activity by appropriate law enforcement agencies and may be used by the District to investigate violations of District policy.

Students or staff in violation of Board policies, administrative regulations, building rules, or law shall be subject to appropriate disciplinary action. Others may be referred to law enforcement agencies.

Video cameras may be installed in public locations as deemed appropriate by the Superintendent, and shall not be installed in areas with a reasonable expectation of privacy.

Audio shall not be part of the video recordings made, reviewed, or stored by the District.

Termination of Driving Privileges

In the event an enrolled student fails to meet the State enrollment and attendance requirements, the school principal or designee will provide written notification on a form provided by the Idaho Department of Education to the student and parent/guardian of the District's intent to request that the Idaho Department of Transportation suspend the student's driving privileges, because the student has dropped out of school (and has not otherwise enrolled in another public/private school, home schooling educational program, course of preparation for the GED, a college or university, a post-secondary vocational program, or job training program or other educational activity approved by the Board) or has failed to comply with the enrollment and attendance requirements found in Idaho Code.

The student and parent/guardian will have 15 calendar days from the date of receipt of the above-mentioned notice to request a hearing before the school principal or designee for the purpose of reviewing the pending suspension of driving privileges. The requested hearing will be held within 30 calendar days after the receipt of the request.

The school principal or designee may grant a hardship waiver of the requirements of this policy for any student for whom a personal or family hardship requires that the student have a driver's license for his or her own or family member's employment or medical care. The principal or designee will take into account the recommendations of teachers, other school officials, guidance counselors, or academic advisors prior to granting a waiver. Such a hardship waiver must be requested by the student or the student's parent/guardian at the initial hearing.

If the principal or designee, denies a hardship waiver, that decision may be appealed to the Board within seven calendar days of receipt of the principal's or designee's decision. The hearing before the Board will be held at a mutually convenient time. The Board will have the authority to uphold the decision of the principal or designee, or reverse the decision and grant the hardship waiver.

School student records are confidential, and information from them shall not be released other than as provided by law. Federal and state laws grant certain rights to parents and students, including the right to inspect, copy, and challenge school records. The information contained in school student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but parents shall have the right to object to the release of information regarding their child. Military recruiters and institutions of higher education may request and receive the names, addresses, and telephone numbers of all high school students, unless the parent(s) directs the school not to release this information.

The Superintendent shall implement this policy consistent with State and federal law and may develop administrative procedures to assure compliance with State and federal law. The Superintendent or a designee shall inform staff members of this policy, and shall inform students and their parents of it, as well as their rights regarding student school records.

The District shall maintain a record for each student that shall contain information, including but not limited to the items listed below, if the District has created or received such information. Items 1 through 7 must be included.

1. Birth certificate;
2. Proof of residency;
3. Unique student identifier;
4. Basic identifying information;
5. Academic transcripts;
6. Immunization records;
7. Attendance records;
8. Intelligence and aptitude scores;
9. Psychological reports;
10. Achievement test results;
11. Participation in extracurricular activities;
12. Honors and awards;
13. Special education records (maintained pursuant to IDEA requirements);
14. Verified reports or information from non-educational persons;
15. Verified information of clear relevance to the student's education;
16. Log pertaining to release of student's record; and
17. Disciplinary information.

The information described above shall be maintained in student records permanently. Other content of the student record shall be maintained for a period of seven (7) years after a student graduates or permanently leaves the District, except for those records for which longer retention is required.

Special Education Records shall be maintained in accordance with then-applicable special education laws, as such may change from time to time.

The District's public records custodian, in conjunction with the Superintendent and their designee shall be responsible for the maintenance, retention, or destruction of a student's records, in accordance with the District's procedure established by the Superintendent.

The unique student identifier is a number issued and assigned by the State Department of Education to each student currently enrolled or who will be enrolled. The unique student identifier shall follow the student from each school district or local educational agency (LEA) or upon return to a school district or LEA after an absence no matter the length of absence.

Access to Student Records

The District shall grant access to student records as follows:

1. The District or any District employee shall not release, disclose, or grant access to information found in any student record except under the conditions set forth in this policy and consistent with the provisions of State and federal law.
2. The parents of a student under 18 years of age shall be entitled to inspect and copy information in the child's school records. Such requests shall be made in writing and directed to the records custodian. Access to the records shall be granted within five school days of the District's receipt of such a request unless state or federal law specifically provides another length of time.

Where the parents are divorced or separated, both shall be permitted to inspect and copy the student's school records unless a court order indicates otherwise. The District shall send copies of the following to both parents at either one's request, unless a court order indicates otherwise or parental rights have been terminated by court order or parental agreement:

- A. Academic progress reports or records;
- B. Health reports;
- C. Notices of parent-teacher conferences;
- D. School calendars distributed to parents/guardians; and
- E. Notices about open houses and other major school events, including pupil-parent interaction.

When the student reaches 18 years of age, graduates from high school, marries, enters military service, or becomes legally emancipated all rights and privileges accorded to the parent become exclusively those of the student. The parents of dependent students, as defined by the Internal Revenue Service (i.e. student termed dependent for income tax purposes) may have access to student educational records if the parents establish, via either a copy of the applicable tax forms and/or a Parental Affidavit for Educational Records attesting to the student's dependent status.

Access shall not be granted to the parent or the student to confidential letters and recommendations concerning the admission to a post-secondary educational institution, applications for employment, or the receipt of an honor or award, if the student has waived their right of access, after being advised of their right to obtain the names of all persons making such confidential letters or statements.

3. The District may grant access to, or release information from, student records to employees or officials of the District or the Idaho State Board of Education, provided a current, demonstrable, educational or administrative need is shown, without parental consent or notification. Access in such cases shall be limited to the satisfaction of that need.

4. For purposes of an audit or evaluation by a federal or State-supported education program, and to comply with federal requirements related to such a program. The receiving entity must be a State or educational authority or another entity allowed by the Family Educational Rights and Privacy Act (FERPA), or must be an authorized representative of such an entity.

For each new audit, evaluation, or enforcement effort, the District shall enter into a written agreement when designating anyone other than its employee as its authorized representative. The District shall be responsible for using reasonable methods to ensure, to the greatest extent practicable, that the authorized representative:

- A. Uses the personal information only for the authorized purpose;
 - B. Protects the personal information from further unauthorized disclosures or other uses; and
 - C. Destroys the personal information when it is no longer needed for the authorized purpose. Such destruction shall be affected by any specified time period set forth in the written agreement.
5. The District may grant access to, or release information from, student records without parental consent or notification to any person, for the purpose of research, statistical reporting, or planning, provided that no student or parent can be identified from the information released, and the person to whom the information is released signs an affidavit agreeing to comply with all applicable statutes and rules pertaining to school student records. Any such release in this regard shall be consistent with Idaho Code and Policy 3575 relating to the limitations on the release of student data.
 6. The District shall grant access to, or release information from, a student's records pursuant to a court order or appropriate subpoena. In most instances, the parent/qualified student shall be given prompt written notice of such order/subpoena, a general statement of the documents which will be released, and the proposed date of release of the documentation requested. However, there are very limited circumstances under the USA Patriot Act where schools are required to disclose information without notice to the parent or student to the Attorney General of the United States upon an *ex parte* order in connection with the investigation or prosecution of terrorism crimes or other such specified situations when the court order prohibits disclosure (i.e. Federal Grand Jury Subpoena or Law Enforcement Subpoena wherein such order indicates disclosure is not permitted).
 7. The District shall grant access to or release information from any student record as specifically required by federal or state statute.
 8. The District shall grant access to, or release information from, student records to any person possessing a written, dated consent, signed by the parent or eligible student with particularity as to whom the records may be released, the information or record to be released, and the reason for the release. One copy of the consent form will be kept in the records, and one copy shall be mailed to the parent or eligible student by the Superintendent. Whenever the District requests the consent to release certain records, the

records custodian shall inform the parent or eligible student of the right to limit such consent to specific portions of information in the records.

9. The District may release student records to the Superintendent or an official with similar responsibilities in a school in which the student has enrolled or intends to enroll, upon written request from such official.
10. Prior to the release of any records or information under items 6, 7, 8, and 9 above, the District shall provide prompt written notice to the parents or eligible student of this intended action except as specified in item 6. This notification shall include a statement concerning the nature and substance of the records to be released and the right to inspect, copy, and challenge the contents.
11. The District may release student records or information in connection with an emergency, without parental consent, if the knowledge of such information is necessary to protect the health or safety of the student or other persons. The records custodian shall make this decision taking into consideration the nature of the emergency, the seriousness of the threat to the health and safety of the student or other persons, the need for such records to meet the emergency, and whether the persons to whom such records are released are in a position to deal with the emergency. Any release that is made must be narrowly tailored considering the immediacy, magnitude, and specificity of the information concerning the emergency and the information should only be released to those persons whose knowledge of the information is necessary to provide immediate protection of the health and safety of the student or other individuals (i.e. law enforcement, public health officials, trained medical personnel). The exception is temporarily limited to the period of the emergency and does not allow for a blanket release of personally identifiable information from a student's records. The District shall notify the parents or eligible student as soon as possible of the information released; the date of the release; the person, agency, or organization to which the release was made; and the purpose of the release and the same information shall be recorded in the student's record log.
12. The District will comply with an *ex parte* order requiring it to permit the U.S. Attorney General or designee to have access to a student's school records without notice to or consent of the student's parent(s)/guardian(s).
13. The District may charge a fee for copying information in the student's records. No parent or student shall be precluded from copying information because of financial hardship. See Policy 4260 for information regarding the District copy fee schedule.
14. A log of all releases of information from student records, including all instances of access granted, whether or not records were copied, shall be kept and maintained as part of such records. This log shall be maintained for the life of the student record and shall be accessible only to the parent or eligible student, records custodian, or other such person. The log of release shall include:
 - A. Information released or made accessible;

- B. The name and signature of the records custodian;
- C. The name and position of the person requesting the release or access;
- D. The legitimate interests the parties had in requesting or obtaining the information;
- E. The date of the release or grant of access;
- F. A copy of any consent to such release; and
- G. Any additional information required by State or federal law.

Directory Information

The District may release certain directory information regarding students, except that parents may prohibit such a release. Directory information shall be limited to:

- 1. Name;
- 2. Grade level;
- 3. Parents'/guardians' names and addresses;
- 4. Academic awards, degrees, and honors;
- 5. Information in relation to school-sponsored activities, organizations, and athletics;
- 6. Major field of study;
- 7. Period of attendance in school; and
- 8. A student's photo solely for the purpose of publication or recognition of a student's honors, awards, or achievements, or for any District informational or promotional use on its social media or other publications, or for any yearbook.

The notification to parents and students concerning school records will inform them of their right to object to the release of directory information.

Military Recruiters/Institutions of Higher Education

Pursuant to federal law, the District is required to release the names, addresses, and telephone numbers of all high school students to military recruiters and institutions of higher education upon request. The notification to parents and students concerning school records will inform them of their right to object to the release of this information.

Student Record Challenges

Parents/guardians may challenge the accuracy, relevancy, or propriety of the records, except for grades, and references to expulsions or out-of-school suspensions, if the challenge is made when the student's school records are being forwarded to another school. They have the right to request a hearing at which each party has:

- 1. The right to present evidence and to call witnesses;
- 2. The right to cross-examine witnesses;
- 3. The right to counsel;
- 4. The right to a written statement of any decision and the reasons therefore; and

5. The right to appeal an adverse decision to an administrative tribunal or official, to be established or designated by the State Board.

The parents may insert a written statement of reasonable length describing their position on disputed information. The school will include a statement in any release of the information in dispute.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. **The right to inspect and copy the student's education records within a reasonable time of the day the District receives a request for access.**

Students less than 18 years of age have the right to inspect and copy their permanent record. Parents/guardians or students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will

make arrangements for access and notify the parent(s)/ guardian(s) or eligible student of the time and place where the records may be inspected.

The District charges a nominal fee for copying, but no one will be denied their right to copies of their records for inability to pay this cost.

The rights contained in this section are denied to any person against whom an order of protection has been entered concerning a student.

When the student reaches 18 years of age, or is attending an institution of post secondary education, all rights and privileges accorded to the parent become exclusively those of the student.

- 2. The right to request an amendment of the student's education records that the parent(s)/guardian(s) or eligible student believes is inaccurate, misleading, irrelevant, or improper.**

Parents/guardians or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, irrelevant, or improper. They should write the school principal or records custodian, clearly identifying the part of the record they want changed, and specify the reason.

If the District decides not to amend the record as requested by the parent(s)/guardian(s) or eligible student, the District will notify the parent(s)/guardian(s) or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Such notice shall be in writing and provided within a reasonable period of time after the hearing. Additional information regarding the hearing procedures will be provided to the parent(s)/guardian(s) or eligible student when notified of the right to a hearing.

- 3. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA or State law authorizes disclosure without consent.**

Disclosure is permitted without consent to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent(s)/guardian(s) or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to individuals described in this paragraph, the parent(s)/guardian(s) will receive written notice of the nature and substance of the information and an opportunity to inspect, copy, and challenge such records. The right to challenge school student records does not apply to:

- A. Academic grades of their child; or
- B. references to expulsions or out-of-school suspensions

if the challenge is made at the time the student's school student records are forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting, or planning, provided that no student or parent(s)/guardian(s) can be identified; any person named in a court order; and appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons.

- 4. **The right to a copy of any school student record proposed to be destroyed or deleted.**
- 5. **The right to prohibit the release of directory information concerning the parent's/guardian's child.**

Throughout the school year, the District may release directory information regarding students, limited to:

- A. Name;
- B. Grade level;
- C. Parents'/guardians' names and addresses;
- D. Academic awards, degrees, and honors;
- E. Information in relation to school-sponsored activities, organizations, and athletics;
- F. Major field of study;
- G. Period of attendance in school;
- H. A student's photo solely for the purpose of publication or recognition of a student's honors, awards, or achievements or for any District informational or promotional use on its social media or other publications.

Any parent(s)/guardian(s) or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice. No directory information will be released within this time period, unless the parent(s)/guardian(s) or eligible student is specifically informed otherwise.

- 6. **The right to request that that information not be released to military recruiters and/or institutions of higher education.**

Pursuant to federal law, the District is required to release the names, addresses, and telephone numbers of all high school students to military recruiters and institutions of higher education upon request.

Parent(s)/guardian(s) or eligible students may request that the District not release this information, and the District will comply with the request.

7. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

Student Data Privacy and Security

The efficient collection, analysis, and storage of student information is essential to improve the education of our students. As the use of student data has increased and technology has advanced, the need to exercise care in the handling of confidential student information has intensified. The privacy of students and the use of confidential student information is protected by federal and State laws, including the Family Educational Rights and Privacy Act (FERPA) and the Idaho Student Data Accessibility, Transparency, and Accountability Act of 2014 (Idaho Data Accountability Act).

Student information is compiled and used to evaluate and improve Idaho’s educational system and improve transitions from high school to postsecondary education or the workforce. The Data Management Council (DMC) was established by the Idaho State Board of Education to make recommendations on the proper collection, protection, storage, and use of confidential student information stored within the Statewide Longitudinal Data System (SLDS). The DMC includes representatives from K-12, higher education institutions and the Department of Labor.

This model policy is required by the Idaho Data Accountability Act. In order to ensure the proper protection of confidential student information, the District shall adopt, implement and electronically post this policy to its website. It is intended to provide guidance regarding the collection, access, security, and use of education data to protect student privacy. This policy is consistent with the DMC’s policies regarding the access, security, and use of data maintained within the SLDS. Violation of the Idaho Data Accountability Act may result in civil penalties.

Definitions

Administrative Security consists of policies, procedures, and personnel controls including security policies, training, and audits, technical training, supervision, separation of duties, rotation of duties, recruiting and termination procedures, user access control, background checks, performance evaluations, and disaster recovery, contingency, and emergency plans. These measures ensure that authorized users know and understand how to properly use the system in order to maintain security of data.

Aggregate Data is collected or reported at a group, cohort, or institutional level and does not contain PII.

Data Breach is the unauthorized acquisition of PII.

Logical Security consists of software safeguards for an organization’s systems, including user identification and password access, authenticating, access rights, and authority levels. These measures ensure that only authorized users are able to perform actions or access information in a network or a workstation.

Personally Identifiable Information (PII) includes: a student's name; the name of a student's family; the student's address; the students' social security number; a student education unique identification number or biometric record; or other indirect identifiers such as a student's date of birth, place of birth or mother's maiden name; and other information that alone or in combination is linked or linkable to a specific student that would allow a reasonable person in the school community who does not have personal knowledge of the relevant circumstances, to identify the student.

Physical Security describes security measures designed to deny unauthorized access to facilities or equipment.

Student Data means data collected at the student level and included in a student's educational records.

Unauthorized Data Disclosure is the intentional or unintentional release of PII to an unauthorized person or untrusted environment.

Collection

The District shall follow applicable State and federal laws related to student privacy in the collection of student data.

Access

Unless prohibited by law or court order, the District shall provide parents, legal guardians, or eligible students, as applicable, the ability to review their child's educational records.

The Superintendent or designee, is responsible for granting, removing, and reviewing user access to student data. An annual review of existing access shall be performed.

Access to PII maintained by the District shall be restricted to:

1. The authorized staff of the District who require access to perform their assigned duties; and
2. Authorized employees of the State Board of Education and the State Department of Education who require access to perform their assigned duties; and
3. Vendors who require access to perform their assigned duties.

Security

The District shall have in place Administrative Security, Physical Security, and Logical Security controls to protect from a Data Breach or Unauthorized Data Disclosure. The District shall immediately notify the Executive Director of the Idaho State Board of Education and the State Superintendent of Public Instruction in the case of a confirmed Data Breach or confirmed Unauthorized Data Disclosure. The District shall also notify in a timely manner affected individuals, students, and families if there is a confirmed Data Breach or confirmed Unauthorized Data Disclosure.

Use

Publicly released reports shall not include PII and shall use Aggregate Data in such a manner that re-identification of individual students is not possible.

District contracts with outside vendors involving student data, which govern databases, online services, assessments, special education or instructional supports, shall include the following provisions which are intended to safeguard student privacy and the security of the data:

1. Requirement that the vendor agree to comply with all applicable State and federal law;
2. Requirement that the vendor have in place Administrative Security, Physical Security, and Logical Security controls to protect from a Data Breach or Unauthorized Data Disclosure;
3. Requirement that the vendor restrict access to PII to the authorized staff of the vendor who require such access to perform their assigned duties;
4. Prohibition against the vendor’s secondary use of PII including sales, marketing, or advertising;
5. Requirement for data destruction and an associated timeframe; and
6. Penalties for non-compliance with the above provisions.

The District shall clearly define what data is determined to be directory information.

If the District chooses to publish directory information which includes PII, parents must be notified annually in writing and given an opportunity to opt out of the directory within a specified period of time. If a parent does not opt out, the release of the information as part of the directory is not a Data Breach or Unauthorized Data Disclosure.

Relations with Non-custodial Parents

Access to Students

The parent with whom the student primarily resides shall be recognized by the District as the custodial parent unless a current legal document or signed parental agreement indicates otherwise. Unless there are specific court-imposed restrictions on custody or visitation, such as:

1. A final divorce decree;
2. Interim orders, in the case that the parents are separated; or
3. A restraining order,

the non-custodial parent, upon written request, may visit the child briefly at school. If restrictions are made relative to these rights, the custodial parent will be required to submit a certified copy of all relevant court orders, to the Superintendent, which curtails these specific rights.

While both parents, absent a court document described above can visit the student at school, only the custodial parent has the right to remove the student from school property. Only a verified note from the custodial parent will be cause for exception to this provision. If school personnel anticipate possible student abduction, law enforcement personnel are to be notified immediately.

Access to Student Records

Unless informed otherwise, the Wallace School District assumes that there are no restrictions regarding the non-custodial parent's right to be kept informed of the student's school progress and activities. If restrictions are made relative to these rights, the custodial parent will be required to submit to the Superintendent a certified copy of all relevant court orders which curtail these specific rights. Otherwise, the non-custodial parent, upon written request may view the student's educational, medical, or similar records maintained in such student's cumulative record, receive school progress reports, and have an opportunity to conference with the student's teacher(s).

The custodial parent has the responsibility to keep the school office informed as to the address of the student's primary residence, in a manner determined by the school, and how he or she may be contacted at all times. The School District reserves the right to request verification in the form of a certified court document from any party presenting legal documents.

If request is made for a flagged record, the record shall not be forwarded and the local law enforcement agency shall be notified of the request for the flagged record.

Any request concerning flagged records or knowledge as to the whereabouts of a missing or runaway child shall immediately be reported to the local law enforcement agency.
